Garden City, New York

TO THURLOW CHRISTIAN NELSON,
Head of the Department of Zoology, and faculty advisor for biological and pre-medical students, the 1942 volume of *The Scarlet Letter* is respectfully dedicated.

Professor Nelson's achievements—down through the years—make an impressive record.

He was born September 22, 1890, in New Brunswick. His father, Dr. Julius Nelson, was Professor of Biology at Rutgers College for twenty-seven years and Biologist, State Experimental Station in Oyster Research. Dr. Nelson received his B.S. from Rutgers in 1913, and his Ph.D. from Wisconsin in 1917. He majored in zoology and physiological chemistry and was elected to Phi Beta Kappa at Rutgers and Phi Sigma at Wisconsin.

Dr. Nelson enlisted as a private in the Medical Department in 1917, was commissioned as a First Lieutenant in the Sanitary Corps in 1918, and served with the Food Division of the Surgeon General's Office. He came to Rutgers in 1919 as an Assistant Professor of Zoology and became head of the department in 1925 following an appointment as an Associate Professor in 1923. In 1926 Dr. Nelson became Professor of Zoology.

His chief work has been the study of the biology of the oyster and of teredo, parasitology, the physiology of lamellibranch molluscs, and aquatic pollution. He was an assistant in the Oyster Investigation Laboratory, New Jersey Experiment Station, 1910–1915, and has been the biologist in charge of shellfish investigations of the Station since 1916. He has also been Biologist, New Jersey State Water Policy Commission since its formation in 1929 and is now the only charter member of the Commission. In 1931, Professor Nelson studied at the Marine Biological Laboratory, Plymouth, and the London School of Tropical Medicine.

He is a member of the American Society of Zoologists—treasurer, 1939–1941; the Ecological Society of America—Chairman of the Committee on Aquatic Pollution; the American Society of Parasitologists; the Society for Experimental Biology and Medicine; the Committee for the Preservation of Natural Conditions—representative for New Jersey; the National Coast Anti-Pollution League -consulting biologist; the Limnological Society of America; the American Microscopical Society—vice-president, 1941; and the American Society of Naturalists.

Rutgers men are proud of Dr. Nelson's record as a scientist, but it is his rich, colorful, and friendly personality and the excellent quality of his teaching that have endeared him to every student that has worked under his guidance.

Contents

1. Down Through the Years 13
   Development of Rutgers. From Arts and Sciences to Agriculture, Engineering, Ceramics, College for Women, Education, and Chemistry.

2. And Gladly Teach 31
   The Presidents Down Through the Years. The Trustees. The Administration. The Deans. The Faculty.

3. That We May Learn 43
   History and Development of the Student Body. The Seniors, Their Curricula and Activities.

4. Wreaths of Laurel 123
   History of the Honor Societies. Standards and Activities of the Societies. Members Selected.

5. The Spice of Life 143

9. Indexes 309
   Subject Index. Student Index.

Preface

IN DESIGNING the 1942 *Scarlet Letter*, we have assiduously tried to avoid the "flashy" typography that makes—perhaps—the preparatory school annual, yet mars so many otherwise good college yearbooks. We have endeavored to compose a dignified book along the lines that we hope have become a Rutgers standard. It is of a style that will entitle it to take its place quietly and proudly with any permanent collection of good books and, because of its size, it need not be relegated to the attic after its short life of display on the parlor table.

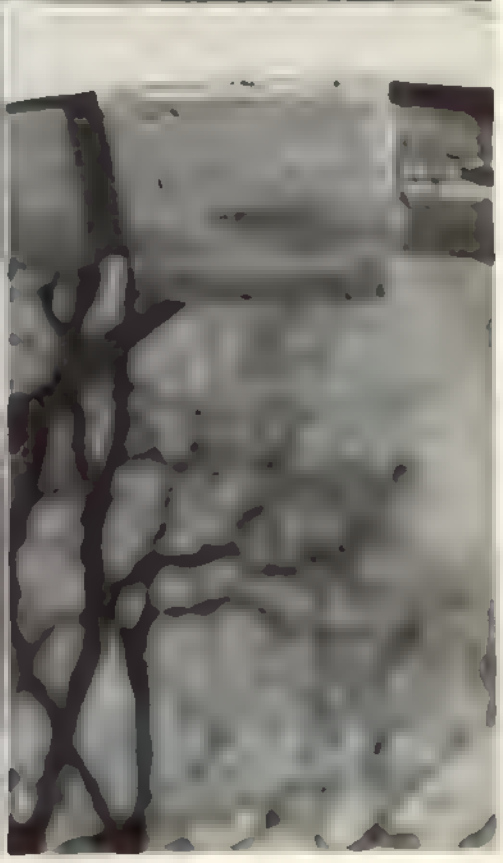
It is hoped that down through the years you will often take this book from your library shelf and renew your memories of Old Rutgers. We have tried to create a conservative yet attractive yearbook that will be as faithful in your old age as it is in your young manhood.

Every picture was carefully selected to grace the space designed for it before the photography was begun. The type face, the cover, and the paper were thoughtfully chosen with the purpose of making the book a harmonious whole.

Just as we were completing the plans for the yearbook, the dark shadow of the Pearl Harbor incident fell athwart our campus and ended the comfortable course of the Class of 1942. The shortened college year has increased our academic load and has taken a much needed month from the scheduled work of the yearbook staff. However, by doubling our efforts we have made amends and with pride we present the 1942 *Scarlet Letter*. May it forever serve as a tie to bind you to Old Rutgers and keep verdant the memories of your classmates, some of whom may be called upon to pay the supreme sacrifice that men of good will may freely meet on this campus down through the years to come.

C. N. S.

S. R. C.



CHAPTER ONE

Down Through the Years

RUTGERS UNIVERSITY is one hundred seventy-six years old. Founded in 1766 with the grant of the charter by King George III, Old Queens was the eighth college to be established within the American Colonies. The first charter was lost and a Second Royal Charter was proclaimed by Governor William Franklin in 1770. These charters were links in a chain of all-important events.

This old college had its real beginning in the mind of one Theodore Frelinghuysen in 1755. Following up unfruitful letters to the Classis of the Dutch Reformed Church in Amsterdam, the colonial promoter made the long sea voyage to the Netherlands to plead for his project. His death soon after his return left the task in the hands of a vigorous young minister, Jacob Hardenbergh, who married Frelinghuysen's widow. Constant effort won its reward on November 10, 1766, when the King of England bestowed the first charter to Queens College, named in honor of the royal consort, Queen Charlotte.

The college was authorized, organized, and named, but not located.

¶ Pictured at the top is the heart of the Rutgers campus, Old Queens building, constructed in 1809. The view at the lower left shows the front entrance to the edifice, the keystone of which, as is seen by looking upward and out of the building, is also the dated cornerstone.

The trustees were puzzled, but finally narrowed the choice to New Brunswick, and Hackensack. Hackensack loudly boasted its proximity to New York, but, in a close ballot, New Brunswick was selected. The trustees purchased "The Sign of the Red Lion," a sturdy old tavern at the present corner of Albany Street and Neilson Street, and engaged eighteen-year-old Frederick Frelinghuysen, nephew of old Theodore, as the first tutor.

In 1774 the local newspaper informed its readers of the first commencement of Queens College. The epochal graduating class consisted of one student. Before his parents, the trustees, and a sizable crowd, he delivered impressive orations in French, Latin, and Greek, the first courses taught in the College of Arts and Sciences. A year later at least five students earned their degrees.

The American Revolution interrupted the existence of Queens, but not for long. 1791 saw the institution moved to a small frame building at George and Livingston Streets, where a monument now commemorates the event. Finally, in 1809, the trustees purchased a site and engaged John McComb, a noted architect, to design Old Queens building in order to bring the college "to that pitch of publick utility which the present view of things seems to encourage." And not only did John McComb plan a structure of utility, but also an edifice beautiful in proportion and simplicity.

In an era of hard times soon after the completion of this building, the Dutch Reformed Seminary was brought to New Brunswick to give the college a strong support. Dr. John H. Livingston, president of the college from 1810 to 1825, was chiefly responsible for this renewal of strength. By 1864, the New Brunswick Theological Seminary was located on its own campus, and the covenant with the Dutch Reformed Church was ended, leaving Rutgers independent and non-sectarian.

While the two institutions have been separated since that year, Rutgers has been the chief feeder to the Theological Seminary, and several hundred students of Rutgers have entered the ministry of the Dutch Reformed Church. Among them have been men of the calibre of Graham Taylor, famed Chicago political and social reformer of the late decades

of the twentieth century; the magnetic preacher and writer, Thomas DeWitt Talmadge; and the outstanding educator, Chester D. Hartranft. And so it is that Rutgers University and the New Brunswick Theological Seminary, though now separate institutions, can look back to a common heritage as children of the Dutch Reformed Church.

A pillar of this same Dutch Reformed Church was Colonel Henry Rutgers. Well-educated, wealthy, and philanthropic, he served as president of the Reformed Church for eleven years. It was in 1826 that Colonel Henry, a friend of Dr. Philip Milledoler, trustee and later president of Rutgers, presented the funds with which to purchase the bell which still rings out from the cupola atop Old Queens. When looking for a name more in keeping with the spirit of American independence to replace the misnomer, Queens, the trustees selected "Rutgers College" in honor of the generous Colonel Henry Rutgers.

Whether or not the change of name was responsible, the little college began to flourish. When the doors of Rutgers reopened, thirty students presented themselves for registration, six more joining the student body during the same year. The following year the total number of enrollments was sixty-four.

Perhaps because of this increase in attendance, a host of new subjects became fields for classroom exploitation. To the former theology, English grammar, Latin, Greek, and morals, now were added the romance languages, mathematics, philosophy, rhetoric, history, and even chemistry.

Rutgers was selected as the land grant college of New Jersey at the close of the Civil War, and on April 4, 1864, almost two years after the passage of the Morrill Land-Grant Act of Congress, the College of Agriculture and the College of Engineering were founded. U. S. lands, given by Congress to each state, were sold, and the proceeds were used as a "permanent endowment of a college or colleges in that state, especially maintained for the benefit of agriculture and the mechanical arts," and so two more colleges took their places with that of the liberal arts. Professor Cook of the Department of Chemistry and Natural Sciences was intensely interested in the project, and it was he who supervised the establishment of the two colleges. $116,000 was received from the land

sales, and ninety acres for the college farm were purchased. Classroom buildings were erected. Professor Luther H. Tucker, of the Rutgers class of 1858, was the first Professor of Agriculture.

Agricultural activities at Rutgers increased in 1887 with the establishment of the State Experimental Station, where such typical activities as peach growing, oyster culture, soil erosion, and mosquito extermination are taught. Closely allied with this work were Professor Byron D. Halstead, Professor of Botany from 1889 until 1918, and Professor Julius Nelson, Professor of Biology from 1888 until his death in 1916. Dr. Nelson achieved nationwide fame and respect as an authority on the preservation, cultivation, and development of the oyster. The continued improvement of New Jersey's oyster cultivation must be credited to his son, Dr. Thurlow C. Nelson.

Major J. H. Kellogg, class of '60, and also a West Point graduate, headed the College of Engineering at its beginning. Its first graduation ceremony saw two receive diplomas, and it was not until more than forty years after that that Rutgers's reputation as an "engineer's college" became widespread. This reputation, still deserved, is due in large part to the able and effectual leadership of Professor John C. Smock and the present dean, Dr. Parker H. Daggett. The College includes the Departments of General, Civil, Sanitary, Electrical, and Mechanical Engineering. Last year, the C.A.A. program of courses for students desiring to learn to fly was placed under the administration of Professor Ubert C. Holland of the General Engineering Department. The whole college has assumed new importance with the coming of the present emergency, and the prospect is that all engineering and chemistry students will study through the summer, in order that their knowledge and services may be sooner available to the nation.

Along with the progress and expansion in the engineering curriculum,

¶ The top photograph shows the new annex to the Engineering Building, headquarters of the Defense Program offices and of the new auditorium, scene of numerous lectures and performances. Beneath in an aerial view the College of Agriculture campus extends from the edge of the N.J.C. campus to the College Farm in the center background, with the Brunswick Pike in the distance.

a new field was opened to the Rutgers scholar with the foundation of the Department of Ceramics on March 17, 1902. At a time when only two or three such schools and research stations were functioning, clay working and ceramics became a part of the Rutgers curriculum. A small building adjacent to the Preparatory School was adjusted to the use of the department, and Professor Cullen W. Parmelee, Class of 1896, became Professor of Ceramics, holding that position until 1917. The present head of the Department is Director George H. Brown. It is interesting to note that a Rutgers ceramist selected the tile for the Holland Tunnel and gave the subways a perfected non-skid tile.

A broad step was taken on April 12, 1918, when one of the important units of Rutgers, the New Jersey College for Women, opened its doors. The college is situated two miles across town from the main body of university buildings. It is among the youngest of the colleges, having been founded just two months before the armistice was signed. One of the many features of the campus of this college is the small cottage dormitories which are arranged in horseshoes. There are three of these besides the main dormitory, Jameson.

Two other buildings that hold an important place in the activities of the college are the alumnae house, Woodlawn, the gift of the late James Neilson, and the Elizabeth Rodman Voorhees Chapel. Other buildings house the twenty-four teaching departments which include the fine arts, language and literature, social sciences, mathematics, and the natural sciences, and professional and pre-professional courses. The subjects are taught by a competent faculty headed by Dean Margaret T. Corwin, who has served as dean since 1934.

There are no sororities on the campus. However, their absence is not felt by the students. The dormitory cottages themselves afford an opportunity for intimate companionship, as do the numerous clubs and societies which represent practically all the fields of study in the college.

¶ The Department of Ceramics occupies a modern structure near the Engineering Building, while in upper right, Voorhees Chapel at N.J.C. presents a familiar picture. The botanists use the greenhouse shown in center. In the lower view, stately trees on Neilson Campus frame the Chemistry Building.

Recreation for the students is well provided by a full program of sports, including swimming in the college pool on Jameson Campus, riding, golf, tennis, hockey, dancing, and many other activities. The Christmas Dance is the largest dance of the year, and takes place just before the closing of school for the Christmas vacation, while the various clubs hold many small Saturday night dances throughout the school year at either the Cabin or the Lodge.

For the larger dances the school is divided into its classes and each class holds its dance separately in one of the many recreation rooms and buildings. The students eagerly anticipate their own dances as well as those at the men's college.

Altogether, N.J.C. has in the quarter of a century of its existence built an excellent reputation scholastically. The college has grown swiftly to a school of one thousand students, yet despite the rapidity the growth has been healthy, so carefully were the plans laid out at its founding. The college has become a definite part of the University and is proud to claim as its own the time-honored traditions of Rutgers University.

With the establishment in 1924 of the School of Education, Rutgers College, thus enlarged, became Rutgers University. Additions followed in succession, as extension and evening study in the University Extension Division came into existence in 1925, followed by the College of Pharmacy in Newark in 1927, the School of Chemistry in 1930, the Graduate Faculty in 1932, and University College on January 12, 1934.

Chemistry had long been a valuable subject of study among the courses offered at Rutgers. As far back as 1832, chemistry was presided over by a full professor, Dr. Lewis C. Beck, a friend of Samuel F. B. Morse, who decked his classroom with miles of brass wire and demonstrated electrical transmission well before the telegraph was announced. Ralph G. Wright, professor and trustee, long occupied the chair of chemistry. And finally on May 23, 1930, the School of Chemistry was separated from the Col-

¶ The alumnae house, Woodlawn, as seen from the River Road. This house is the center of many of the college's social events. The middle view is a row of dormitory buildings on Jameson Campus, while the stately Music House appears at the bottom.

lege of Arts and Sciences. The present building was occupied as Dr. Harold A. Fales became head of the school. Dr. Fales was succeeded by beloved Dean William T. Read, of distinguished career and ready humor.

Other names come to mind, the names of familiar characters of the faculty of Old Queens, some no longer seen strolling through Seminary Place or climbing Holy Hill, and others still hurrying to meet that eight o'clock class of impatient students.

The name of one of these men, now no longer with us, instantly springs to our mind. That is Dr. Jacob G. Lipman. Jacob and his brother Charles, now Dean of the Graduate Faculty of the University of Southern California, came to Rutgers from South Jersey. After his graduation, young Jacob Lipman joined the faculty as instructor in soils, and soon achieved national prominence for his research in this subject. He was the founder of the magazine, "Soils Science," Dean of the College of Agriculture, and Director of the Experiment Station. At his death in 1939, Dr. Lipman, father of three Rutgers graduates, was one of New Jersey's best-known and best-liked public figures.

Another notable in the world of agriculture is Professor Frank G. Helyar, Director of Resident Instruction since 1929, and Professor of Animal Husbandry. Before joining the Rutgers faculty in 1917, Professor Helyar studied at the University of Vermont, founded the New York State School of Agriculture, and was editor of the "Voorhees Farmer" magazine. He is former president of the New York State Agriculture Society, member of Phi Beta Kappa, and High Chancellor of Alpha Zeta, as well as vice-president of his fraternity, Alpha Kappa Pi. Around Rutgers, however, Professor Helyar is known not so much as a recipient of many honors and as an educator, lecturer, and author in the realm of scientific agriculture, but rather as a giver of friendly advice and helpful assistance to any undergraduate or any friend.

In the field of Botany, Dr. Minton A. Chrysler is also known as an ad-

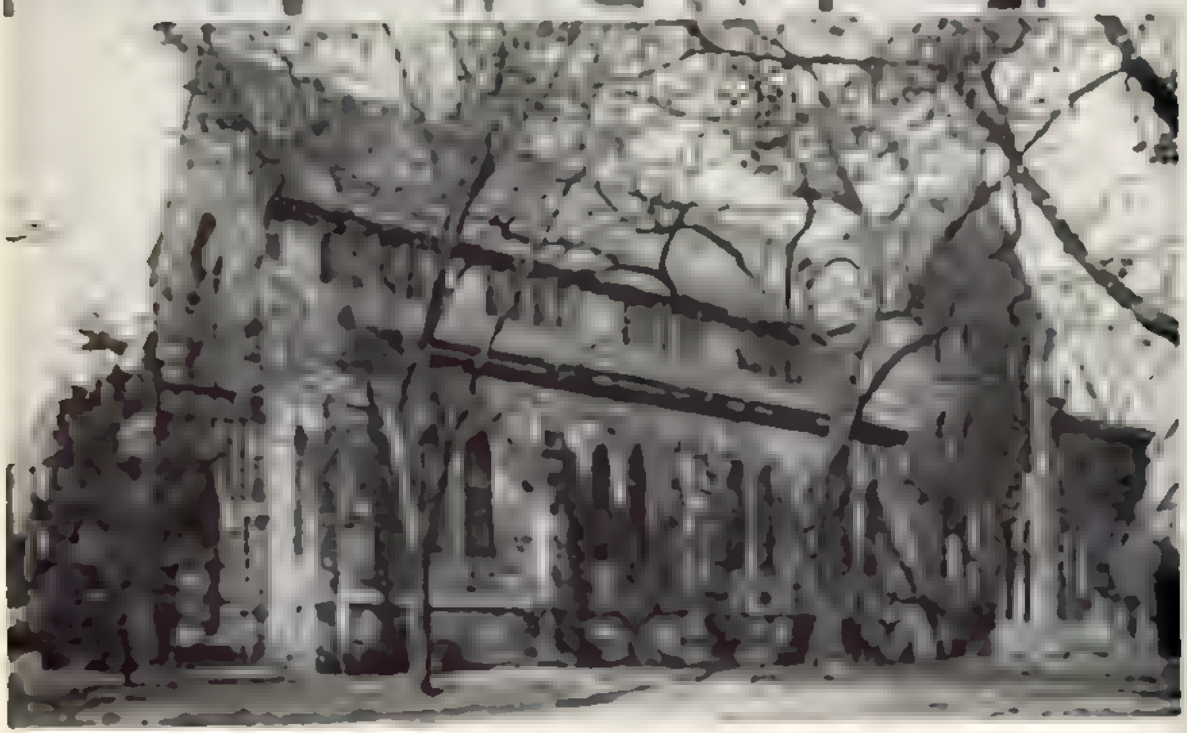
❡ Pictured on the opposite page are familiar sights of the Rutgers campus. At top left is the remodeled Psychology Building, while at the right is the Voorhees Library. Next we see Abraham Van Nest Hall, Geology Hall, and the seat of the History Department, Bishop House. Looking across Neilson Campus stands the Physics Building, one of Rutgers's newer buildings.

visor to the undergraduate. Professor of Botany at Rutgers for nineteen years, Dr. Chrysler is retiring this year and has been recently appointed to the position of Research Professor Emeritus of the Bureau of Biological Research. He secured the degree of Bachelor of Arts at the University of Toronto and his Ph.D. at the University of Chicago. It was after two years as Instructor of Botany and then Professor of Botany at Harvard that Professor Chrysler came to Rutgers. He has written numerous papers in botanical journals and is the author of a chapter in "Plant Life of Maryland." Editor of the "Bulletin of the Torrey Botanical Club," Dr. Chrysler is a Fellow of the American Association to Advance Science, a member of the Botanical Society of America, and a member of the Philadelphia Botanical Club.

Another Rutgers graduate and faculty member who has reached a high position in education is Professor Richard Morris. After receiving his B.Sc. degree in 1899, Dr. Morris became Superintendent of Schools of Dunellen, and later Instructor of Mathematics at Rutgers. By 1913 he had become the Head of the Department, which position he has held since that time. Besides the B.Sc. degree, Professor Morris possesses a M.Sc. and D.Sc. from Rutgers and a Ph.D. degree from Cornell. Author of numerous mathematical articles and the book Selected Chapters in Algebra, he is a member of the College Entrance Board. Dr. Morris belongs to many societies, the most important of which are the American Mathematical Society, Sigma Xi, the National Council of Mathematics, and Phi Beta Kappa, of which he is a past president. He has served Rutgers the longest of any faculty member.

Professor Edmond W. Billetdoux is Rutgers's prime linguist. Master of French, Italian, Spanish and German, Professor Billetdoux studied at Williams, and the universities of Paris, Rome, and Madrid before joining the Rutgers faculty in 1907. He took leave from the University in 1917 and went overseas with the A.E.F. as an infantry captain, received several ci-

¶ The snow-blanketed hill of Queens Campus is crowned, from the left, by Winants Hall, Geology Hall, Old Queens, and Kirkpatrick Chapel. Looking through the iron bars of the main gate to the University, we can see Old Queens framed in beautiful simplicity.



tations for bravery from the French and American governments, and returned as an assistant professor in the Romance Language Department, being named Department Head in 1941.

As we consider Rutgers's history, we note that her advance in the world of education has not been confined to past centuries. The last decade has seen new courses added; new professors have joined the faculty. And yet other aspects of balanced college life have kept pace with the remarkable scholastic achievement: new social groups, fraternities, societies and neutral clubs have been founded; Rutgers has arisen to national prominence in two sports, crew and fencing; Rutgers defeated Princeton in the new football stadium in 1938; and now at last Rutgers has adjusted herself to wartime sacrifice and service. Sons of Old Queens are once again taking the road their predecessors so heroically marched upon in 1776, in the War of 1812, the Mexican War, the Civil War, the Spanish-American War, and the First World War.

This decade has viewed the first use of the huge new Ballantine Gymnasium, the occupation of the new Psychology Building, the erection of the great Engineering Annex and Auditorium, and the completion of the River Campus with its beautiful Stadium, a memorial to the energy of George E. Little and his staff. Thus is completed the first one hundred seventy-six years of Rutgers's life, and the first decade of Dr. Robert C. Clothier's presidency of the College on the Banks.

¶ Pictured at the top is the home of President Clothier, situated on the River Road Campus. Hertzog Hall atop snow clad "Holy Hill" is seen in the center view, while below Kirkpatrick Chapel basks in the morning sun of an autumn day.

175th Anniversary Celebration

On October 9, 10, and 11, 1941, the University celebrated the 175th anniversary of the granting of the charter to Queens College by His Majesty George the Third of England.

A number of distinguished American scholars came to the campus on October 9 and 10 to take part in a series of addresses and symposia in Applied Science, Social Science, Natural Science, and Arts and Letters. Among those who were present were Dr. Karl T. Compton, Dr. Roscoe Pound, Professor Roy F. Nichols, Dr. Irving Langmuir, Dr. Ernest O. Lawrence, Mr. Maxwell Anderson, Professor Rhys Carpenter, and Professor Roy Harris.

On the evening of October 9, the New Jersey Dinner, addressed by Governor Edison, was held in the Gymnasium. The Dinner for Delegates, attended by about 700 delegates and hosts, took place on the evening of October 10.

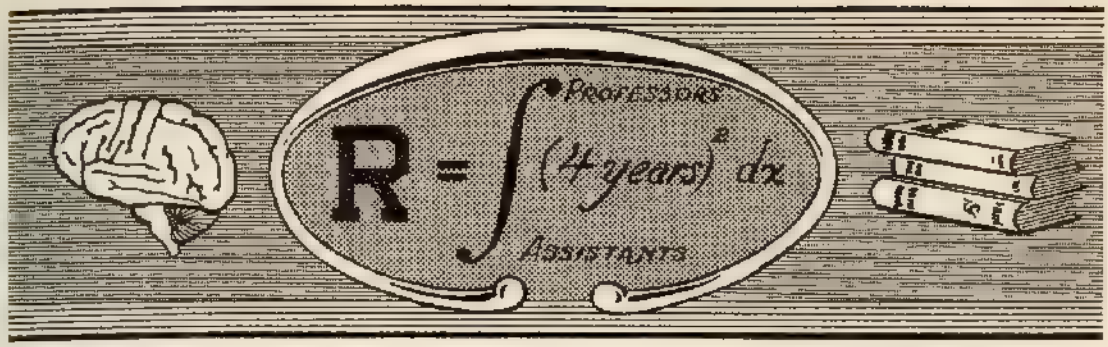
There was held on Saturday morning the Anniversary Convocation, preceded by an academic procession of faculty members and delegates. Sixteen honorary degrees were awarded. A most interesting event of the morning was the awarding by radio of the honorary degree of Doctor of Laws to Her Majesty Queen Wilhelmina of the Netherlands. Queen Wilhelmina responded by short wave radio from London.

Dr. William H. S. Demarest was toastmaster at the Alumni-Alumnae Dinner Saturday evening, at which time the University Awards were presented to F. Raymond Daniell, Dr. John Scudder, Elizabeth C. Clark, and Hazel C. Gosling.

At the final ceremony of the Anniversary, a Service of Thanksgiving and Consecration, held in Kirkpatrick Chapel on Sunday, October 12, the sermon was delivered by Dean Russell R. Wicks of Princeton University.

IN THE GROUP: Recipients of Honorary Degrees—Dr. Demarest, former president of Rutgers; Wendell L. Willkie; Dr. Robert Trullinger, agricultural engineer, U.S.D.A.; Dr. Hugh Scott Taylor, chairman of the Department of Chemistry, Princeton; Dr. Pound, former dean, Harvard Law School; Dr. Carpenter, professor of archaeology, Bryn Mawr College; Dr. Nichols, professor of history, University of Pennsylvania; Dr. Charles McIlwain, Eaton professor of science of government, Harvard; Dr. Clement Williams, president of Lehigh; Dr. Clarence Dykstra, president of University of Wisconsin; Dr. Compton, president of M. I. T.; Dr. Harris, Cornell; Dr. Clothier; Dr. Alexander Loudon, representative of Queen Wilhelmina; Dr. Lawrence, University of California; and Dr. Langmuir, Nobel Prize winner in Chemistry, 1932. *Center*—Governor Edison addressing an evening session during the celebration. *Below*—The Honorable William Ellis and Dr. Harold Stonier as each spoke at the New Jersey Dinner.

1766



CHAPTER TWO

And Gladly Teach

THE first president of the University was the Rev. Jacob R. Hardenbergh who assumed that position in 1786. He was an ardent patriot and during the years of the revolution rendered valuable service to his country both by writing and oratory.

Following this brilliant pioneer came twelve more presidents and presidents pro tem. Among them have been military men, Doctors of Divinity, and men of such financial wizardry as to contribute greatly to the material wealth of the University.

Under the leadership of these men, the school, the faculty, and the student enrollment have grown by leaps and bounds into the university that we know today.

The increase in the membership and caliber of the faculty, from the past to the present time, closely mirrors the development of the school itself, and it is on their shoulders that most of the credit for this development must be placed. The members of the teaching body today represent a well-rounded group with a wide scope of interests and varied talents.

¶ PRESIDENTS OF RUTGERS AND THEIR TERM OF OFFICE: *clockwise from upper left*—Rev. Jacob R. Hardenbergh 1786–1790, William Linn 1791–1794 (not shown), Rev. Ira Condict 1795–1810, Rev. John H. Livingstan 1810–1825, Philip Milledoler 1825–1840, Abraham B. Hasbrouck 1840–1850, Theodore Frelinghuysen 1850–1862, Rev. William H. Campbell 1862–1882, Merrill E. Gates 1882–1890, Dr. Austin Scott 1891–1906, Rev. William H. S. Demarest 1906–1924, Dr. John M. Thomas 1925–1930, and Philip M. Brett 1930–1932; *center*—Robert C. Clothier 1932–

Administration

President: Dr. Robert C. Clothier
Comptroller: Albert S. Johnson
Registrar: Luther H. Martin
Dean of Men: Dr. Fraser Metzger
Assistant to the President: J. Harold Johnston
Acting Secretary of the University: Ernest E. McMahon
Librarian: George A. Osborn
University Physician: Dr. W. Russell Greenwood
Director of Alumni and Public Relations: Prof. Earl R. Silvers
Alumni Secretary: Stanley R. March
Acting Director of Bureau of Personnel and Placement: Morris M. Davidson
Associate Editor of Publications: Earl Schenck Miers
Assistant Director of Public Relations: Edward R. Isaacs
Director of Physical Education: Prof. George E. Little
Purchasing Agent: Edward H. Brill
Director of University Extension Division: Dean Norman Miller
Director of Summer Session: Dr. Clarence E. Partch
Commandant, Rutgers Unit, R.O.T.C.: Col. George R. Koehler

¶ Mr. McMahon, Professor Silvers, Mr. A. S. Johnson. Mr. L. H. Martin, Mr. March, Dr. Greenwood. Professor Little, Mr. Miers, Mr. Brill.

Deans

Fraser Metzger has been the Dean of Men at Rutgers since 1925, following two years as chaplain at the State College of Pennsylvania. Before that time, Dean Metzger had been a minister of the Congregational Church in Vermont. He is a graduate of Union College, and received his Divinity Degree at Defiance College. He has been a state legislator, gubernatorial candidate, and chaplain in the army, as well as an officer in many religious and educational organizations. He holds the honorary degrees of D.D. and L.H.D.

Walter Taylor Marvin is Dean of the College of Arts and Sciences. He is a graduate of Columbia University, where he also received a Litt.D. degree. He studied at the University of Bohn, Germany, where he received the Ph.D. degree. Dr. Marvin first served at Rutgers in the capacity of professor, from 1910 until 1935. He assumed his present office in 1921. Besides Rutgers, he has instructed at Columbia, Western Reserve, and Princeton. Dr. Marvin was born in New York City in 1872. He is the author of numerous books.

Parker Hayward Daggett, Dean of the College of Engineering and Director of Engineering Science and Management Defense Training, has been at Rutgers for twelve years. A graduate of Harvard University, Dean Daggett was a member of the faculty of the University of North Carolina for twenty years. He has held office in many engineering societies and committees, and during the World War was in the War Plans Division of the General Staff. The biographical sketch of Dean Daggett has appeared in "Who's Who in America."

William H. Martin, Dean of the College of Agriculture and Director of the State Experiment Station, was appointed to these positions in 1939. He had previously been affiliated with both institutions since 1915. He was graduated from the University of Maine in that year, and was employed by the Station as a research assistant in plant pathology. Rutgers gave him his master's degree in 1917 and his doctorate a year later. In 1935 Dr. Martin was named the first Director of Research in the Agricultural Experiment Station.

Clarence E. Partch is the Dean of the School of Education and Director of the Summer Session. He received his B.S. in mechanical engineering at the University of Michigan, and his M.Ed. and D.Ed. at Harvard almost twenty years later. Dr. Partch was a high school teacher until 1918. Following the World War he was engaged in soldier rehabilitation work. He first came to Rutgers in 1926 as an associate professor of education and became the dean of the school the following year.

William Thornton Read, Dean of the School of Chemistry, has been at Rutgers since 1930, when he came here from Texas Tech. His position as dean is the only one he has held here. Dr. Read is a graduate of Austin College and has received degrees from the University of Texas and from Yale. He has worked as country editor, college registrar and instructor. During the World War he served in the government chemical service as a lieutenant. Dr. Read has held many offices in various scientific societies and clubs.

CHAPTER THREE

That We May Learn

THE development of the University as it has grown through the years is best reflected in the evolution of its student body. The present enrollment of more than sixteen hundred students in the undergraduate body seems far removed from the time when the institution was no more than a struggling college with a small handful of students. But this transition has not been a smooth one; on the contrary, the rise in enrollment is a modern phenomenon.

For the first full century of its existence, Rutgers grew extremely slowly. The records show that as late as 1865 the total registration of the school was only 81 men. Furthermore, thirty-five years later, at the turn of the century, this enrollment had not increased by much more than a hundred. But then, after the year 1900, the enrollment started a definite upward trend.

Figures taken at five-year intervals since the turn of the century reveal the nature of this increase in the student body. Each one of these periods shows an increase of some 100 students. In the last two decades the enrollment has almost tripled, and in the period 1925–1926 it increased by almost 200 men. The depression caused this enrollment to mark time for a while and even to decline. Since then, however, the swing has been upward.

¶ In the upper picture are shown the objects which are the symbols of a college education, cap, gown, and diploma, while below burn the lights of Old Queens, penetrating the darkness in the same manner as lights of knowledge, issuing from Old Queens College, have penetrated the pages of time.

William H. Aaroe of Perth Amboy majored in sanitary engineering. A member of Alpha Kappa Pi fraternity and the American Society of Civil Engineers, Bill was circulation manager of *The Anthologist*. He was also chaplain of his fraternity. Photography is Bill's most important hobby. He was graduated from Perth Amboy High School.

Leo Ackerman of Robbinsville majored in poultry husbandry and minored in agricultural education. A graduate of Allentown High School, Leo formerly attended Blue Ridge College, but commuted daily to Rutgers. A member of the Poultry Science Club, he took part in Agricultural Field Day, and in the summer he worked on a farm.

Edward I. Adams, Jr., commuter from Highland Park, majored in agriculture. Ed has as hobbies reading, travel, and tennis. The sports in which he participated were 150-pound crew and intramural athletics. Actively interested in the Ag Field Day plans, he was a member of the Agricultural Club, and worked summers with the United States Department of Agriculture.

Thomas T. Adams was graduated from Boonton High School before matriculating at Rutgers. He majored in agriculture and held a State scholarship. Thomas was elected to Alpha Zeta and served it as censor. He was also vice-president of the Forestry Club and a member of the Agricultural Club. He held a commission as Second Lieutenant in the R.O.T.C.

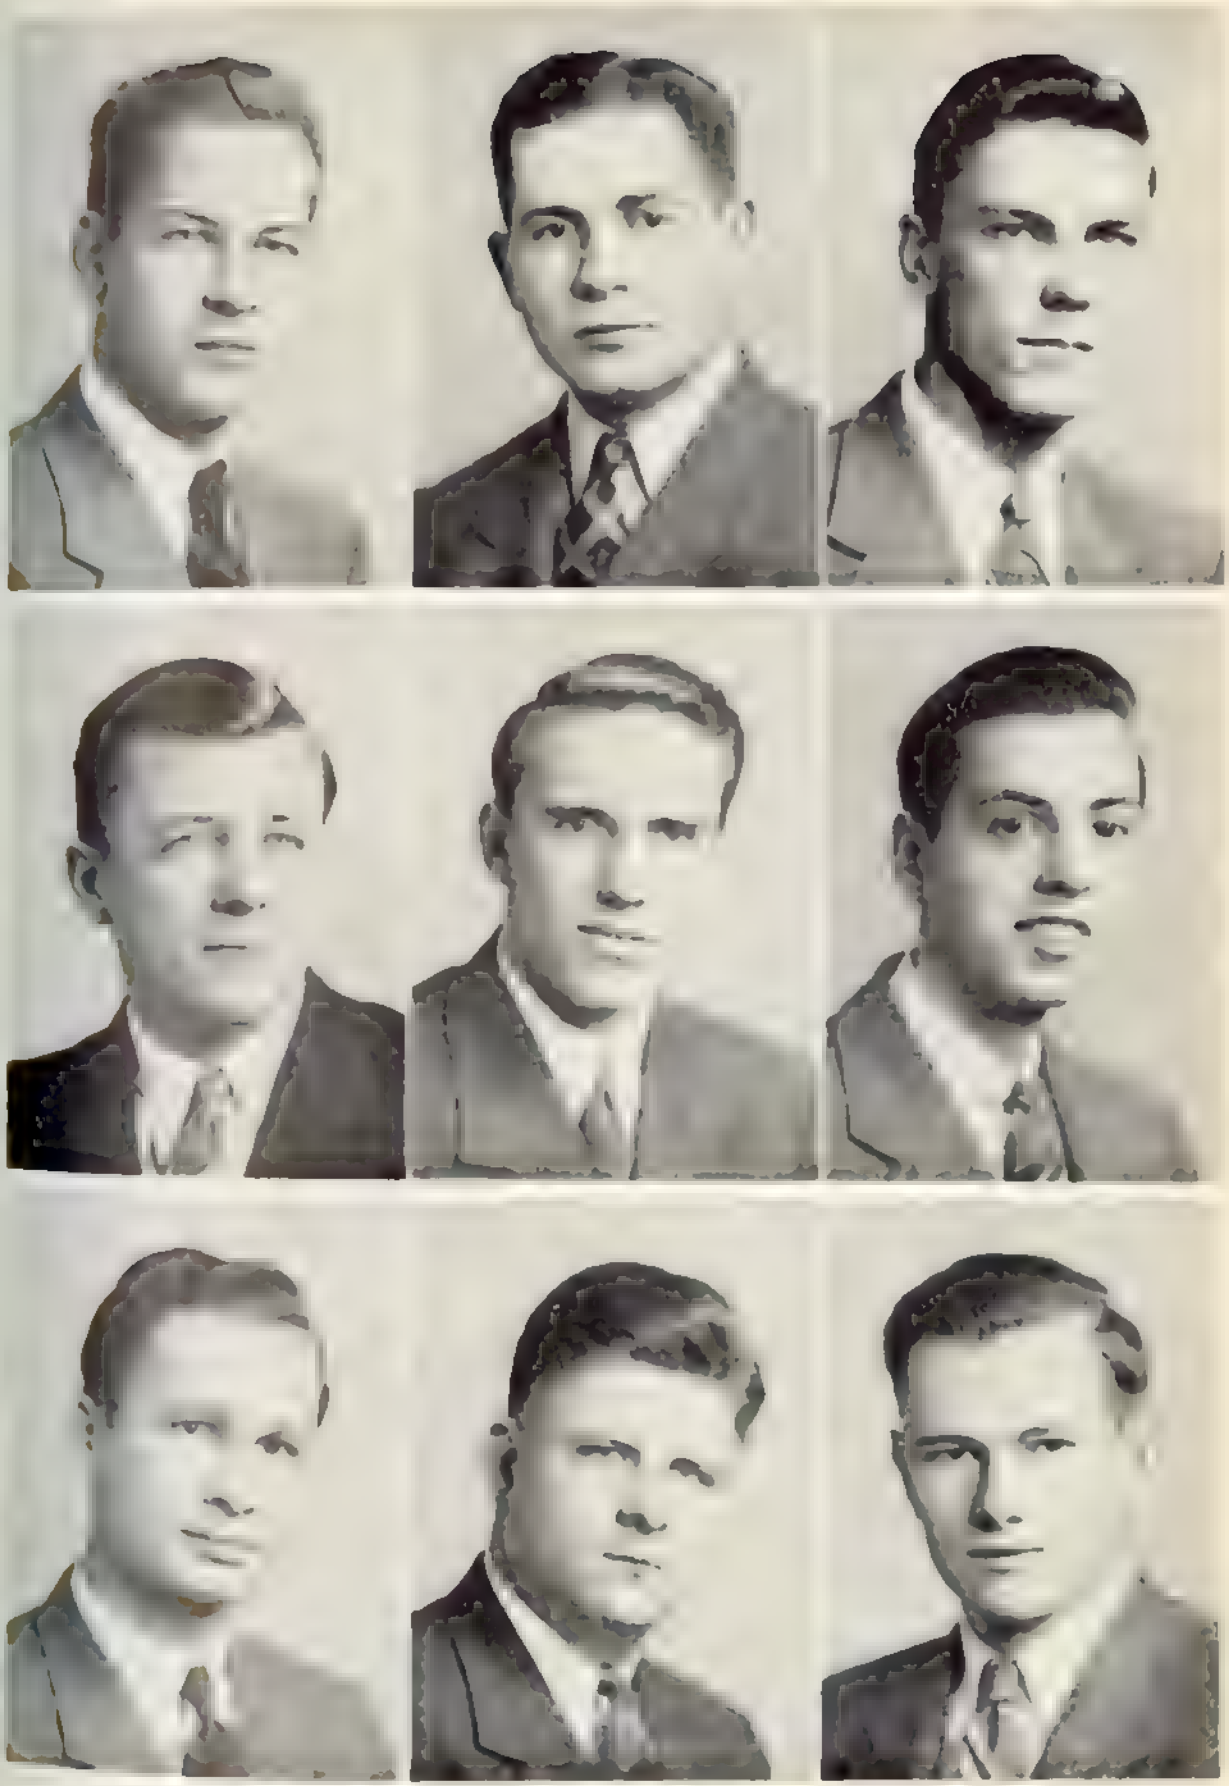
G. Robert Ainslie of East Orange was secretary of the Phi Gamma Delta fraternity and one of the chapel ushers. He took part in 150-pound football and freshman and varsity lacrosse. Interested in sports and reading, Bob is a graduate of Grandview High School. He majored in business administration and during the summer worked for an insurance company.

Howard E. Alexander majored in journalism and minored in psychology. A resident of Silverwhite Gardens, Red Bank, he was graduated from the Red Bank High School. He was a member of the Honor School and the Club Ford. Howard spends his leisure time in the study of American jazz, and summers he worked on a newspaper.

Lawrence T. Alexander, native of Brooklyn, N. Y., majored in psychology with his minor being sociology. Holder of a University scholarship, he attended Boys' High School. Larry won his letter in fencing and participated in swimming and cross-country as well as being a member of the History and International Relations and Sociology Clubs.

Edward H. Allison, a resident of West Orange, majored in business administration. He received his preparatory training at Montclair Academy. Ed is a brother of Chi Psi fraternity where he was house manager during his junior year. He worked on several Queen's Players productions and was enrolled in the advanced R.O.T.C. course with the rank of Second Lieutenant.

Jack F. Ambos was a mechanical engineer from New Market. He received his preparatory education at Bayonne High School. Jack was a member of both the Raritan Club and the Newman Club and his hobby is photography. In the summer his occupation was farming, more specifically truck gardening. His home is located on Stelton Road.



George Anderson, who majored in biology and minored in chemistry, is a member of the Alpha Kappa Pi fraternity. A graduate of Wharton High School, he received his letter in football in his junior year. George was a member of Beta Iota Lambda, honorary biological fraternity, as well as being vice-president of his fraternity. He transferred from Maryville, Tennessee.

Seymour Aronoff of Jersey City, holder of a State scholarship, majored in journalism. He was in the Journalism Club, was publicity manager of Queen's Players, and president of Pi Gamma. News editor of *The Targum*, "Red" also was a member of Hillel, the Winants Club, and the senior class cabinet. He was a newspaper correspondent. "Red" is a graduate of Snyder High School.

Henry D. Austin of New York City majored in Political Science and minored in economics. He was a member of the Lambda Chi Alpha fraternity and Tau Kappa Alpha, which he served as secretary. Henry was also president of the Rutgers Christian Association and acted as freshman debate coach his senior year. He builds model boats as a hobby.

Lyman C. Avery was president of Cap and Skull and Delta Kappa Epsilon fraternity, treasurer of Student Council, senior manager of intramural athletics, a member of Crown and Scroll, Spiked Shoe, and K.Q.T. Holder of an Upson scholarship, he was on the All-American 150-pound football team for two years and won his letter in 150-pound crew. Political science was his major.

George Babcock, Jr. was a commuter from Newark. He majored in the history and political science curriculum and minored in English. Graduating from Central High School, Newark, George first attended Bloomfield College and Seminary and then transferred to Rutgers. He was a member of the History and International Relations Club and his favorite hobby is microscopy.

Raymond L. Balasny, a major in economics and business administration, was the holder of a State scholarship and undergraduate assistant in statistics. In addition to being elected to Tau Kappa Alpha and the Honor School, he was also a member of the Rutgers Sociological Club, Quad Club, Economics Club, History and International Relations Club, Scarlet Barbs, and tennis team.

Douglas Baldwin came to Rutgers from Caldwell where he attended Caldwell High School. He became a member of the Phi Gamma Delta fraternity and majored in ceramics. Doug belonged to the Ceramics Club and played in the university orchestra. During the summer he worked at a soda fountain. Building model airplanes is his favorite hobby.

Nicholas W. Barber lives in South Bound Brook and was graduated from Bound Brook High School and Rutgers Preparatory School before coming to Rutgers. He majored in journalism and played for two years in the university band. Nicholas plays the saxophone and has played in a dance orchestra while in college. A member of the Commuter's Club, he commuted from his home.

Philip J. Barlow a Lion's Club scholarship holder from Hightstown majored in French with English as a minor. A graduate of Hightstown High School, he commuted for four years. Philip was a member of the Newman and Commuters Clubs. He lists his hobbies as collecting pipes, swing music records, and books. During the summers Philip worked as a clerk.

John J. Barnwell, Jr. majored in dairy manufactures and minored in bacteriology. He held a General scholarship and was graduated from St. Peter's High School. John was a member of the Agricultural and Newman Clubs and acted as secretary of the Dairy Science Club. A resident of Highland Park, he was on the freshman baseball team and was active on Agricultural Field Day.

William H. Bauer majored in ceramics after graduating from South River High School. He was a member of the Alpha Chi Rho fraternity and was vice-president and president of the Ceramics Club. William also was a member of the band. He commuted from his home in South River and worked during the summer in the post office. He lists music among his hobbies.

Richard S. Bayne of New Brunswick came to Rutgers after having attended Rutgers Preparatory School. He majored in English and is a member of the Chi Psi fraternity. Dick participated in debating and sports. During his senior year, he was a preceptor and a Second Lieutenant in the R.O.T.C. In the summer, he worked at the World's Fair and was also a camp counselor.

Warren Beckwith was enrolled in the mathematics curriculum. His home is in Little Falls, and while he attended Rutgers he was the holder of a State scholarship. He was elected to the presidency of the Mathematics Club and was a member of Alpha Chi Rho fraternity. He also received the honor of being elected to the Scarlet Key Society.

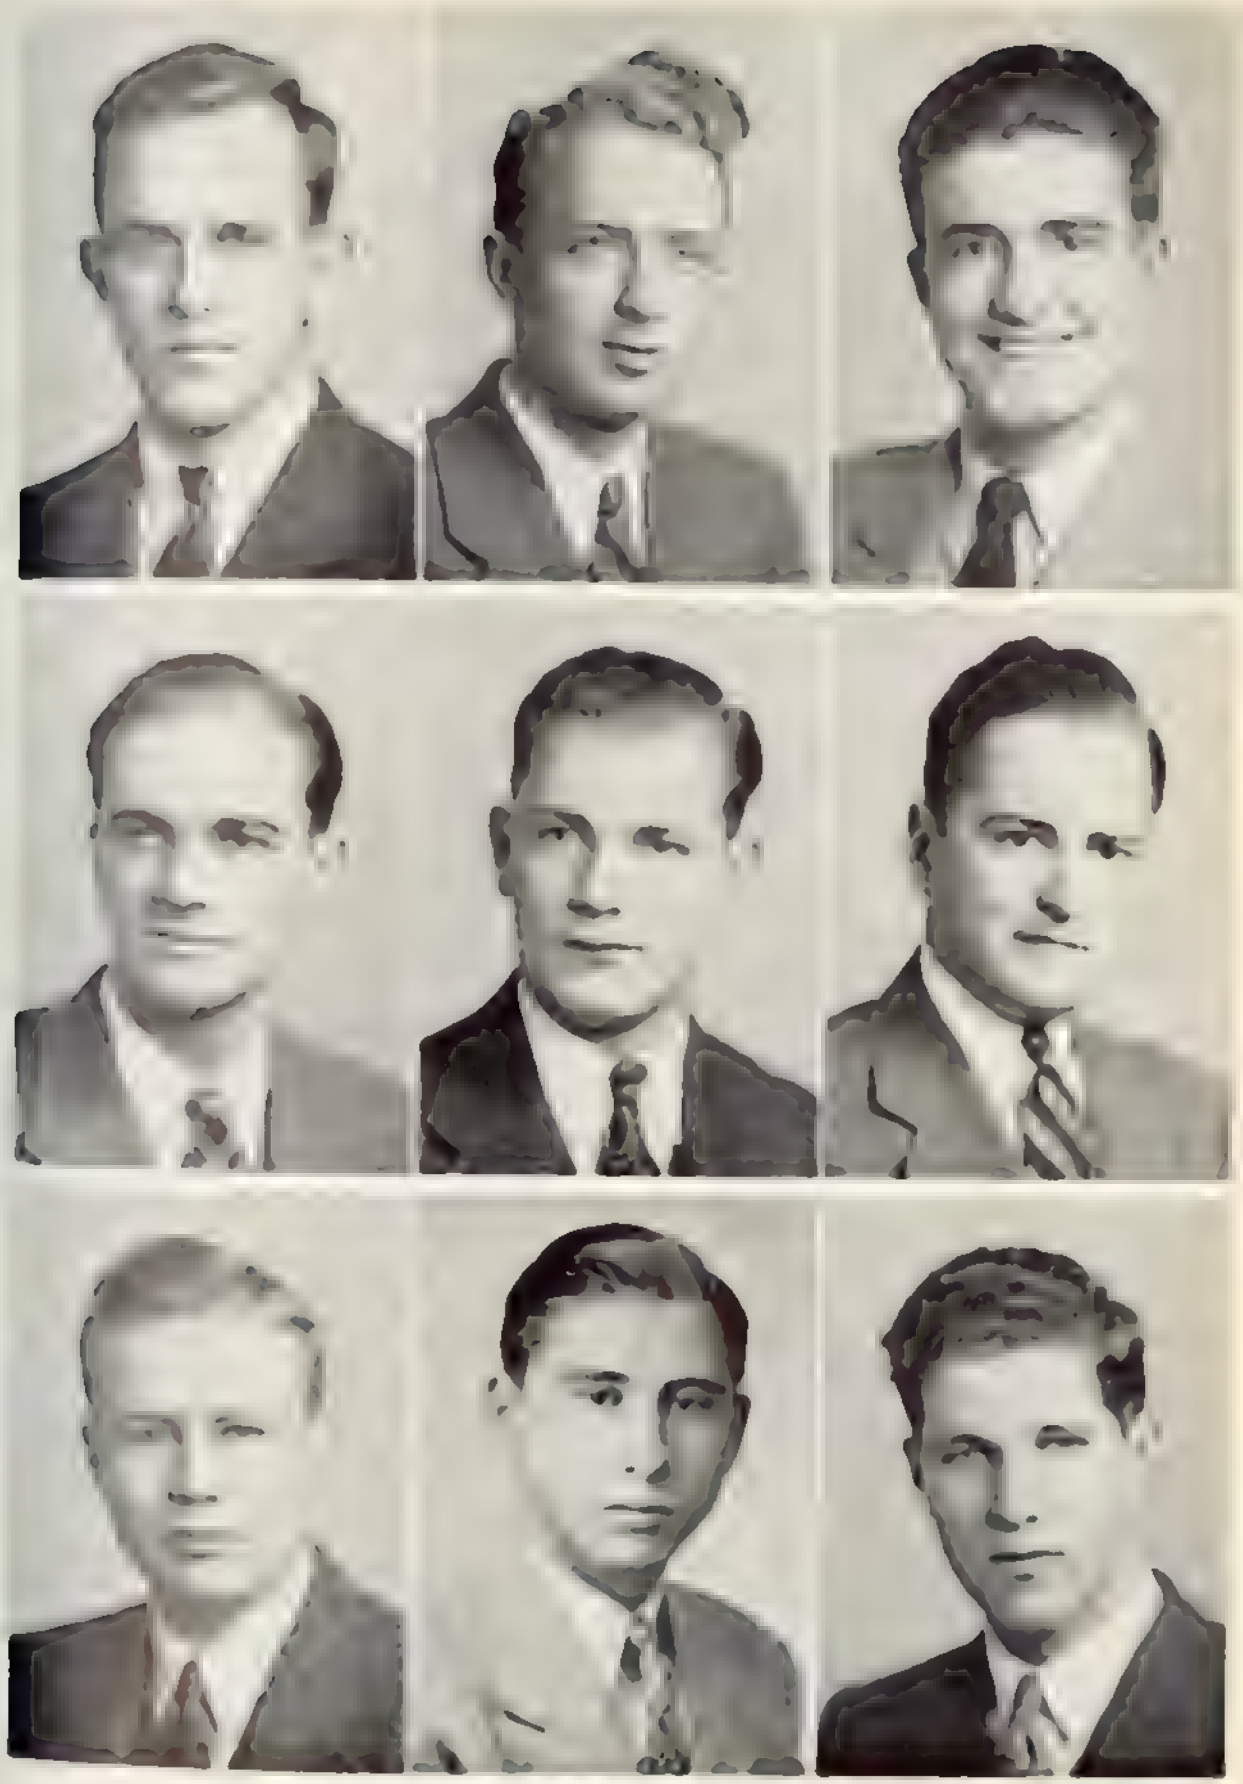
Charles Benash, a graduate of Woodbury High School, majored in poultry and minored in agricultural education. He held the office of president in the Agricultural, Towers and Rutgers 4-H Clubs. He also held membership in Alpha Zeta and the Poultry Science Club. A transfer from Drexel Institute of Technology, Charlie participated in intercollege football and baseball.

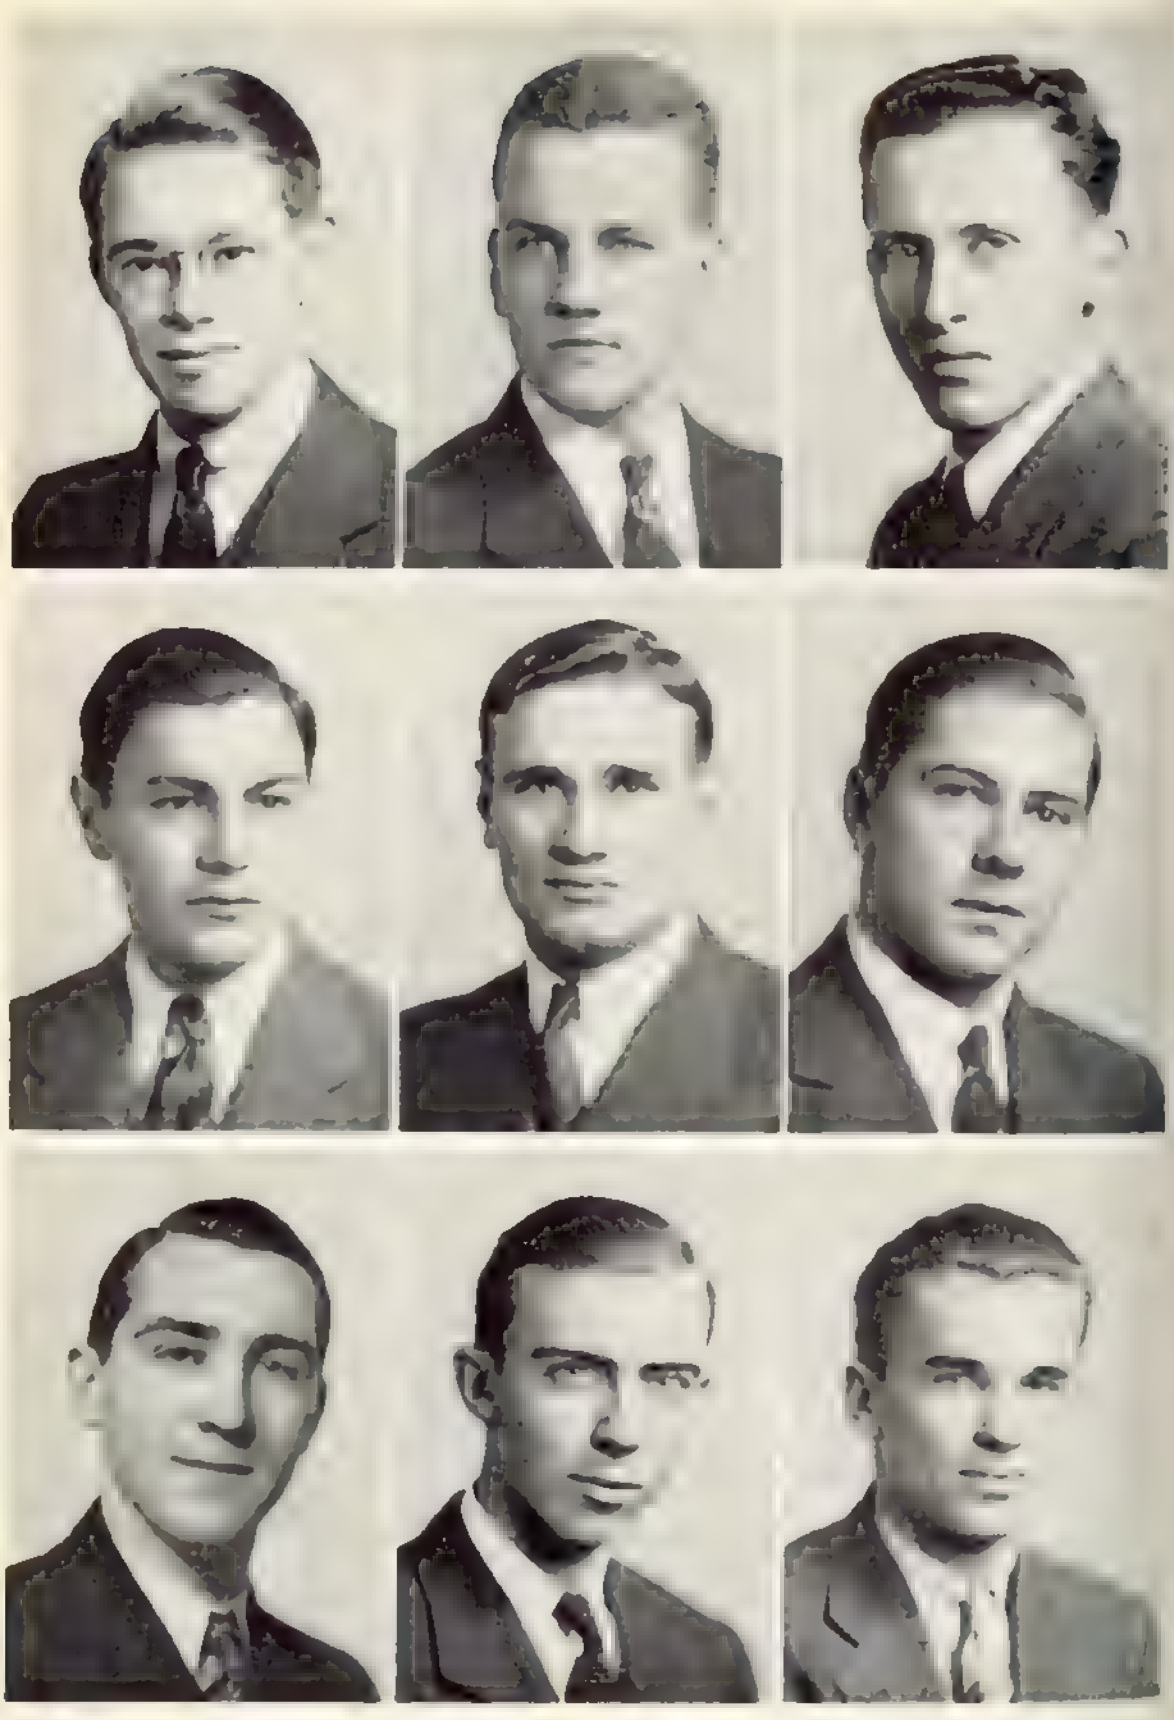
Frederic E. Benson, Jr. of Paterson was a transfer student from Lehigh. At Lehigh he was a member of Theta Delta Chi fraternity and the Interfraternity Council. Here "on the banks" he was a member of the History and Quad Clubs. Fred was enrolled in the C.A.A. course and lists flying and rowing as his hobbies. He worked during the summer months as a roofer's helper.

John W. Berglund, a graduate of Atlantic High School, majored in bacteriology and minored in zoology. John wrote many verses and short stories while spending his summer vacations at his home in Margate City. He also spent vacations working on the Steel Pier at Atlantic City and in various amusement centers throughout the state.

Robert Berlin, whose home is Jersey City, hails from Lincoln High School. Not only was he the freshman crew manager, but he played 150-pound football. During the summer, Bob usually works as a counselor, as it gives him ample opportunity to make use of his varied interests. He has decided artistic ability, plays a good game of tennis, and does excellent photographic work.

Herbert I. Bilus is a native of Hoboken. He majored in political science and had history as his first minor. His preparations for college were made at the A. J. Demarest High School. Herb is a member of the Phi Epsilon Pi fraternity and worked as a musician, photographer and shipbuilder during the summer. His hobby is music.





James A. Bivins came from Bridgeton and is a graduate of Salem High School. He majored in dairy husbandry and worked for the State Agricultural Service during the summer months. Jim was chancellor of Alpha Zeta, vice-president of the 4-H Club, and also a member of the Dairy Science and Agricultural Clubs. He held a State scholarship.

Robert B. Bleecker, a graduate of Bloomfield High School, was a major in journalism. A holder of a General scholarship, he is a member of Phi Gamma Delta fraternity and was treasurer of that house. Bob was a member of the Glee Club, Scarlet Key, and the 150-pound freshman football squad. He held a cadet commission in the R.O.T.C. as a Second Lieutenant.

Lewis Bloom, a graduate of New Brunswick High School, majored in economics and minored in political science. Lew was a member of the Debating Club and the History-International Relations Club. A transfer from Middlesex Junior College, he won the silver medal in the intramural boxing tournament. During the summer, he worked as a waiter.

Samuel E. Blum of New Brunswick majored in chemistry. Following the line of his chosen vocation, he was a member of the Chemistry Club. A graduate of New Brunswick High School, Sam commuted from Piscataway Township to Rutgers. His favorite hobby is raising and breeding carrier pigeons. During the summer he worked as a waiter.

Carl O. E. Bosenberg, a graduate of New Brunswick High School, majored in landscape gardening. He was active in freshman wrestling and was a member of the 150-pound football team for three years. During the summer he worked at landscape work, tree surgery and spraying. Carl was born on September 29, 1919, in Germany.

Harold R. Bowman, a graduate of Wildwood High School, majored in English and social science. He was a member of his sophomore class cabinet, Scarlet Barb Council, Winants Club, Rutgers Sociological Council, and the freshman debating squad. Harold won his numerals as manager of intercollege sports and participated in track and intramural athletics.

Norman Brandt transferred to Rutgers from Long Island University. Norm took the course in government service, minoring in economics. He was a member of the Scarlet Key, vice-president of the Quad Club, and was a varsity fencer. Norm's home is in Newark where he prepared for college at South Side High School. He held a Governor's scholarship.

Robert J. Brousseau was a State scholarship holder from Franklin Lakes. He is a graduate of Union Hill High School and majored in agricultural research with a minor in chemistry. He is a member of Alpha Zeta and was vice-president of the Biology Club. Bob was a Second Lieutenant in the R.O.T.C. and a member of the rifle team. His hobby is photography.

Charles Brown, a major in dairy husbandry, was president of Phelps House, vice-president of the Dairy Science Club, and scribe of Alpha Zeta. He was also a member of the junior class cabinet of the Agricultural Club. A State scholarship holder, Charlie worked during the summer with the United States Department of Agriculture.

Victor J. Brown, Jr., a graduate of Weequahic High School, majored in business administration and minored in biology. Vic was a member of Club Ford and in his senior year served on its governing council. He aided in national defense by working in the Kearney Shipyards during the summer. Vic's favorite hobby is figure skating.

Philip H. Brunstetter commuted from Metuchen and graduated from Franklin High School. While at college he majored in history and was a member of the Glee Club and the Commuters Club. In the former, Phil was known on campus as an outstanding soloist. He also sang in the choir and was the holder of a Reformed Church scholarship.

Richard E. Bullington was a physical education major and is a resident of the town of Collingswood. While he held a State scholarship, Dick earned his letter in 150-pound football and track. His interest in track led him to join the Spiked Shoe and he became its vice-president. In the summer Dick has held various jobs, but by trade is a ship-fitter.

Robert M. Bunnell of East Orange is a graduate of East Orange High School. Bob majored in electrical engineering and is a member of A.I.E.E. He was a member of the Glee Club, the cheerleading squad, and held the commission of Second Lieutenant in the R.O.T.C. Bob played on the varsity basketball team for three years and is a brother in the Phi Gamma Delta fraternity.

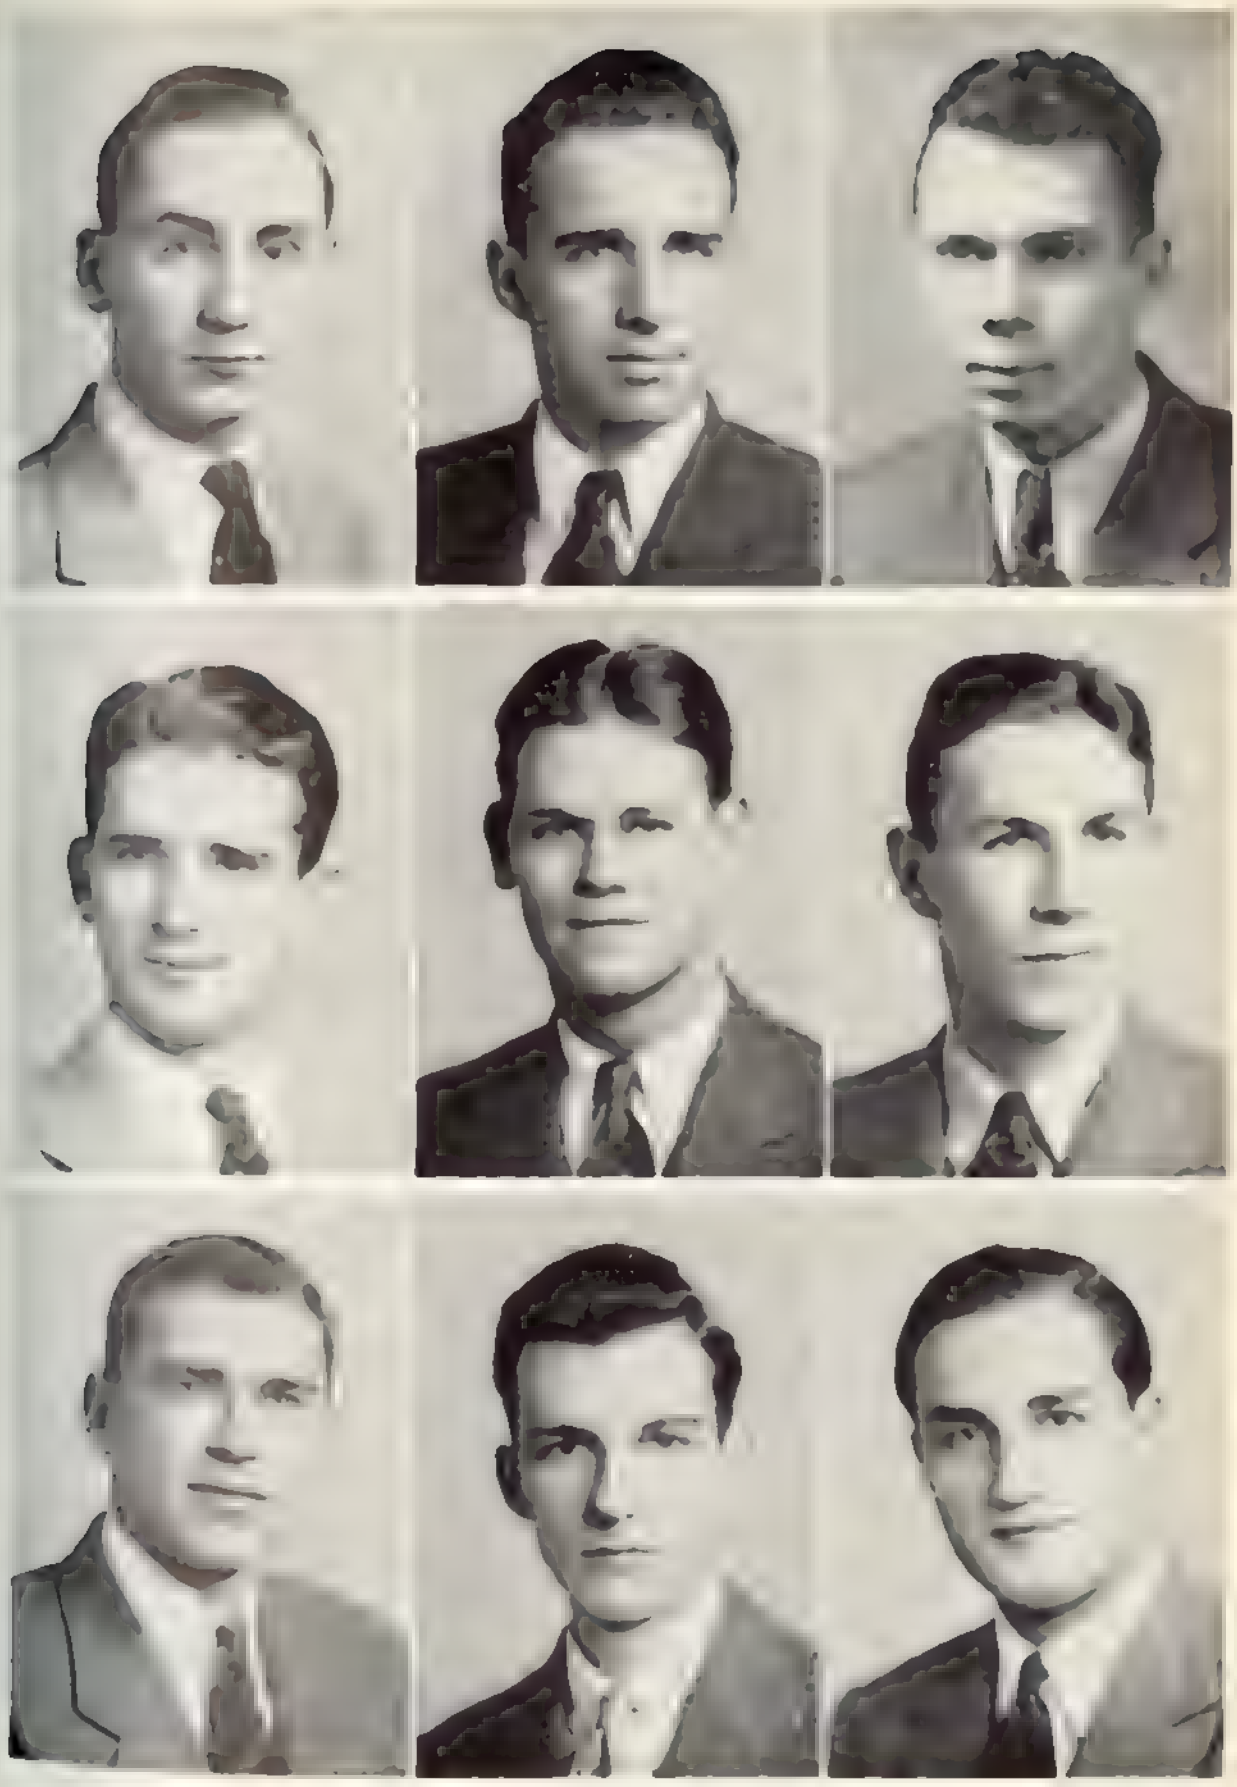
Frank E. Burgher spent the years "on the banks" studying physical education as his major and biological science as his minor. He held a State scholarship and during the biggest part of his stay at Rutgers worked in the library and the cafeteria. Nevertheless, Frank found time to gain a commission in the R.O.T.C. and participate in varsity football.

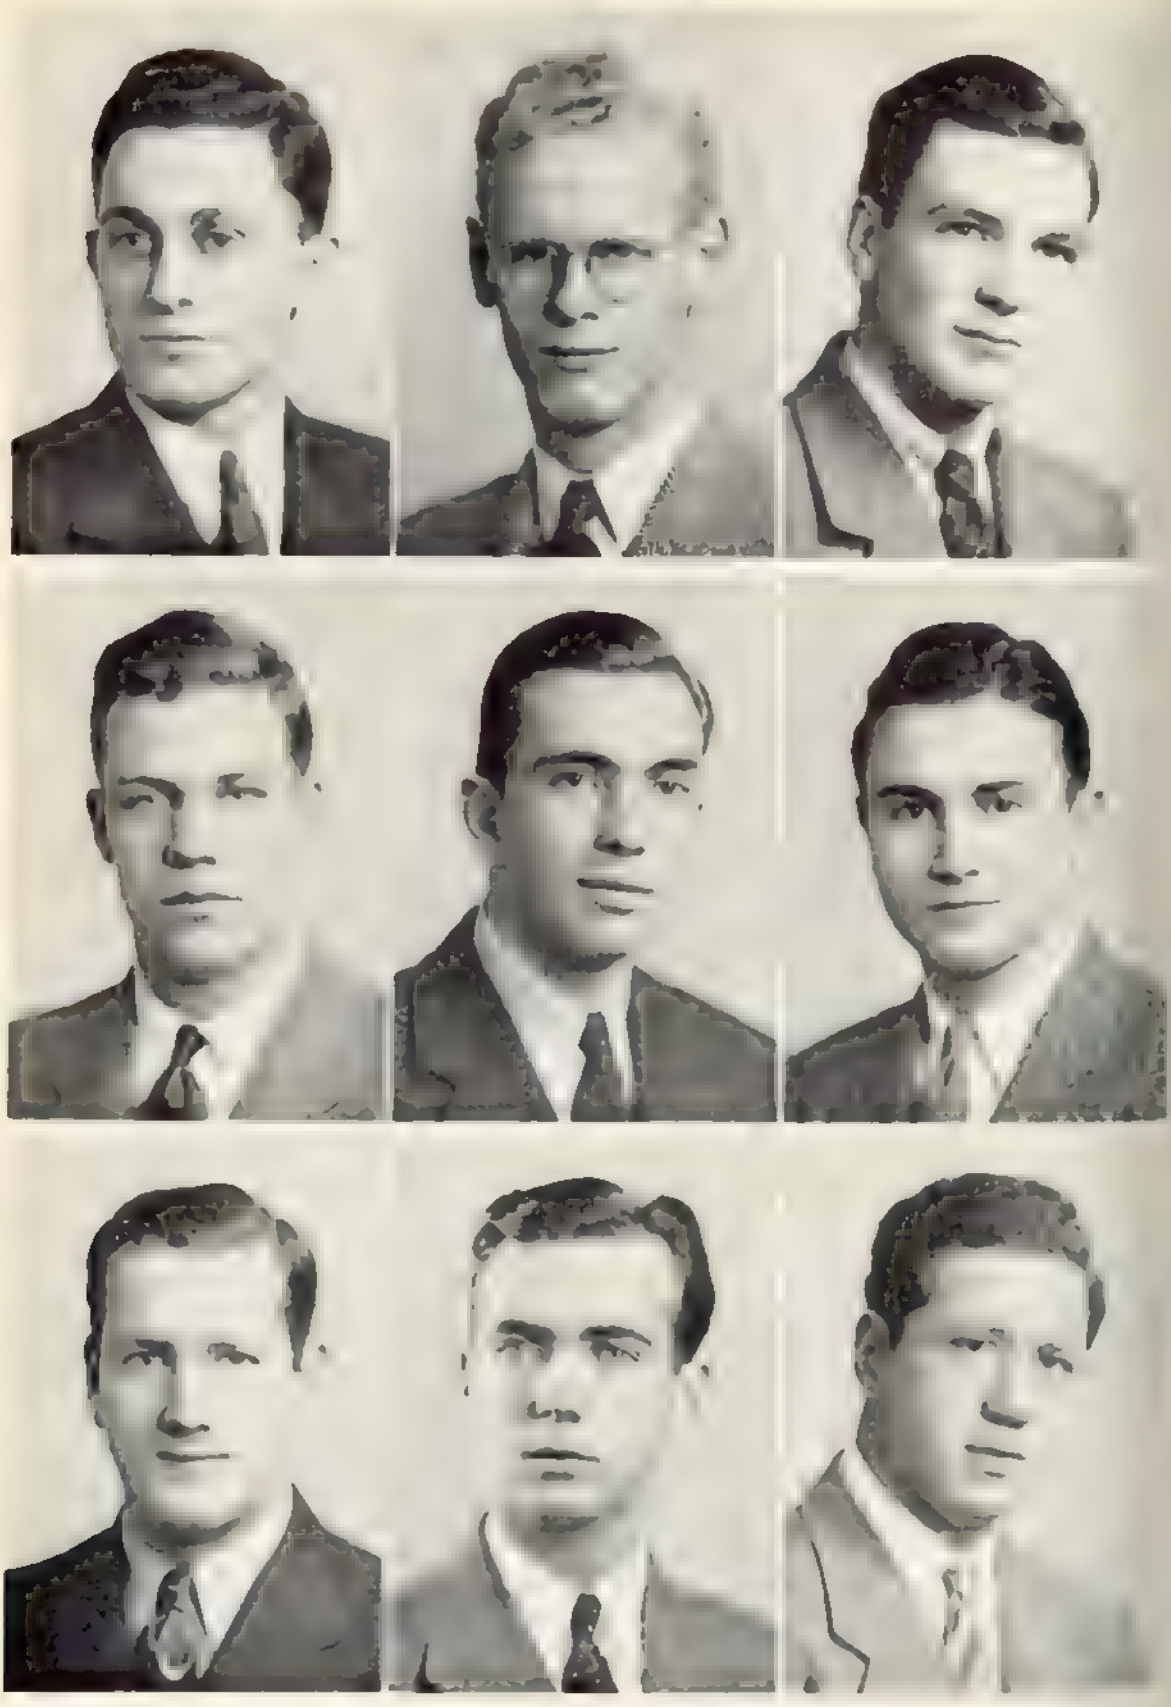
William F. Burke, Jr. majored in business administration with both Spanish and political science as minors. Bill attended St. Benedicts Preparatory School, and then went to Villanova; he transferred to Rutgers and commuted from Elizabeth. He was a member of the Spanish Club and played baseball. His chief hobby is photography.

Russell A. Burroughs, Jr., active in varsity soccer and intramural basketball and baseball, was a member of the Agricultural Club, the Ag Glee Club, and was president of the Agricultural Economics Club. He was graduated from Pennington Prep School and majored in agricultural economics. Russ held a Rutgers scholarship and enjoyed sports and cooking as hobbies.

James P. Butler, Jr., of 47 Cleveland Avenue, Highland Park, was born August 12, 1919, in Newark. A major in English, Jim was graduated from New Brunswick High School. He was a member of the varsity rifle team, and also was a member of the Scarlet Rifles, becoming treasurer of that organization in his sophomore year.

Victor J. Campi selected the field of general sciences as his chief course of study. He was a member of the Newman, Commuter's, and Music Clubs, the latter of which he was secretary-treasurer. Vic won his letter in 150-pound football and participated in both intramural baseball and basketball. His home is in Lakewood and it was there that he attended high school.





M. Leon Canick, a resident of Brooklyn, New York, majored in biology. A commuter from a farm just outside New Brunswick, Lee belonged to the Commuters Club, Hillel, and was a member of *The Targum* staff. He participated in dramatics and intercollege football. A graduate of Boys' High School in Brooklyn, Leon is a pianist and knife collector.

Willis R. Carson has his home in Trenton where he attended Trenton Central High School. The holder of a State scholarship and a member of the Pi Kappa Alpha fraternity, he majored in electrical engineering during three years as a commuter and one year as a campus resident. Willis's activities included membership in the A.I.E.E., the Commuter's Club, and the Scarlet Rifles.

Norman D. Cary, a graduate of Flemington High School, majored in English education and minored in dramatics. A holder of a State scholarship, he was a member of Student Council, Queen's Players, K.Q.T., Crown and Scroll, and Philosophian honorary societies. He was president of the senior class, assistant editor of *The Anthologist,* and head cheerleader.

S. Robert Christensen, a business administration major, was a member of Student Council, Cap and Skull, secretary-treasurer of the senior class, managing editor of *Scarlet Letter,* associate editor of *Anthologist,* president of T.K.A., a chapel usher, vice-president of Crown and Scroll, and corresponding secretary of Phi Gamma Delta. Bob also won a letter for crew.

George L. Claflen came to Rutgers from Linden where he graduated from Linden High School. A holder of a General scholarship, he majored in civil engineering. George was a member of Club Ford, participated in intramural sports and was the senior representative of A.S.C.E. During the summer vacations he worked at the Raritan Arsenal as a construction inspector.

Celestino Clemente was a biology student from Penns Grove. He held a State scholarship and was a member of the Scarlet Barbs. Celestino is interested in bowling and music. He was elected to the honorary society, Beta Iota Lambda. Here at college he was a member of the Biology Club and during the summer worked on a steamboat as concessions manager.

Boris Clyman of Atlantic City held a State scholarship during his years at Rutgers. A senior cheerleader, he also participated in lacrosse. Boris was president of the Chemistry Club and a member of both Phi Lambda Upsilon and Delta Phi Alpha. He graduated from Atlantic City High School and during the summers he was occupied as a musician.

Thomas J. Connolly chose the journalism curriculum as his principal academic activity. He is the son of Mr. and Mrs. John Connolly of Carteret. In his freshman year he was selected as a member of the Honor School. His inclination along the line of journalism is shown in his hobbies, reading and writing. Tom was also a member of the university band.

Thomas G. Conte transferred from the University of Alabama, and majored in political science. He is a member of the Raritan Club, and was in the band, the Queen's Players, and was treasurer of Kappa Kappa Psi. He held memberships in the Newman, French, Italian and Biology Clubs. At Alabama he belonged to the Pershing Rifles. His home is in Trenton.

He was secretary-treasurer of the latter and treasurer and steward of his fraternity, in addition to being a member of the senior class cabinet. Jim received his letter in 150-pound football and his numerals in lacrosse.

Frank X. Kilcheski, Jr. majored in journalism and was the holder of a State scholarship. Among his activities were Student Council, president of the Scarlet Barb Council and the Journalism Club, T.K.A., Crown and Scroll, and Philosophian. He was a member of his senior class cabinet, and vice-president of the junior class. He was also a First Lieutenant in the R.O.T.C.

Thomas A. Kindre, Jr., a journalism major and a holder of a State scholarship, was graduated from Rahway High School. A commuter, he was membership chairman of the Commuters Club and a member of Philosophian. He was a Second Lieutenant in the R.O.T.C. and was enrolled in the C.A.A. Tom was also a member of the Journalism Club and wrote for a hobby.

Robert C. King of Lansdowne, Pa., majored in business administration and minored in psychology. While at Rutgers Bob was a member of Zeta Psi fraternity and Scarlet Key. During the summers he worked for Westinghouse Electrical Company. In his senior year, Bob was a member of the R.C.A., senior manager of football, and circulation manager of *The Targum*.

Harland B. Kinzley, graduate of Hackensack High School, majored in history and political science and minored in psychology. A holder of a State scholarship, Joe was vice-president of Chi Phi fraternity in his senior year. He earned his numerals as lacrosse manager and was a member of *The Targum* staff. In the summer, Joe was a shipyard worker.

James A. Kirrane, a journalism major and member of the Scarlet Barbs, earned his numerals in baseball and won his letter in 150-pound football. Jim was a member of the Journalism Club. He likes to travel and read, and enjoys the theatre. In the summer he worked at a soda fountain. Jim was graduated from West Side High School in Newark.

William H. Klein, Jr. of Maplewood majored in mechanical engineering and was a member of the Chi Psi fraternity. He became a member of the A.S.M.E. and was also on the boxing squad as manager. William was on the staff of Queen's Players. He held a commission as a Second Lieutenant in the R.O.T.C. and during the summer he worked as a laboratory technician.

Richard A. Kleiner was a major in journalism. His activities included membership in the Journalism Club and Philosophian. He was features editor of *The Targum* and wrote for *The Anthologist*. He was graduated from Erasmus Hall High School in his home town, Brooklyn, New York. His hobbies include baseball and writing. Dick was a member of the Winants Club.

Stanley R. Klion is a Captain in the R.O.T.C. He was elected to Tau Kappa Alpha, Spiked Shoe, the K.Q.T., and Crown and Scroll. A political science major, Stan was a member of the History and International Relations Club. He was business manager of *The Targum*, senior editor of *The Scarlet Letter*, and manager of track and cross-country. His fraternity is Sigma Alpha Mu.

Samuel Klugman, a member of the Agriculture and Biology Clubs, majored in agricultural research, and during the summer, he worked as a chemist with the Stokely Company. At Rutgers, he was in the Commuters Club and the Winants Club, and was on the freshman swimming team. Hobbies that Sam enjoys are photography, tennis and dancing.

Harold Koenig held membership in Beta Iota Lambda and Delta Phi Alpha. Majoring in biology, he was also in the Honor School for three years. Harry was on the intramural wrestling team and also enjoys reading, dancing and music. Holder of a State scholarship, Harold commuted from his home in Freehold. He was born March 16, 1921.

Karl T. Kraner prepared for Rutgers at Woodbury High School. He is a member of the Scarlet Barbs and majored in sanitary science and bacteriology. Karl won his numerals in 150 pound football and took part in intercollege football. He was a member of the Biology Club and engaged in intramural sports. He helped finance his way through college by part time jobs on campus.

Donald R. Krauch, a resident of Trenton, was enrolled in the education curriculum as an English major. The secretary of the Delta Upsilon fraternity, he also served as president of the Lutheran Club, secretary of the German Club, and took part in debating and track. Don worked during the summer as a playground supervisor. His hobbies are tropical fish and traveling.

Charles P. Krauss majored in dairy manufacture and minored in bacteriology. A commuter from Milltown, he was a member of the Ag and Dairy Science Clubs. He played in the university band and belonged to the honorary band fraternity. His hobbies are hiking, concerts, and various musical activities. During the summer he was a musician.

Paul J. Krenicky was graduated from Bayside High School in New York. He majored in landscape gardening and in the summer made good use of his knowledge, working as a turf manager in a cemetery. Paul was vice-president of his fraternity, Tau Kappa Epsilon and was a member of the Horticulture and Agricultural Clubs. His hobby is golf.

Frederick A. Kruger, a graduate of New Brunswick High School, majored in chemistry and minored in biochemistry. He was a member of the Chemistry Club and Phi Lambda Upsilon. During the summer, Fred worked in the Department of Entomology. A native of New Brunswick, his hobbies are chemistry, photography and music. He was born on June 8, 1921.

Werner W. Kuhn entered Rutgers from Springfield, Massachusetts with an Upson Memorial scholarship. He was a member of Alpha Chi Rho fraternity. Werner majored in mechanical engineering, and was a member of the Engineering Club, and A.S.M.E. He was a Captain in the R.O.T.C. and a member of Scabbard and Blade. He also played varsity football and baseball.

Edward F. Kurzinski was a student from Linden who majored in mechanical engineering. Ed graduated from Linden High School and held a State scholarship. He was a member of A.S.M.E. He participated in hunting and fishing in his spare time, and commuted from Linden. His summer vacations were spent working for the National Radiator Company.

Martin Kurzweil from Plainfield took his major in agricultural research and minored in soil chemistry. He held a General scholarship, was a member of the Agricultural Club and held the office of chronicler in Alpha Zeta. During the summer Martin worked as a laboratory assistant in the New Jersey Experiment Station. He was on the Agricultural Field Day committee.

Thomas La Costa is a graduate of Plainfield High School, and at Rutgers he was a Spanish major in the school of education. His actitivies have been restricted to languages as is illustrated by his membership in Sigma Delta Pi and the Spanish Club. During the summer, Tom has had many types of jobs ranging from truck driving to camp counselor.

Michael J. Larkin was graduated from Trenton Central High School. He held a General scholarship and majored in biology. Michael was a member of the Newman, Biology, German, and Commuters Clubs. In the summer he worked as a milkman. His hobbies are nature study, tennis and swimming. He now lives at 705 Hamilton Avenue in Trenton.

Robert Lauffer was a major in agriculture and an education minor. He was the holder of an 1864 scholarship. Bob received his preparatory training at Passaic High School. He received his freshman numerals in baseball and basketball and was awarded his letter for participation in boxing and baseball. During the summer he has been employed as a camp counselor.

Joseph V. Lazo came to Rutgers from Haddonfield where he graduated from Haddonfield Memorial High School. A holder of a Governor's scholarship, he majored in ceramics. Joe won his numerals in tennis and was in the Honor School during his freshman year. His summer vacations were spent working and his favorite hobby is stamp collecting.

Robert H. Leaming, a resident of Woodlyne, majored in biological science during his years at Rutgers. A scholarship holder, he was a member of the Pi Kappa Alpha fraternity, the Biology Club, and played in the band and symphony orchestra. In the summer he worked as a camp counselor. Bob's hobbies are tennis and skiing.

Milton B. Lederman, a major in English with a minor in French, lives in New Brunswick. He attended New Brunswick High School. Milton was active in the N.J.C. Little Theatre Workshop Group, varsity 150-pound crew, Commuters Club, Hillel and Rowing Clubs, while holding a State scholarship. He was also a member of the Honor School and Philosophian.

William E. Leonard, a graduate of Highland Park High School, majored in vegetable production. He earned his letter and numerals as a member of the soccer team. He was a member of the Glee Club. During the summer, Bill was an official at the Eastern Carolina Training School and worked in an orchard in Manasquan. His hobbies are fishing, photography, and motoring.

Joseph G. Lerner, secretary of the Rutgers Red Cross Blood Bank Committee, majored in agricultural economics and chemistry. He was a member and treasurer of the Agricultural Economics Club, the Agricultural Club, and the League of Evangelical Students. Joe won the 1940 intramural wrestling award and numerals in wrestling and intercollege football.

KURT G. LEUSER, a language and literature major residing in Ridgefield, held a State scholarship. A student of German, Kurt was vice president and president of the German Club, and a member of Delta Phi Alpha, honorary German society. His hobbies include photography and writing. Summers, Kurt was employed in a laboratory.

JORDAN H. LEVIN, a graduate of Burlington High School, was a major in agricultural engineering. He participated in intramural basketball and baseball and was a member of the Winants Club. In line with his hobbies, he was a member of the Chess Club and the Table Tennis Club. During the past three summers he was employed at the Robin Hood Dell in Philadelphia.

MORTON E. LICHTMAN of 8 Rosemere Street, Rye, New York, is a graduate of Rye High School. His major was economics and his minor, English. Interested in dramatics, debating and tennis, Morton was a member of Philosophian, Queen's Players, and the freshman tennis team. His hobbies are camping, canoeing, and cooking. He is the son of Mr. and Mrs. Edward L. Lichtman.

MARTIN LITTMAN commuted from Newark after his graduation from West Side High School in that city. He held a State scholarship, majored in science and minored in mathematics. Martin was a member of the Commuters Club and the Scarlet Barbs. During the summers, Martin worked in a cosmetics laboratory and in the post office.

RICHARD T. LUNGER of East Orange majored in business administration and was the holder of a General scholarship. A graduate of East Orange High School, he was a member of Zeta Psi fraternity. Richard was captain of the Scarlet Rifles and was a member of the junior class cabinet. He was also a member of the Rowing Club and was active in both crew and football.

JOSEPH B. MCCARTNEY was a student from Plainfield who majored in auditing and minored in economics. Joe graduated from Seton Hall Preparatory School and was a transfer from Union Junior College. He was a member of the Newman and Commuters Clubs and was interested in baseball, basketball and tennis. He commuted from his home in Plainfield.

Don, a brother of the Pi Kappa Pi fraternity at Washington and Lee, majored in history and political science and minored in English. He is a graduate of St. Francis Preparatory School.

ROBERT H. MCCLOUGHAN, a graduate of Somerville High School, majored in economics and minored in French. While at Rutgers, Bob participated in 150-pound crew and earned his numerals as a lacrosse manager. He was a member of the French and Glee Clubs, and was on *The Targum* and *Scarlet Letter* staffs. Bob was a Second Lieutenant in the R.O.T.C.

JOHN A. MCDONNELL of Rahway majored in electrical engineering. John was a scholarship holder and a member of the Commuters Club, the American Institution of Electrical Engineers, and Tau Beta Pi, national honorary engineering society. John was in the Scarlet Rifles, as well as a participant in freshman wrestling. His favorite hobbies are reading and tennis.

Charles W. McDougall majored in pomology and minored in education. He was a member of the Scarlet Barb Council and was on the Junior Prom Committee. For his extra-curricular activities, Charlie took part in Ag Field Day and was a member of the Agricultural and Economics Clubs. Interested in sports, he played varsity soccer and intramural football.

Howard H. McDougall of Hammonton majored in agriculture and during the summers did research work in entomology. He was a graduate of Hammonton High School and became a member of the Scarlet Barbs. Howard was also a member of the Agricultural Club and the Agricultural Field Day Committee. He also took part in soccer and intramural sports.

Robert D. McDougall, a graduate of Hammonton High School, majored in dairy husbandry. He participated in 150-pound and intercollege football. Bob was active in the Agricultural and Dairy Science Clubs. His hobbies include mechanics, football and swimming. In the summer, Bob does dairy and miscellaneous farming at his home in Hammonton.

Robert B. McPherson, Jr., a graduate of Plainfield High School, majored in journalism and minored in economics. He was a member of the Queen's Players and the Journalism Club and is a brother in the Phi Gamma Delta fraternity. His hobbies include collecting records and playing the piano. During the summers he has been employed as shipping clerk.

Zafiris G. Mackaronis was a business administration student from New Brunswick. He majored in business management and minored in political science. Zafiris is an ardent musician, playing the piano in his own orchestra. He spent his summer vacations working in his father's restaurant. Zafiris was graduated from New Brunswick High School.

Donald J. Mackinnon II, majored in dairy manufactures and was a holder of a General scholarship. He prepared for Rutgers at the Paterson Central High School, and worked in a shipyard during the summer. A member of the Dairy Science Club, Don won his freshman numerals for swimming. As for hobbies, he is interested in photography and swimming.

Frank G. Maguire, Jr., a resident of Newark, after attending St. Benedicts Prep, came to Rutgers to study civil engineering. A member of the Delta Upsilon fraternity, he was the secretary-treasurer of the A.S.C.E., a Second Lieutenant in the R.O.T.C., member of the Newman Club, and in his junior year, was secretary-treasurer of his class and a member of Scarlet Key.

Alvin P. Mancusi-Ungaro of Nutley majored in chemistry and minored in education. He included in his extra-curricular activities membership in the Scarlet Barbs and the Commuters and Chemistry Clubs. Although he commuted from Nutley, Al found time to participate in fencing, crew, and intramural football. His hobbies were chess, ping-pong and motorboat racing.

Richard Marlow was a major in history and political science and minored in economics. After graduating from Ridgewood High School, Dick arrived here in possession of a General scholarship. He was a member of the freshman track team and was also on the debating team. Besides his regular course, he was enrolled in both the primary and advanced C.A.A. courses.

Samuel J. Mason of Runyon majored in electrical engineering. He held a Governor's scholarship and was a member of the Chess Club, the American Institution of Electrical Engineers, Tau Beta Pi, and the Scarlet Rifles. He also fired with the rifle team and was on the table tennis team. Tennis, swimming, dancing, and photography are his hobbies.

Volckert Van R. Mason enrolled in the biological science curriculum after graduating from Paterson Central High School. He served as both vice-president and president of his fraternity, Delta Kappa Epsilon, and as Battalion Adjutant in the R.O.T.C. Vol was commodore of the Rowing Club, in the German Club, Scabbard and Blade, Beta Iota Lambda, and senior manager of crew.

Paul J. Masur was graduated from Saint Mary's High School, Perth Amboy, before matriculating at Rutgers to major in chemistry. He was a member of the Chemistry and Commuters Clubs, and worked during the summer for the Du Pont Corporation. Paul commuted daily from his home in Parlin and had as his hobbies painting and music.

Rudolph G. Matfleld, who was a pre-medical student in the biology curriculum, lives in New Brunswick. He held a State scholarship and was a member of Beta Iota Lambda, of which he was secretary-treasurer, and Delta Phi Alpha. In the realm of sports, he earned his letter in football and lacrosse. He also was a member of the German Club and the Biology Club.

Dominic A. Mauriello, a State scholarship holder from East Orange, was a major in biology. He was a member of the Quad Club and was elected to Beta Iota Lambda and Delta Phi Alpha. Dominic was president of the Biology Club and treasurer of the Italian Club. He participated in freshman debating and was baseball manager. During the summers, he worked on a showboat.

James G. Mazza of Long Branch majored in biology with a minor in chemistry. He was a member of the Biology Club, was vice-president of the Italian Club and treasurer of the Scarlet Barb Council on which he represented the Quad Club. He was graduated from Long Branch High School and spent his summers as a life guard on the Long Branch beaches.

Henry P. Megargee, Jr. was a history student from Summit. He is a member of the Chi Psi fraternity and held a General scholarship. Harry likes to sail, ski, and paint. He won his varsity letter in tennis and was captain of the tennis team in his senior year. He was a member of the Scarlet Key society and won his numerals as football manager.

Paul L. Meierdierck is a member of Delta Kappa Epsilon fraternity. He graduated from Westfield High School, after which he entered Rutgers University as a student in the field of economics. Paul was senior baseball manager and a member of *The Targum* business staff for three years. He was employed in the summer by Standard Oil of New Jersey.

John A. Melrose, who lives in Cold Spring Harbor, New York, is a graduate of Huntington High School. He majored in history and minored in English and political science. John was president of Winants Club, a member of Cap and Skull, Scarlet Barb Council, and Tau Kappa Alpha. In his senior year he was head manager of the varsity football team.

Hermann J. Menninghaus from Clifton majored in chemistry and was elected to S.A.M.E. and Delta Phi Alpha, serving the latter as secretary. He was a member of Deutscher Verein and the Chemistry Club and held a commission as Second Lieutenant in the R.O.T.C. Hermann listed as his hobbies music, athletics, photography and fishing.

Alfred Messer of Mendham majored in biology and minored in chemistry. He held a State scholarship and was a member of the Scarlet Barbs and Winants Club. He was also secretary and treasurer of the Chess Club, a member of the soccer team, and the Biology Club. Among his hobbies are music and photography. Al attended Dover High School.

Henry L. Messerschmidt of South Plainfield majored in electrical engineering. After transferring from Cooper Union Night School of Engineering, Henry commuted from home. He was a member of the Lutheran Club and the A.I.E.E. His hobbies were photography, radio, and music. During the summers, Henry worked as a lab assistant with the Bell Telephone Company.

Clarence W. Meyers, Jr., whose hobbies are hunting, fishing and traveling, was enrolled in the business administration course, taking Spanish as his minor subject. Born September 26, 1920, in Plainfield, Clarence now lives at 246 Clark Street, Westfield, from which place he commuted. Working as a gasoline station attendant occupied his summers.

Ernest Meyers, a graduate of National Farm School, majored in plant pathology and minored in chemistry. He participated in intramural sports and was active in the Agricultural Field Day. Ernest was a member of the Agricultural Club. His hobbies include photography and in the summer he follows his college work as a laboratory assistant.

Marvin Meyers was president of the Liberal Club, a member of the History and International Relations Club, and the Philosophy Seminar. Marvin graduated from Hillside High School and, upon receiving a State scholarship, matriculated at Rutgers where he enrolled as a history major. His home is in Newark and in his spare time he finds enjoyment in his hobby, reading.

James L. Michelson, history and political science major, has been actively interested in debating, having been a member of the varsity team and of Tau Kappa Alpha. A graduate of Asbury High School, Jim lives at 105 Eleventh Avenue in Belmar. During the summer, he worked for the Acme Grocery Company. James's main hobby is music, both popular and classical.

Alexander Miller, a resident of Newark, majored in plant pathology and minored in botany. He was a member of the Alpha Kappa Pi fraternity, as well as of Scarlet Key and the band. Al managed wrestling and played intercollege football for two years. During the summer he has worked in a band in the city of Newark.

Norman C. Miller, Jr. commuted from Highland Park, majoring in economics and minoring in Spanish. Holder of a Faculty scholarship and a member of Tau Kappa Epsilon fraternity, Norm has music as his hobby, so much so that he works with dance orchestras in the summer. He was a member of the Interfraternity Council and won his varsity letter in soccer.

Milton Mintz, a commuter from Trenton, majored in agronomy and minored in agricultural education. He prepared for Rutgers at the Trenton Central High School and worked as a grocery clerk during the summer. Milton was a member of the Commuters Club, Agricultural Club and the History and International Relations Club. He enjoys reading, photography and baseball.

Robert Mirsky, a holder of a State scholarship, participated in freshman and varsity cross-country and track. He majored in mathematics and minored in economics and was a member of the Crown and Scroll, K.Q.T. and Tau Kappa Alpha. Bob was vice-president of the Scarlet Barb Council, a member of the Mathematics Club and vice-president of the Off-Campus Club.

William H. Moncrief, who held a Second Lieutenant's commission in the R.O.T.C., was a State scholarship holder. A graduate of Bridgeton High School, he won his numerals on freshman crew. Bill was a member of the Junior Prom committee as well as being chairman of the Barn Dance in his senior year. During the summer, he worked in a canning factory.

Richard L. B. Morfit of South River has studied French and Spanish in his language and literature curriculum, and pursued French and tennis as hobbies, winning his numerals in the latter. He was president of the French Club. A graduate of South River High School, Dick worked in the summer for Du Pont's, as well as continuing his language studies.

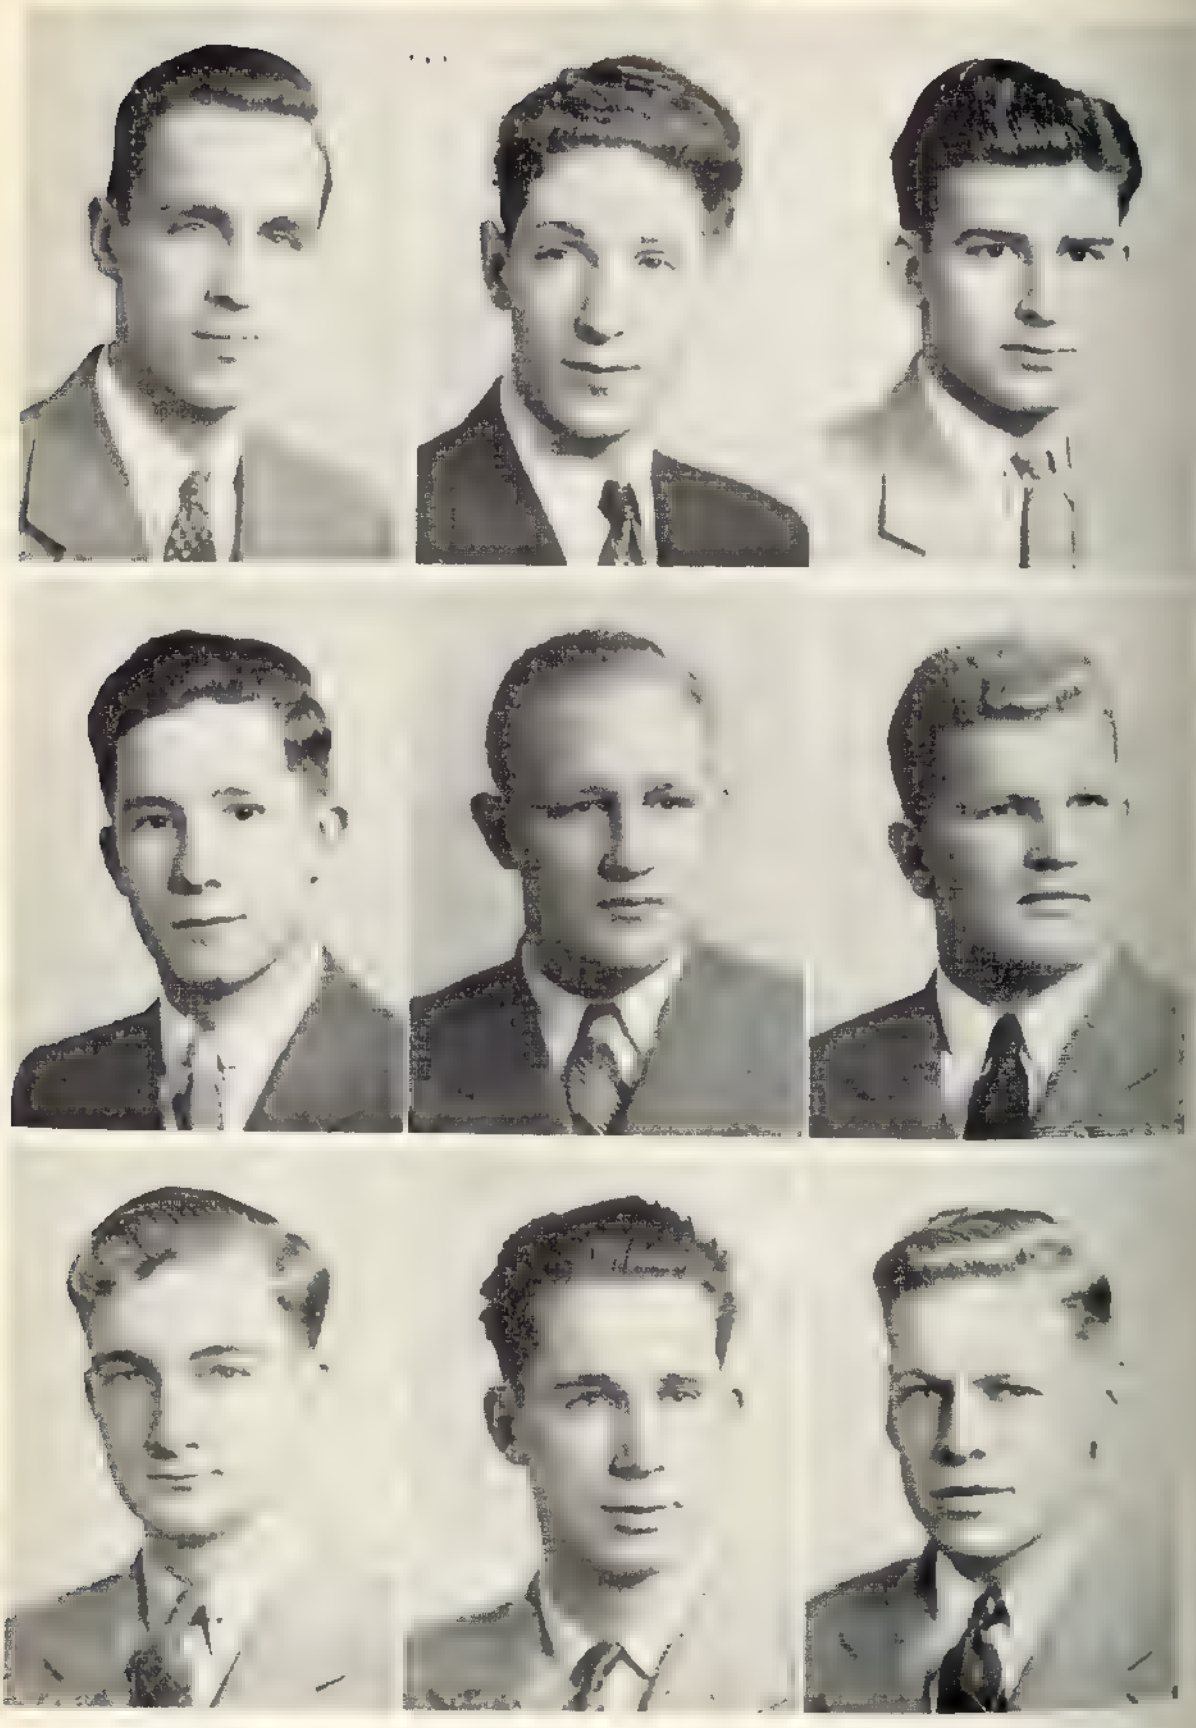
Louis Mosesof, a graduate of South Side High School in Newark, majored in education and history. Lou was distinctly honored for his academic activity by being elected to the Phi Beta Kappa Society in his junior year. Throughout his college career he held a State scholarship. He was born in Philadelphia on September 27, 1919, and his hobbies are reading and chess.

Robert F. Moss, an economics student from Perth Amboy, majored in business management. Bob spent his last summer as a construction timekeeper. On campus he was a member of the Scarlet Barbs and president of the Commuters Club. Bob became a Second Lieutenant in the R.O.T.C. and was a member of the Scarlet Key Society and the Glee Club.

Alfred R. Mounce majored in mechanical engineering and is a member of the A.S.M.E. During his college career he commuted from Highland Park, and is a member of the Commuters Club. Al is a graduate of Highland Park High School. During the summer months, he worked in the engineering department of the Bakelite Corporation.

Samuel E. Mount is interested in agriculture. This is evidenced by his major subject, dairy husbandry. He was a member of the Dairy Science Club and his chief hobby is breeding pure-bred Hampshire pigs. Sam prepared for college at Hightstown High School and his home is located in that town. In the summer he was employed on a farm near his home.

John M. Mras, Jr. was an economics major from Trenton Central High School. He was a member of the Scarlet Barbs and holder of a General scholarship. In the summer, John worked for an insurance company. He is interested in football, stamp collecting and tennis. John transferred from the University College and was a member of the Club Ford.



William Mulheron, Jr. graduated from Westfield High School and matriculated in Rutgers to major in mechanical engineering. He was a member of Zeta Psi fraternity and was elected to A.S.M.E. and S.A.M.E. William held a commission as a Second Lieutenant in the R.O.T.C. He spent last summer at Plattsburg and is an amateur photographer.

Erwin Nierenberg, a graduate of Atlantic City High School, majored in bacteriology and minored in chemistry. He participated in 150-pound crew and freshman lacrosse and wrestling. Erwin was a member of the Hillel, Biology, and German Clubs and the A.Z.A. His hobbies are sports, reading, philately, and music. During the summer he worked as a hotel clerk.

Alfred Nisonoff, a graduate of South River High School, commuted to Rutgers from Spotswood. He majored in chemistry and held a State scholarship. Al was a member of Phi Lambda Upsilon and also of the Chemistry and Commuters Clubs. He played soccer in his freshman year and tennis in his senior year. His favorite hobby is bowling.

James A. Nist of Lakewood majored in biology. The holder of an 1864 scholarship, he won his numerals and three letters in wrestling. Jim was a member of the Scarlet Barbs as well as being vice-president of the Winants Club. He completed both the primary and secondary course of the C.A.A. also while "on the banks."

Joseph Norusis, an agricultural student from Elizabeth, was graduated from Thomas Jefferson High School. Joe is interested in hunting and fishing, and was a member of the Poultry Club here at Rutgers. His minor was animal husbandry. During the summer, Joe worked at building construction and general farm work.

Robert C. Olsen, a biological science major, hails from New London, Connecticut and held an Upson scholarship. Among the honors bestowed on Bob were president of Theta Chi fraternity, a member of Scabbard and Blade and the Scarlet Key Society. Bob played football, was co-captain of the swimming team and was a First Lieutenant in the R.O.T.C.

Arthur C. Osman was a major in general agriculture and a minor in agricultural education. During the summers, he has been employed as a farm hand. His hobbies include hunting and fishing. He has been a participant in baseball and basketball. He was a member of Winants Club and also the Agricultural Club. His preparatory training was received at Linden High School.

Andrew J. Pacher, a major in mechanical engineering, commuted daily from his home town, Linden, where he previously attended Linden High School. Andrew transferred from Union Junior College and was a member of A.S.M.E. During the summer he worked as an apprentice in a machine shop and in his spare time he repairs automobiles.

Frank P. Patten, an economics major, was elected to Student Council, Interfraternity Council, Scabbard and Blade, and Cap and Skull. He was a First Lieutenant in the R.O.T.C., photography editor of *The Scarlet Letter*, and president of his fraternity, Delta Upsilon. He was on the All-American 150-pound football team and also won letters in lacrosse and J.V. basketball.

E. Stanton Patterson of Freehold matriculated at Rutgers in the College of Agriculture to major in dairy husbandry. A graduate of Freehold High School, he held a Herbert scholarship. He was a member of the Dairy Science Club of which he was secretary. Stanton was also a member of the 4-H and Agricultural Clubs. His hobby has been to try to keep his car running.

Richard J. Peterson was a commuter from Bound Brook, where he lives at 306 East Street. The holder of a State scholarship, he was enrolled in the economics curriculum as a major, with English as a minor. Dick, a graduate of Bound Brook High School, secured his basketball numerals and is interested in architecture. He has worked as a newspaper columnist.

Charles J. Petrie, a resident of New Brunswick, transferred to Rutgers from Middlesex Junior College. He was vice-president and rushing chairman of Alpha Chi Rho fraternity, as well as a member of the Chemistry, Rowing and Newman Clubs. Charlie was enrolled in the C.A.A. and participated in basketball and crew. His hobbies are flying, hunting, and golf.

Theophilus A. Pierce, Jr. is a Captain in the R.O.T.C. and was elected into membership in the Scabbard and Blade. He completed the primary C.A.A. course and is a member of the Phi Gamma Delta fraternity. A mechanical engineer, Ted was admitted into membership in A.S.M.E., of which he was secretary, and S.A.M.E. He participated in intercollege football.

Aaron S. Polinsky was an education student who majored in French and minored in English. He spent his summer vacations as a waiter and held a State scholarship at college. Aaron is fond of dancing and was an active member of the Debating, Off-Campus and French Clubs. He is a graduate of Ferris High School in Jersey City.

Nathan Polowetsky, a journalism major and State scholarship holder, commuted from his home at 130 Harrison Avenue, Harrison, and was a member of the Commuters Club. Nathan was born August 24, 1921, and was graduated from the local high school. In the summers, he worked in a department store. Reading and writing are Nathan's hobbies.

William J. Poston, elected by his brothers president of the Zeta Psi fraternity, was in the Glee Club and Queen's Players. A First Lieutenant in the R.O.T.C. unit, Bill was adjutant of the first battalion. Besides his interest in his major economics, Bill likes golf, bowling and hockey. His home and birthplace is East Orange.

Joseph Pulfo, Jr. of Buffalo, N. Y., was the holder of an Upson scholarship and majored in agricultural research. Graduated from Lafayette High School in his home town, he was a member of the Phelps House. Joseph was also a member of Cap and Skull and Student Council. He was president of the junior class and won letters in football and crew.

George H. Pullan was president of the University Glee Club in his senior year. His home is in Clifton and while at Rutgers he majored in business administration and minored in economics. George was a member of Winants Club and the Scarlet Barbs. Singing and swimming are the pastimes which he enjoys most. During the summer he was employed by General Electric.

William C. Quinn of Sea Isle was graduated from Ocean City High School and majored in chemistry. He was a member of the Winants, Newman, and Chemistry Clubs. The holder of a State scholarship, his chief hobbies have been swimming, dramatics, and work. During the summer months, William has found employment as a clerk in a grocery store.

John C. Ragone, a graduate of Camden Academic High School, majored in physical education and minored in general science. A holder of the Camden County scholarship, he was a member of the freshman boxing and football squads. In 1939, John was intra-mural boxing champ in the middleweight division. He worked as a brakeman on the Pennsylvania Railroad.

William J. Ramel came to Rutgers after graduating from Merchantville High School. He majored in biology, was holder of a State scholarship and also was enrolled in the primary C.A.A. course. Bill was elected to the vice-presidency of the Raritan Club, was a Scarlet Key Society member and played freshman and intercollege football.

Walter B. Reichman was treasurer and president of his fraternity, Phi Epsilon Pi. He twirled a baton with the band, and took part in Queen's Players and the Radio Club, as well as Spiked Shoe. Walt's home is in Newark, and his major was mathematics and natural science. A graduate of Weequahic High School, Walt's hobby is amateur radio.

Alan Reitman, holder of an 1864 scholarship, was a journalism major. He was sports editor of *The Targum* and was on *The Scarlet Letter* for one year. His hobbies are writing, movies, and reading. He was elected to Pi Gamma, honorary journalism society, and was a member of the Journalism Club. He is a member in the Phi Epsilon Pi fraternity.

John P. Renshaw, a commuter from Irvington, received a State scholarship and majored in history. John was born April 11, 1921, in Newark. He was a member of the Commuters Club and Delta Phi Alpha, the honorary German fraternity, and worked on *The Targum* for a year. Music, movies, and ping-pong are John's hobbies.

George A. Rice is a graduate of Columbia High School in South Orange, where he now lives. George majored in ceramics and was an active member of the Ceramics Club, as well as of the Club Ford. He lists as his hobbies, swimming, tennis and traveling, and his summer occupation, laboratory work in an enamel corporation.

Benjamin Richmond, a member of the Sigma Alpha Mu fraternity, majored in biological science. He was graduated from Freehold High School where he lives, and worked during the summer for the State Highway Commission. He was a member of the Biology and Chess Clubs and the Hillel Foundation. Ben also worked with the Queen's Players as a stage hand.

Alexander G. Robbins commuted for four years from his home in Bound Brook. A mechanical engineering major and scholarship holder, he was on the soccer team and in the Queen's Players organization. Born May 27, 1920, in New York City, Al was graduated from the Highland Park High School. He works in the summer as a draftsman.

Robert D. Robbins of Bound Brook commuted from that city. He majored in mechanical engineering, after having attended Highland Park High School. Interesred in dramatics, Bob handled the scenery and lights for the Queen's Players. Bob worked last summer as a draftsman. He is the son of Mr. and Mrs. A. D. Robbins.

J. Harvey Robinson of Bellemead majored in poultry husbandry. Harvey included among his Rutgers activities membership in the Poultry Science Club, the 4-H Club, the R.C.A., the Student Forum, Scarlet Barbs, and the Agriculture Club. He held the office of president in the Poultry Science Club. During his freshman and sophomore years, Harvey participated in baseball.

Burton W. Rockliff, a biology major from Newark, was holder of a State scholarship. A member of the Biology Club, he served the club as secretary-treasurer his junior year. Burton was also a member of Winants Club and earned his letter as tennis manager. He also took part in freshman cross-country. During the summer he worked in a defense plant.

James B. P. Roets of Maumee, Ohio, majored in mechanical engineering and in his senior year held a Le Clear scholarship. He was a member of A.S.M.E. and won his numerals in 150-pound football. James was a graduate of South River High School and commuted three years from Old Bridge. Among his hobbies were golf, swimming, tennis and woodcraft.

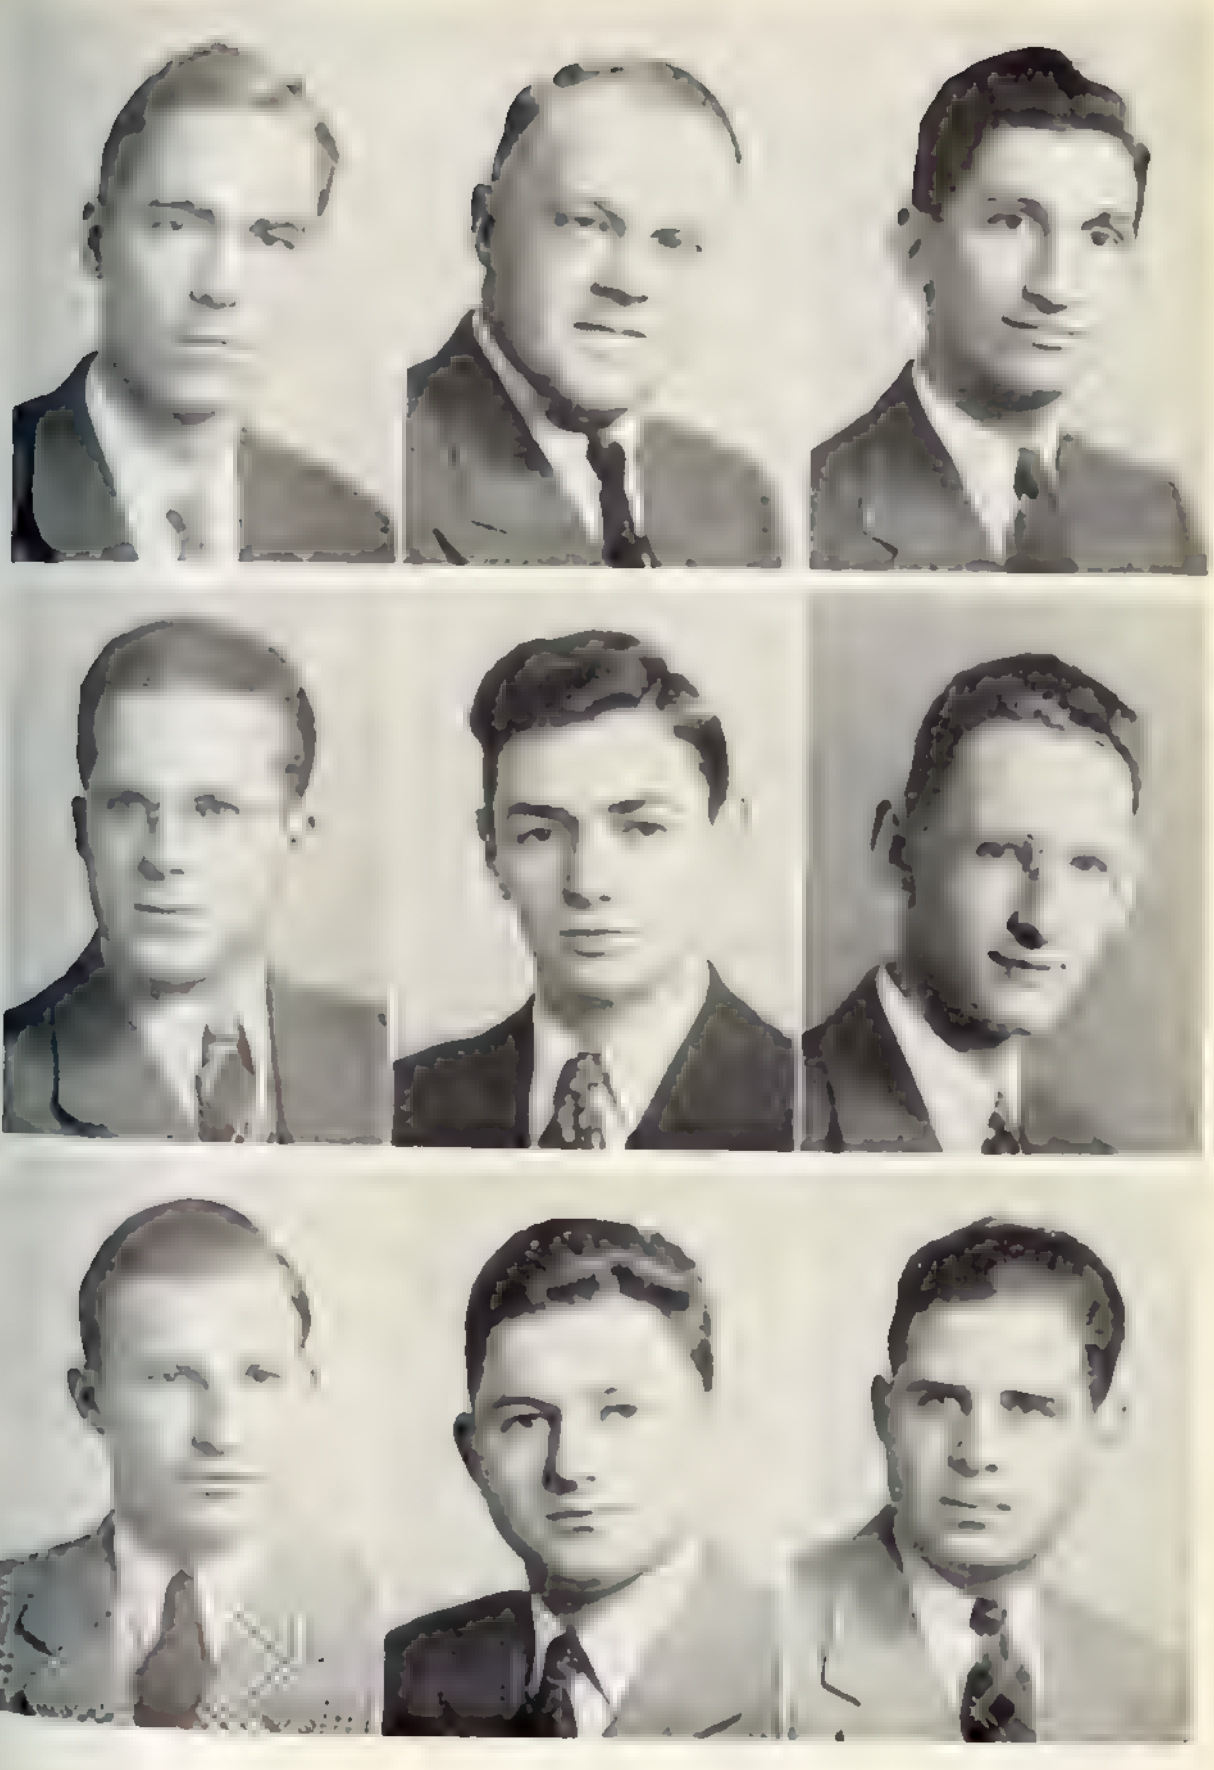
Bernard D. Rolston, who was graduated from Weequahic High School in Newark, held membership in the Biology and Quad Clubs. He earned his numerals in 150-pound football and lacrosse. Bernie majored in economics, working during the summer in a country clerk's office. His hobbies are horse-back riding, reading and swimming.

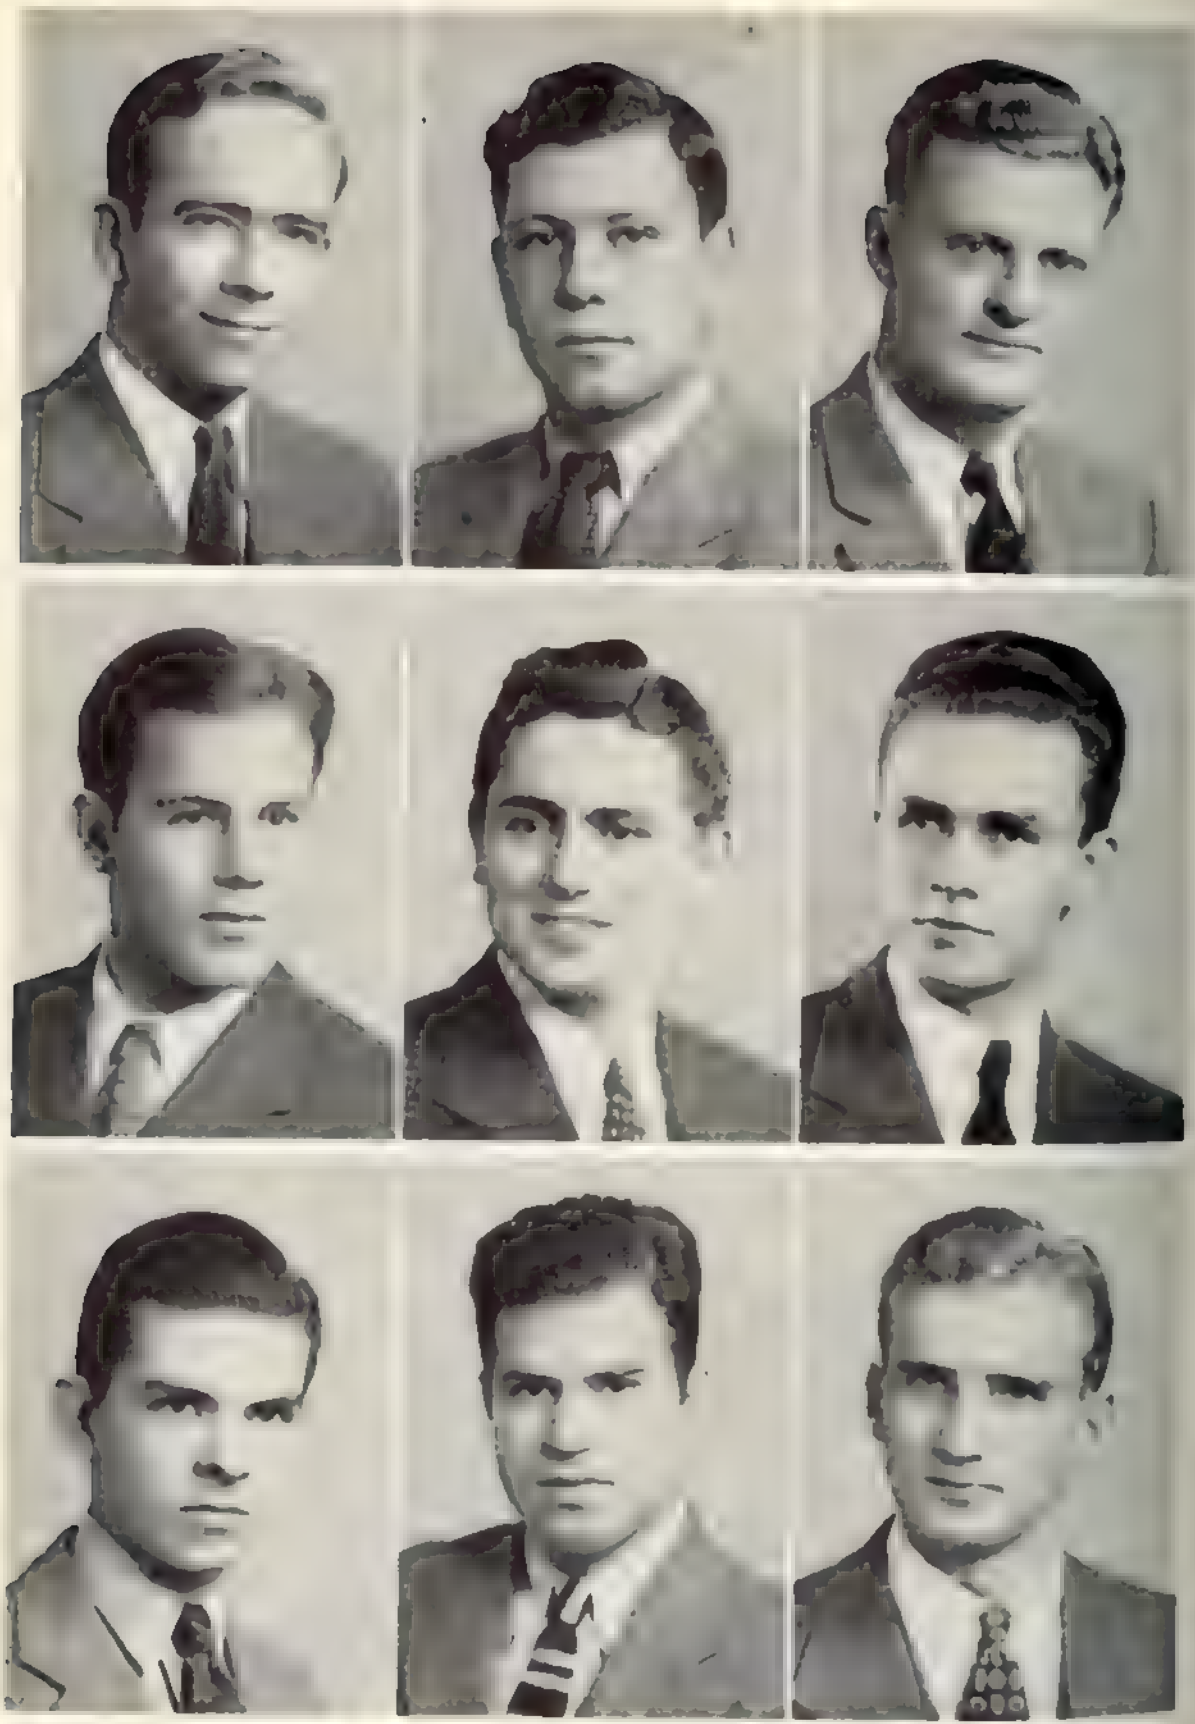
Donald R. Rommé came to Rutgers from Dwight Morrow High School in Englewood. Don's prime interest lies in the field of music, for he was a first bass in the University Glee Club, while in the summer he was an organist and gave instruction on the piano. He is a member of Tau Kappa Epsilon fraternity, Club Ford, and was active in the Scarlet Barbs.

Paul W. Rork majored in history and minored in English. He was elected to Scarlet Key and was a member of Deutscher Verein. His fraternity is Kappa Sigma. The holder of a State scholarship, Paul received his preparatory training at Patton School in Pennsylvania. While at college he participated in tennis and was in the cast of the Varsity Show.

Moe Rose lives in New Brunswick. He majored in business administration, and his minor was economics. Moe is a graduate of New Brunswick High School. He participated in freshman boxing and during the summer months he worked as a munitions inspector in the War Ordnance Department. His hobby is photography.

Leonard Rosenfeld, a graduate of South River High School, majored in biology. He was a member of the Scarlet Barbs, Biology, and Commuters Clubs. Len also held membership in Delta Phi Alpha and was on the technical staff of the Queen's Players. A commuter from Spotswood, his hobbies include carpentry and amateur photography.





Kenneth M. Ross, an economics major from Hillside, held a State scholarship and was a member of the Alpha Kappa Pi fraternity. Ken likes swimming and basketball and won his letter in lacrosse. He spent his summer as a counselor in a Y.M.C.A. camp. In his fraternity he was treasurer. Ken now resides at 50 Williamson Avenue, East Orange.

Arthur L. Roth, a resident of Newark and a member of the Phi Epsilon Pi fraternity, majored in biology and minored in chemistry during his years "on the banks." Art distinguished himself as the secretary-treasurer of Queen's Players, member of the Delta Phi Alpha, and Beta Iota Lambda. He also belonged to the Biology Club and makes photography his hobby.

Benjamin B. Rothblith majored in physical education and minored in social science. He attended the New Utrecht High School in New York City. He is a transfer student from the Savage School for Physical Education. Intercollege baseball was his athletic activity while an undergraduate. During the summer he worked as a playground instructor.

Elliott Rubin of Flushing, N. Y., majored in political science and minored in history. A member of the Sigma Alpha Mu fraternity, he participated in tennis and touch football. He was a member of the German, Table Tennis, and Philosophy Clubs as well as of the Interfraternity Council. During the summers he worked in a shoe factory.

Morris Rudolf was secretary of Tau Delta Phi fraternity and of the Dairy Science Club. Holder of a General scholarship and a major in dairy manufactures, he was fencing team captain in '41 and '42 and placed third in the national intercollegiate fencing competition. Morris took part in crew and intercollege football and enjoyed swimming and dancing as hobbies.

William R. Rushmore, Jr. of Plainfield majored in electrical engineering. Bill, holder of a State scholarship, is a member of the Chi Phi fraternity, and joined the American Institute of Electrical Engineers, the Society of American Military Engineers, and Tau Beta Pi. He was a First Lieutenant in the R.O.T.C. and a member of the rifle and cross-country teams.

Robert H. Sabin, a resident of Vineland, studied history as his major. Holder of a State scholarship, Bob graduated from Vineland High School. He was a member of the Winants Club, treasurer of Deutscher Verein, and president of the band. A member of Delta Phi Alpha and the Honor School, Bob was also in the orchestra and on the freshman debating team.

Harold G. Safrin majored in agricultural research in soils. His home is in Linden, and he was graduated from Columbia High School in Maplewood. Harold was a member of the Winants and Agricultural Clubs, Hillel, and Scarlet Barbs. He participated in freshman crew and wrestling. His hobbies include handball and photography, and he worked on a farm during the summer.

Theodore Sands, holder of a State scholarship, was a history and political science major with a minor in economics. He was secretary-treasurer of his sophomore class, vice-president of his fraternity, Phi Epsilon Pi, publicity chairman of the Junior Prom, and vice-president of the Queen's Players. He was elected into membership in Tau Kappa Alpha, K.Q.T., and Queen's Players.

Eugene Sattler came to Rutgers from Bayonne High School. He held a State scholarship and studied journalism and business advertising. He was a member of the Scarlet Barbs, the Hillel, Journalism, History, Quad, and Chess Clubs. Eugene enjoys tennis and chess as hobbies. He now lives at 45 West 16th Street in Bayonne.

Theodore W. Sattur, Jr., who was the holder of a State scholarship, graduated from Perth Amboy High School. During his years at Rutgers he commuted daily from Perth Amboy to pursue the study of bacteriology and physiology. In the summer he worked as a life guard. His hobby is sports and following this interest he participated in freshman track and intramural football.

Elwyn Saviet, a chemistry major from Teaneck, was graduated from Teaneck High School. He was a member of the Scarlet Barbs and was elected to Tau Kappa Alpha. Elwyn was also active in the Quad, Chemistry, Biology and Music Clubs. A member of the swimming squad, he also participated in crew, band and debating. During the summer he worked as a lifeguard.

Vincent A. Scamell, who came to Rutgers as a transfer from Georgia Tech, majored in economics and minored in engineering. Vince comes from West Orange, and is a member of the Delta Upsilon fraternity. A member of the band, he was in the national honorary band fraternity, Kappa Kappa Psi, and was enrolled in the C.A.A. He played intercollege football.

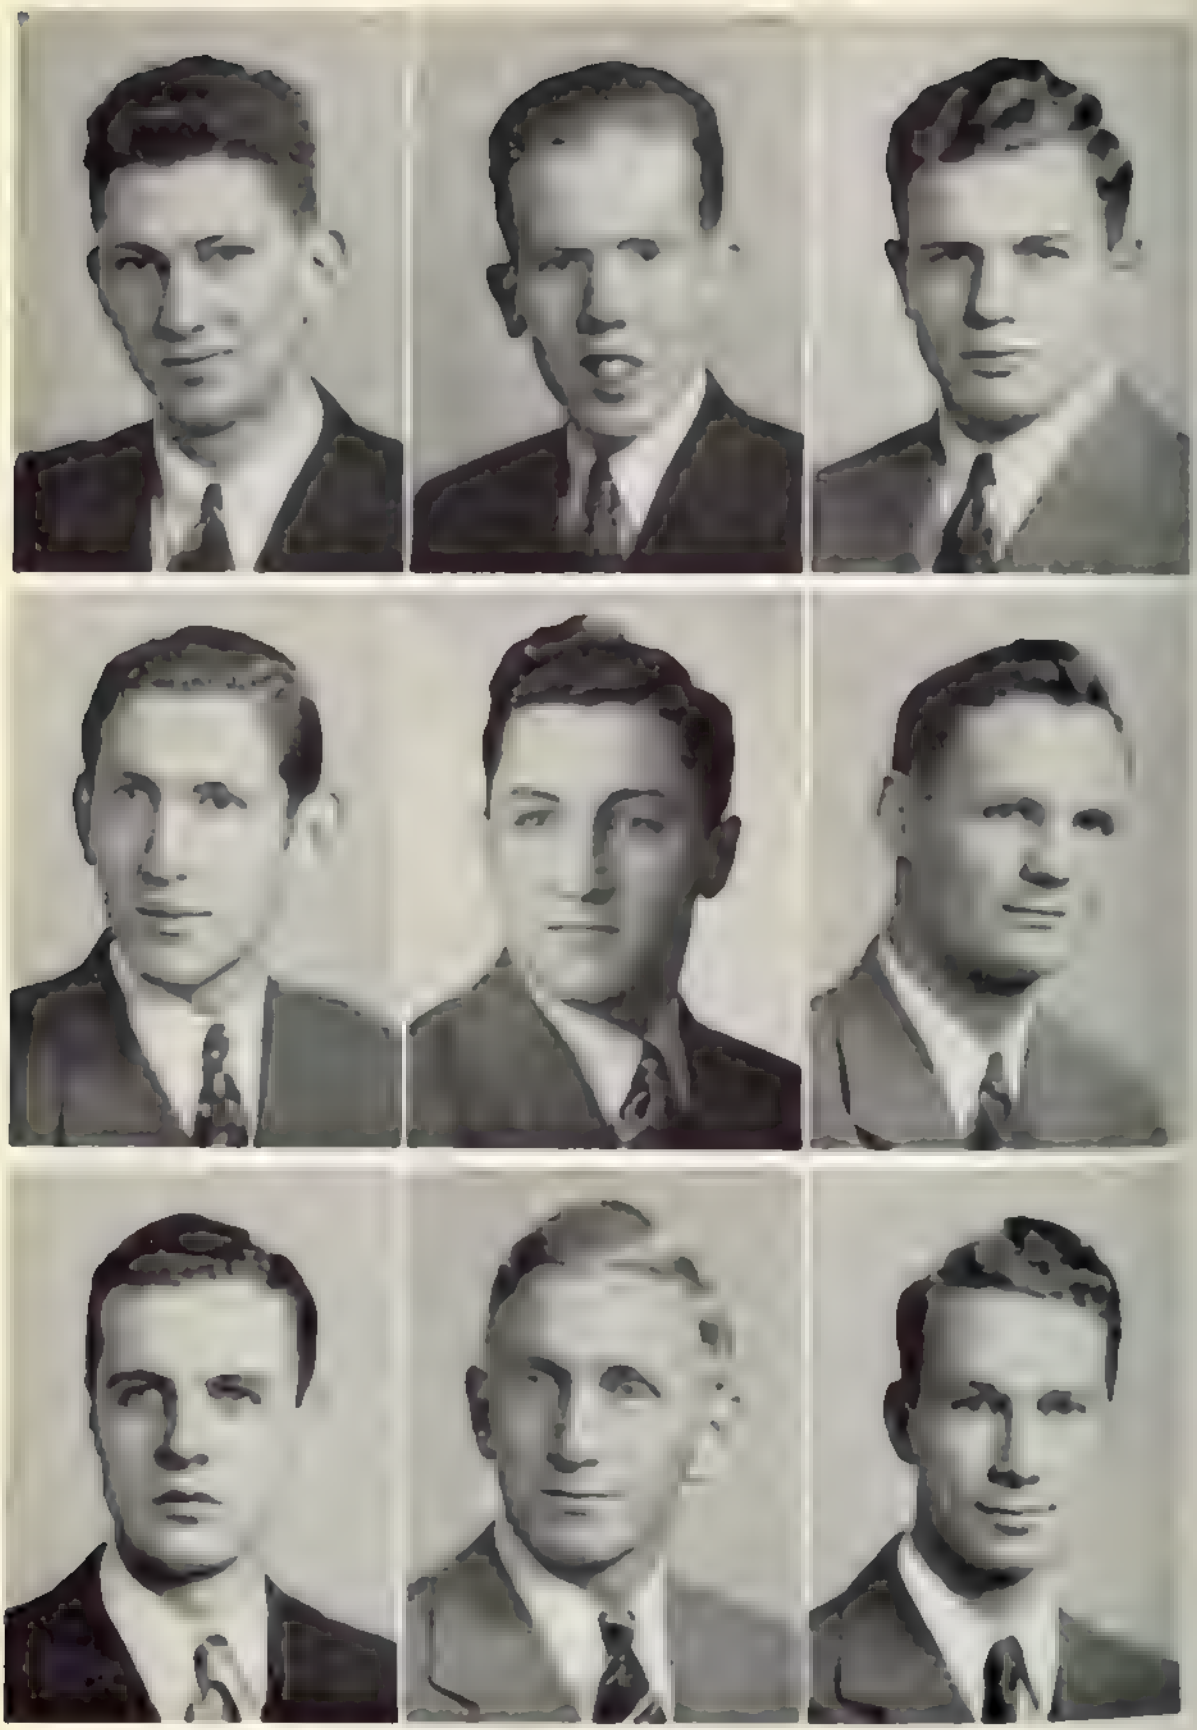
David Scarr was a major in dairy manufactures and a minor in chemistry. He was a member of the Agricultural Club and the Dairy Science Club. Among his hobbies are wrestling, swimming, and ping-pong. He won his letter in wrestling. His preparatory training was received at Hillside High School and he was the holder of a State scholarship.

Franklin H. Schaefer of Jersey City majored in biology and minored in chemistry. The holder of a State scholarship, Franklin was a member of the Biology Club, Delta Phi Alpha, and Beta Iota Lambda, serving the latter as secretary-treasurer. He played intramural basketball and won his numerals in freshman track. Franklin admits jazz records are his only hobby.

Albert C. Schaffle of Asheville, N. C., majored in journalism and minored in economics. He is a member of Pi Kappa Alpha fraternity and held an Upson scholarship. Interested in sports, Al participated in varsity football, boxing and intercollege baseball. He received his gold "R" for work on *The Targum* and took the advanced course in the C.A.A.

Albert Schatz, who majored in soil science, came from Passaic. He was elected to Phi Beta Kappa in his junior year. Holder of a State scholarship, he was a member of the Ag Club, Chess Club, and German Club. Al's hobbies are the study of languages, rock collecting, and nature in general. He is a graduate of Passaic High School.

Seymour Schenkel is a member of the Sigma Alpha Mu fraternity. He lives in Newark where he attended Weequahic High School. Seymour majored in economics and held a General scholarship throughout his college career. He belonged to Deutscher Verein, Delta Phi Alpha, and the Hillel Society. His summers were spent selling haberdashery.



Eugene V. Schenkman of Grandview Avenue, New Market, held a General scholarship. He majored in agriculture, with special emphasis on plant physiology, and his summer occupation is farming. Gene was a commuter from New Market, where he was born February 17, 1922. He held a membership in the Mathematics Club.

John V. Schmidt of Bayonne majored in floriculture after being graduated from Bayonne Senior High School. Johnny was a member of Lambda Chi Alpha fraternity, and was a member of the Agricultural Club, the Floriculture Club, and the German Club. In his freshman year he won his numerals as track manager. During the summers Johnny worked in a greenhouse.

Ralph Schmidt of Union was holder of an Upson scholarship and majored in chemistry. He was a member of Crown and Scroll, Cap and Skull, and Spiked Shoe. Vice-president of his fraternity, Alphi Chi Rho, Ralph was also president of the Student and Interfraternity Councils and vice-president of the senior class. He won varsity letters in football, track, lacrosse, wrestling and basketball.

Joseph M. Schofel of Newark majored in pomology. Joe, a member of Tau Delta Phi fraternity, attended Weequahic High School before coming to Rutgers. He was alumni-scribe, scribe, and quaester of Tau Delta Phi. Joe received his numerals in cross-country and track, and played intercollege football and baseball. During the summers he was clerk in a market.

Samuel J. Sedicino was awarded his varsity letter in 150-pound football and in baseball. He won also a medal in the 145-pound class of intramural boxing. Sam was a graduate of Barringer High School and at college he majored in physical education and minored in English history. Along with sports his extra-curricular activities included the Italian and Newman Clubs.

Donald C. Shallcross of Roselle Park majored in agronomy and minored in meteorology. He was holder of an 1864 scholarship and was a member of the Agricultural Club. Interested in sports, Don captained 150-pound football and was a varsity lacrosse player. He was treasurer of Alpha Zeta, a member of Scabbard and Blade, and Second Lieutenant in the R.O.T.C.

Dean P. Sheffer of Ridgewood graduated from the Lewis and Clark High School, Spokane, Washington, and attended the University of North Carolina before matriculating at Rutgers. He majored in English and minored in psychology, and held a State scholarship. Dean served as secretary of Delta Phi fraternity and was vice-president of the Philosophian Club.

Albert H. Sherman majored in chemistry and minored in mathematics. Al lives in Atlantic City and is a graduate of Atlantic City High School. He was a member of the Chemistry Club and is interested in chemistry as a hobby. His other hobbies include photography and collecting records. He participated in freshman wrestling, lightweight crew and football.

LeRoy C. Shoemaker, a resident of Gibbstown, prepared for college at Paulsboro High School. After graduation from there he enrolled in the chemistry curriculum at Rutgers. In the summer time he furthered his interests in chemistry by working for E. I. Du Pont. LeRoy was a manager of the swimming team for four years, being head manager in his senior year.

Walter S. Shultise of Highland Park is a graduate of the high school in that city. Walt gained fame on campus for his musical talent; he was the leader of one of the local swing bands. In 1939 Walt toured Sweden with his orchestra. He was a journalism and political science major and a brother in the Chi Phi fraternity. He was also active in 150-pound football.

Carl N. Shuster, Jr. matriculated from Pennington School and majored in zoology. He was vice-president of Chi Psi fraternity and editor-in-chief of *The Scarlet Letter*. Carl was in Cap and Skull, Who's Who, K.Q.T., Deutscher Verein, Queen's Players, and S.A.M.E. He won letters in soccer, boxing, and as lacrosse manager. A Second Lieutenant in R.O.T.C., he comes from Trenton.

Seymour W. Silberberg was a major in biological science and a minor in chemistry. He was on the varsity tennis team and the freshman basketball and tennis teams. He was a member of the Biology Club and the Hillel Student League and was elected to the Honor School. His hobbies are photography, athletics and dancing. He is a brother in the Phi Epsilon Pi fraternity.

Melvin S. Sklar lives in Elizabeth and commuted from home daily. He majored in sanitary science and minored in bacteriology and chemistry. He received his preparatory education at Thomas Jefferson High School. Mel belonged to the Chemistry Club and claims scientific work as his hobby. During the summer vacations he worked as a grocery clerk.

C. Howard Smith, a graduate of Clinton High School, majored in dairy husbandry and minored in agricultural education. He was president of the Dairy Science Club and College Farmers. Howard also held membership in the Agricultural Club, Rutgers 4-H Club and the Lutheran Student League. During the summer he worked as a farmer in Lebanon.

George E. Smith of Wanaque majored in economics. He prepared for college at Colby Academy and transferred to Rutgers from Stevens Tech. George was vice-president of Delta Tau Delta, a varsity lacrosse player, and a member of the Rifle Club while at Stevens. As his hobbies, George enjoys photography and woodworking.

W. Evan Smith, of Maplewood, was president of Chi Psi fraternity. Bill, a health and science education major, was secretary of Student Council, a member of Interfraternity Council, and president of the Music Club. He earned his varsity letters in football, boxing, and track. A member of Crown and Scroll, Spiked Shoe, a Cadet Captain in the R.O.T.C., Bill was also in Who's Who.

William J. Smith, a graduate of New Brunswick High School, resided with his parents in New Brunswick while studying chemistry at Rutgers. The holder of a State scholarship, he was a member of the Off-Campus Club, the Newman Club, Delta Phi Alpha, and German Club. During the summer Bill worked as a house painter and a chemical laboratory assistant.

Arthur A. Socolow of Tom's River majored in geology. Arthur was a member of the German Club, Deutscher Verein, the Chess Club, and the Off-Campus Club. He held a State scholarship, and his hobbies include saving minerals, stamps and coins. Art played intercollege football, and was awarded his numerals in swimming.

Henry E. Sostman, a graduate of Dickinson High School in Jersey City, majored in English and minored in philosophy while at Rutgers. The holder of a State scholarship, he was the president of the Philosophian Club. His summer occupation was engineering and his hobbies were book collecting, book binding, writing, and reading.

Thomas W. Steele of Elizabeth, who came to Rutgers as a transfer from Union Junior College, majored in mechanical engineering. He became a member of the American Society of Mechanical Engineers. Last summer, Tom worked as a laboratory instructor in Rutgers' National Defense Training. His hobbies include skating, tennis, swimming, and woodworking.

Hubert W. Steger, Jr. majored in business administration. He was a member of the Ski Club and the Interfraternity Council. Herb served his fraternity, Delta Phi, as president. His spare time was spent pursuing his hobbies of hunting, fishing, skiing, and aquaplaning. During the summer, Herb worked as a bank teller at Pulaski, Virginia.

Alfred N. Steiner of Newark is a graduate of Weequahic High School and while "on the banks" was a ceramics major. Vice-president of the Radio Club and a member of the Ceramics Club, Al also played freshman and varsity lacrosse. During summer vacations he worked with a building construction company. His hobbies are the piano and amateur radio.

Alfred D. Straughan, Jr., a graduate of Somerville High School, majored in language and literature and minored in economics. Al, a commuter from Plainfield, held a State scholarship throughout his college career. He was an active member of Deutscher Verein, the German Club. He participated in swimming, and as a hobby enjoys nature observation.

Robert L. Strauss, a native of New Brunswick, majored in economics and minored in English while at Rutgers with the intention of becoming a Certified Public Accountant. He became a member of the Phi Epsilon Pi fraternity although he lived at home. During the summer Bob worked in a store. Swimming is his favorite sport.

Charles Sugerman of Somerville majored in Certified Public Accounting and minored in economics. Charlie, who was a member of the Scarlet Barbs, also participated in the Hillel Foundation and the Commuters Club. After being graduated from Somerville High School, he commuted daily to Rutgers from his home. Charlie's hobbies include music and stamps.

Marvin A. Susswein majored in accounting with the objective of becoming a Certified Public Accountant. He resides in Highland Park with his parents, Mr. and Mrs. Philip Susswein, and throughout his college career he has found summer employment with his father. Marvin was initiated into brotherhood in the Sigma Alpha Mu fraternity.

Robert Suvalsky, an agricultural student from Trenton, majored in agricultural economics and was graduated from Trenton High School. During the summer, Bob worked on a farm and is interested in gunning and riding. Bob was a member of the Agricultural Economics Club and was active in intramural sports. He commuted from his home.

Raymond W. Swarthout of Belmar majored in electrical engineering and was a State scholarship holder. He was a member of the Quad Club and of the American Institution of Electrical Engineering. Interested in athletics, Ray was a participant in varsity lacrosse and intercollege football and baseball. He is the son of Mr. and Mrs. Frank W. Swarthout.

Jay G. Sykes, a graduate of Rutgers Preparatory School, majored in political science and minored in history. He was an officer of Phi Epsilon Pi fraternity. Jay participated in intercollege baseball and won his numerals in tennis. His vacation periods were spent pursuing his hobbies of tennis, baseball, travel, and writing, and working in the Federal Shipyards.

George J. Szabo of Perth Amboy majored in political science and minored in history. He was a member of Kappa Sigma fraternity and of the Glee Club. George's hobbies are numerous and among them golf, tennis, and music attract him the most. He spent his summers working at Banker's School and in Homestead, Pennsylvania, his place of birth.

Joseph J. Tanner, a graduate of Ridgefield Park High School, majored in geology and minored in language. A holder of a State scholarship, he was a member of the 150-pound freshman football squad and crew. Joe was also active in the Spanish Club and Deutscher Verein. During the summer, he was a member of a geophysical oil exploration crew working in Texas.

George Temkin was a major in agronomy and minored in agricultural education. After graduating from Trenton High School, George continued his education by commuting to Rutgers. He was a member of the Agricultural Club and among his hobbies are swimming, tennis, and hiking. During the past summer he was manager of the post exchange for the National Guard on maneuvers.

Richard M. Thews of Highland Park majored in chemistry and minored in bacteriology. Dick, a member of Phi Gamma Delta, commuted daily. He was a member of the Chemistry Club and won his numerals in freshman 150-pound football. Dick also won the 1940 boxing championship in the 135-pound class. His hobbies include stamps and tennis.

George W. Thomas, Jr., a graduate of Haddon Heights High School, majored in journalism and minored in political science. A holder of a State scholarship, George is a member of Pi Kappa Alpha fraternity and was secretary-treasurer of Scarlet Key. He earned his numerals in soccer and was on *The Targum.* In the summer he worked as a hotel clerk.

Lynd F. Tillyer of Southbridge, Massachusetts, majored in mathematics and minored in psychology. He transferred to Rutgers from Worcester Tech in his sophomore year. He is a member of Lambda Chi Alpha fraternity and has served this organization as chaperone chairman. In his junior year, Lynd joined the Mathematics Club. He worked at a summer resort during vacations.

John D. Toole of Point Pleasant Beach majored in history and minored in political science. A member of the Newman Club, he enjoys music and cards as his hobbies. John was interested in sports, taking part in varsity track and cross-country, as well as intramural and intercollege athletics. During the summer he worked in boardwalk concessions.

William F. Tremmel, a graduate of East Orange High School, majored in journalism. Bill was a member of Pi Kappa Alpha fraternity and represented this organization on the Interfraternity Council. He participated in freshman baseball and completed secondary training in the C.A.A. During the summer Bill continued his study of aviation by working around airplanes.

Angelo Triandafilou was a physical education major and minored in English. He graduated from New Brunswick High School and his hobbies are aeronautics, puzzles and sports. Along the line of the latter, Angelo participated in football, baseball and intramural athletics. He also worked on the library staff and was employed as a shipping clerk in the summer.

Clifford C. Twaits from Chatham prepared at Snyder High School in Jersey City, and is a member of the Delta Kappa Epsilon fraternity. Cliff majored in economics and minored in English. He participated in 150-pound football and tennis and was on the staff of *The Targum*. He was a cross-country manager and enjoys bridge and ping-pong.

Herbert G. Ueltz majored in ceramics while here at Rutgers. He prepared for college at Morristown High School. Herbert was manager of the Rutgers Symphony Orchestra and secretary of the Ceramics Club. He won his numerals in cross-country and his hobby is music. Herbert lives with his parents in Morris Plains.

Vincent P. Utz, a graduate of Bordentown Military Institute, majored in economics and minored in sociology. Vinnie, a holder of an Upson scholarship, earned his varsity letter in football for three years and also participated in intramural boxing. He was elected to Cap and Skull and was vice-president of Kappa Sigma fraternity.

Howard R. Voorhees, a chemistry major from Asbury Park, was holder of a State scholarship and a member of Lambda Chi Alpha fraternity. He was a Second Lieutenant in the R.O.T.C. and as a sophomore he took the C.A.A. course. He was a member of the Chemistry Club and was elected to Delta Phi Alpha and Phi Lambda Upsilon. His hobby is flying.

Arthur A. Wakeling was a major in geology and a minor in psychology. His hobbies include bicycling and painting. He won his freshman numerals in cross-country. He was also a member of the freshman debating team. During the summer months he has been employed as a farm hand. He received his preparatory training at Rutherford High School.

Daniel Wapner majored in agricultural economics, was a member of the Agricultural Club, and vice-president of the Agricultural Economics Club. He also worked for the Agricultural Field Day. Dan lives in Highland Park and commuted from there. He is enrolled in the C.A.A., and has numerous hobbies, including reading, music, and hiking.

Donald P. Waterman was a major in economics and a minor in sociology, music, and psychology. His hobby is photography and he was a member of the Photography Club. He participated in intercollege football for which he received the 1941 champion's medal. During the summer months he has been employed as a life guard. He belongs to the Delta Kappa Epsilon fraternity.

Harold W. Watson majored in government service. He is a graduate of West Orange High School and while at Rutgers was secretary of the Raritan Club and participated in intramural sports. Harold was awarded his numerals and jayvee letter in basketball and was a member of the baseball team as well. Golf and cards occupy most of his spare time.

Justin L. Weiss, a journalism major, is a member of the Tau Delta Phi fraternity. He was the holder of a State scholarship. In addition to belonging to the Journalism Club and the Hillel Foundation, Justin also worked for a year on the staff of *The Targum*. He was elected into Scarlet Key and Philosophian. In his freshman year he played 150-pound football.

Morton M. Weiss, a graduate of Rutgers Preparatory School, majored in economics and minored in Spanish. He was active in swimming and earned his letter and numerals in that sport. Mort was a member of the Hillel group and also held membership in the Queen's Players. A member of Phi Epsilon Pi fraternity, Mort had among his hobbies photography and swimming.

Arthur D. Wellington, Jr. lives at 123 South Eighth Street in Newark at the present time. It was in this city that he was born on October 28, 1920. A graduate of Newark West Side High School, he has commuted from Newark during his years at Rutgers to study chemistry. Art was holder of a State scholarship.

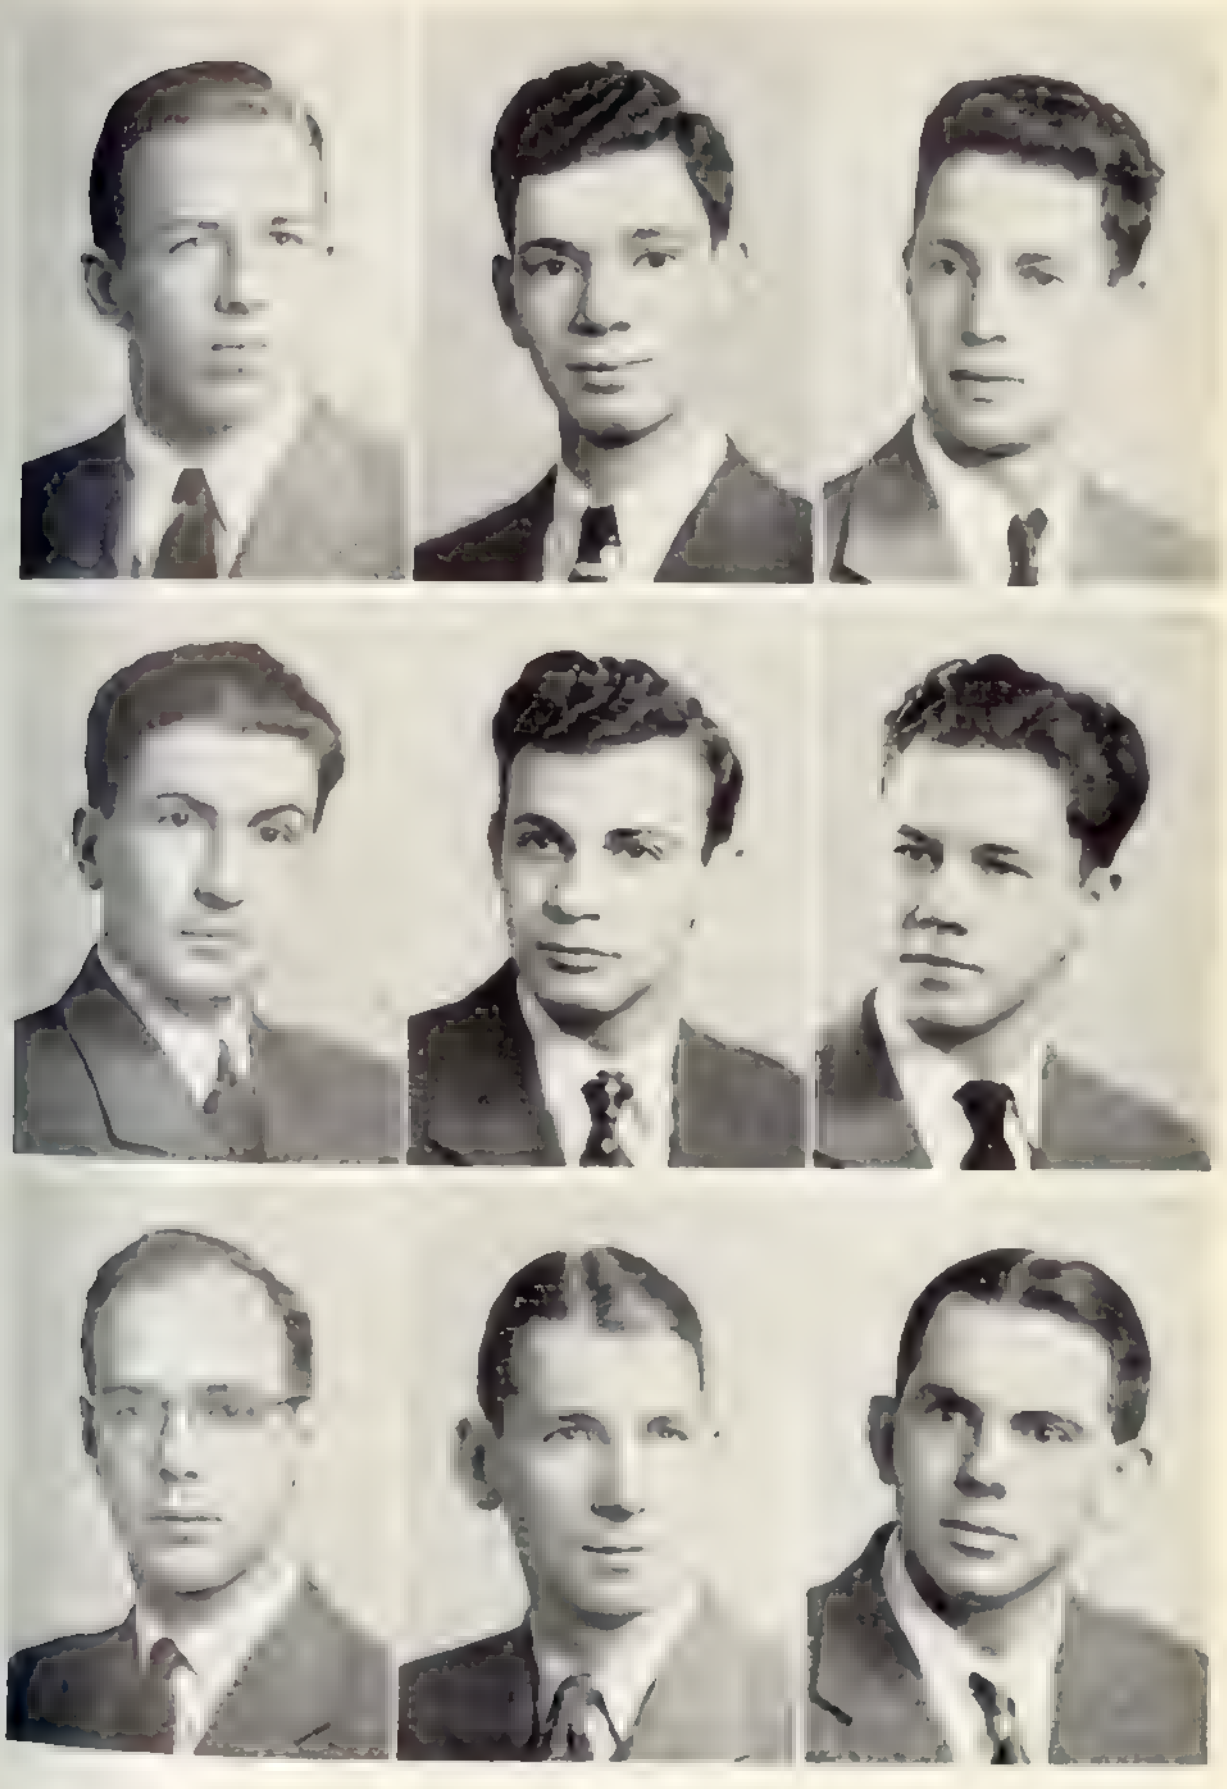
Milton A. Widerman majored in mechanical engineering. A resident of Newark, he graduated from South Side High School in that city. Milt was a member of the American Society of Mechanical Engineers and during the summers he worked as a draftsman. His hobbies, in line with his future, are designing and drawing.

John E. Wiese was a chemistry student from Rahway. He held a State scholarship and was graduated from Rutgers Preparatory School. John was elected to two honorary societies, Delta Phi Alpha and Phi Lambda Upsilon. He was a member of the freshman rifle team and is interested in antique firearms. He commuted from his home.

John B. Williams, of Schnectady, New York, is a graduate of Nott Terrace High School in that city. John was editor of *The Anthologist*, president of Queen's Players, and he acted as chairman of Soph Hop. John was a history major and he chose English as his first minor. He showed his liking for writing by working on a newspaper during the summer.

Leslie H. Willis, a transfer from Monmouth Junior College, majored in English and minored in French. Les commuted throughout his college career from his home in Freehold. Leslie held a University scholarship and his interests include reading and travel. During the summer he worked as a secretary. Les was born on September 12, 1920, in Amsterdam, New York.

John R. Winckler, a graduate of North Plainfield High School, majored in physics and minored in mathematics. A commuter from North Plainfield, he was a member of the Glee Club. During the summer, John worked in a physics research industrial laboratory. He spends his extra time at his hobbies, amateur photography, music, and radio.



Robert Wurtz lives in Hackensack and was graduated from Hackensack High School. He majored in mechanical engineering, and is a member of A.S.M.E. Bob was a member of Tau Beta Pi, treasurer of Spiked Shoe, and on the varsity track team. He held a State scholarship and did electrical assembly work during the summer.

Alvin B. Zeller, a graduate of Dickinson High School, majored in journalism. He was president of the Targum Council and was a member of Pi Gamma. He earned his numerals as freshman basketball manager. Alvin was the Rutgers correspondent for the New York *Times*. A member of the Scarlet Barbs, his hobby is key collecting. His home is in Jersey City.

Leonard M. Zubko is a member of the Phi Gamma Delta fraternity. His home is in Kearney and he is a graduate of Kearney High School. Len was president of A.S.M.E. and a member of S.A.M.E. He was a Lieutenant Colonel in the R.O.T.C. and a member of Scabbard and Blade. He was co-captain of the varsity swimming team and also participated in crew.

Clifton A. Bischoff of Middleton is a member of the Phi Gamma Delta fraternity. Cliff served as a preceptor for several years, and he was enrolled in the mechanical engineering curriculum. He was tennis manager as well as the treasurer of A.S.M.E., and has completed the primary course in the C.A.A. During the summer Cliff worked for the Department of Agriculture.

James B. Blish, a biology major from Orange, is a member of the Tau Kappa Epsilon fraternity. In the summer Jim did research work in biology. He was president of the Biology Club and member of the Philosophian Society. He writes short stories as a hobby and enjoys music. Jim was graduated from East Orange High School.

Horace R. Bogle, Jr. came to Rutgers after having graduated from Lyndhurst High School. A member of the Kappa Sigma fraternity, he majored in history and minored in economics. In his freshman year, Bill participated in 150-pound football and as an upperclassman was active in various intramural sports. During the summer he was a counselor at a Y.M.C.A. camp.

Stephen J. Capestro, who held a State scholarship, was graduated from Toms River High School and Franklin and Marshall Prep School. A business management major, Steve played football and received his numerals and three letters. He was a member of the Italian Club, and bowling and other sports were among his hobbies. Summers he drove a bakery truck.

Paul De Porte, whose home is in Albany, New York, was a transfer student from Rensselaer College. He attended Milne Preparatory School where he acquired his taste for languages. Paul majored in English, minored in Spanish, was a member of the French Club as well as the Spanish Club, and has a knowledge of German too. Paul's diversions vary from chess to writing.

William Lewis, a resident of Margate, was graduated from Atlantic City High School before matriculating at Rutgers to major in science. He was active in the Chemistry Club and was elected to Delta Phi Alpha. During the summer he worked as a free lance motion picture operator, and lists among his hobbies books and music.

Frank H. Lloyd, Jr., a member of Zeta Psi fraternity, majored in English and minored in social science. Frank was graduated from Matawan High School. He was a member of the Quad and Ford Clubs. In the summer he worked as a highway enumerator. He participated in swimming and fencing and his hobbies are tennis, golf, and writing.

George H. Loux was the treasurer of Lambda Chi Alpha fraternity and was business manager of *The Anthologist*. He completed the C.A.A. course and in the summer teaches flying. George was on *The Targum* and played on the 150-pound football team. He obtained his numerals for managing the tennis team in his freshman year. He was enrolled in the mechanical engineering course.

Robert P. Mills, a resident of South Hadley, Massachusetts, was graduated from Williston Academy. He transferred to Rutgers from Massachusetts State College. Bob majored in English and minored in French. He lists among his hobbies skiing and golf, while during the past summers he has worked on a dude ranch in the middle west.

George Pearce, who was enrolled in the ceramics curriculum, held a State scholarship. He held the position of president of the Chess Club in his junior year and was secretary of the Ceramics Club in his sophomore year. He was also a member of the Scarlet Barbs. Chess is George's chief interest, although swimming, fishing, and his photography all run close seconds.

James B. Perkins, holder of a State scholarship, majored in business administration and minored in English. Jim came to Rutgers from Wardlaw Preparatory School. He earned fame as a baseball pitcher while here at Rutgers. During the summer Jim played still more baseball. He now lives at 1116 Putnam Avenue in Plainfield.

C. Thomas Perrapato majored in economics on his way toward being a C.P.A. A member of the Kappa Sigma fraternity, he became president of that organization in his senior year. He was graduated from Peekskill Military Academy and now makes his home in Garfield. He represented his fraternity on the Interfraternity Council.

William F. Symons, a member of Lambda Chi Alpha fraternity, is a resident of Atlantic City. Bill was a member of Scarlet Key and was on the staff of *The Targum* and *The Anthologist*. He was manager of the swimming team and likes music, dancing and reading. Bill majored in English and minored in Spanish. During the summer he worked as a salesman.

UNIVERSITIES
AND COLLEGES

CHAPTER FOUR

Wreaths of Laurel

TO INSPIRE men to heights seemingly unattainable, and as a reward for the efforts put forth in scaling these heights, Rutgers has functioning on campus sixteen honor societies. Most recent of these and perhaps one of the greatest honors an undergraduate can receive is inclusion in "Who's Who in American Colleges." Running hand in hand with this new recognition are Cap and Skull and Phi Beta Kappa. Both "Who's Who" and Cap and Skull are awards recognizing outstanding achievements in athletics, extracurricular activities, and scholarship. The third, Phi Beta Kappa, is the highest scholastic honor attainable at Rutgers.

Crown and Scroll, junior honorary society, has its members elected on the same basis as in Cap and Skull. The other societies have been formed over the years to provide recognition of accomplishments in debating, band, and specific fields of study, including both the sciences and the liberal arts. Thus, over a period of time, the student body has been endowed with reward for achievement in all phases of college activity.

¶ KEYS AND BADGES OF THE HONOR SOCIETIES Phi Beta Kappa, Cap and Skull, Alpha Zeta, Phi Lambda Upsilon, Scabbard and Blade, Spiked Shoe, Scarlet Key, Tau Kappa Alpha, Delta Phi Alpha, Tau Beta Pi, Beta Iota Lambda, Kappa Tau Alpha, Crown and Scroll, Philosophian, "Who's Who."

Phi Beta Kappa

PHI BETA KAPPA came to Rutgers campus in 1869 when the Alpha chapter of New Jersey was organized as the eighteenth chapter in the national scholastic fraternity. Emphasizing the scholarly ideals of academic life, the society represents the highest award for scholastic achievement which Rutgers offers.

Membership is by selection, with a man's scholastic record being the all-important factor considered. The local group is particularly active, meeting frequently and presenting literary and scientific programs. From time to time a prominent speaker appears before the chapter.

D. Lester Frank, Robert B. Kennedy, Albert I. Schatz and Louis Mosesof were elected to the society in the junior year.

Cap and Skull

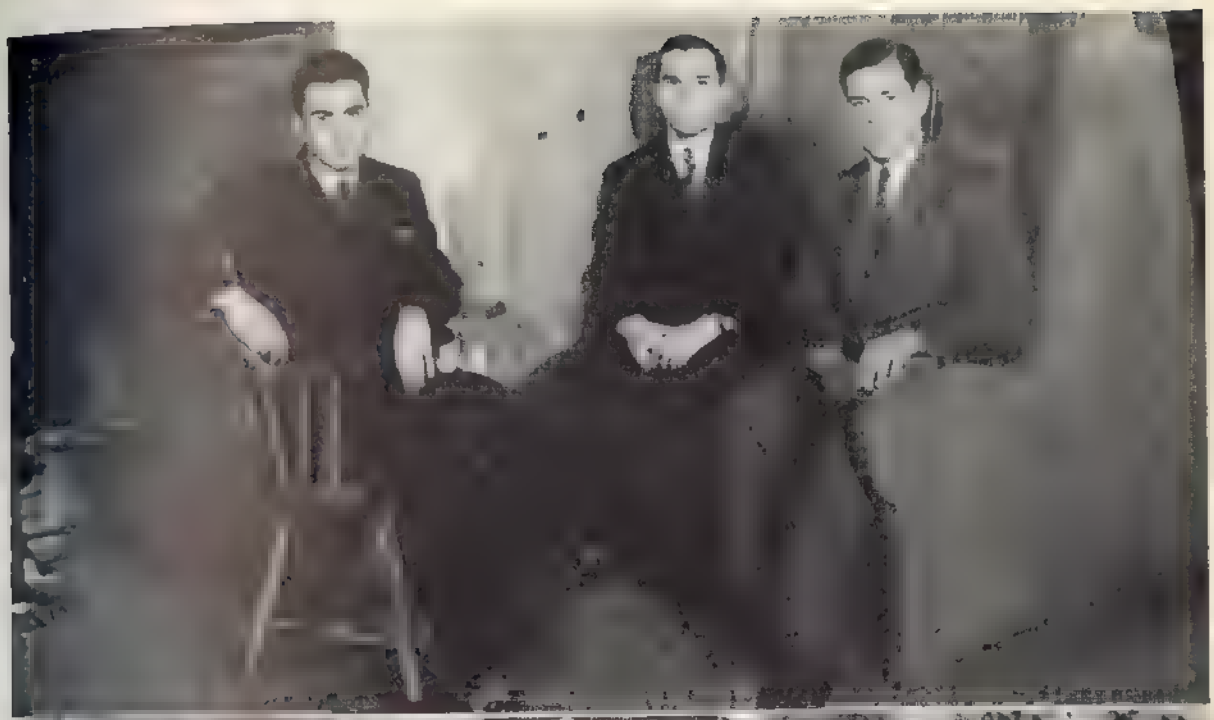
CAP AND SKULL, the senior honor society, was founded in 1900 to recognize annually twelve members of the senior class who have shown outstanding ability in the fields of leadership, scholarship, athletic, and extracurricular activity. Members of the organization are tapped at spring convocation.

Previously nominations were by a board of electors whose selections were based on a comprehensive point system. A secret system for election was instituted four years ago and has been in use since then.

Lyman C. Avery served as president of the society during the past year. Other members were S. Robert Christensen, Robert Haber, Stewart A. Hurlburt, Ronald Jarvis, Jarvis P. Kellogg, John Melrose, Frank P. Patten, Joseph Puleo, Ralph Schmidt, and Carl N. Shuster, Jr.

¶ PHI BETA KAPPA (*above*): Schatz, Frank, Kennedy; other seniors—Thomas Adams, Raymond Balasny, Warren Beckwith, Norman Brandt, Robert Brousseau, Robert Edelberg, Fred Feldman, Melvin Fromkin, George Gordon, Ronald Jarvis, Kenneth Jehn, Stanley Klion, Harold Koenig, Frederick Kruger, Thomas La Costa, Milton Lederman, John McDonnell, Alfred Nisonoff, Aaron Polinsky, William Rushmore, Theodore Sands, Franklin Schaefer, John Tanner; juniors—Henry Irons, Louis Lasagna.

¶ CAP AND SKULL (*below*): *first row*—Avery; *second row*—Haber, Hurlburt, Utz, Patten, Melrose, Jarvis; *third row*—Christensen, Shuster.



Alpha Zeta

The Cook chapter of ALPHA ZETA, national honorary agricultural fraternity, was founded at Rutgers in 1922 and named in honor of Dr. George H. Cook. The objectives of the organization include the advancement of agriculture, and the development of high standards of scholarship, leadership, and fellowship among agricultural students.

During the past year, Alpha Zeta weathered an attack by both *The Targum* and Student Council to maintain its honorary status on the campus. The cause of the controversy was a clause in the national constitution which limits membership to "white" students only.

The officers who led the society this year were: James A. Bivins, chancellor; Thomas T. Adams, censor; Charles W. Brown, scribe; Martin Kurzweil, chronicler, and Donald C. Shallcross, treasurer.

Phi Lambda Upsilon

The national society of PHI LAMBDA UPSILON was organized for the promotion of high scholarship and original investigation in all branches of pure and applied chemistry. Sigma chapter of Rutgers was added to the national organization in 1922.

Both undergraduates and graduates are eligible for membership in the society which annually sponsors a freshman reception, at which time the freshman chemistry award is made. Other activities of the group include special scientific lectures by members of the faculty and outside speakers and talks by members of the chapter.

Officers were: William H. Raimond, president; Robert P. Logan, vice-president; Edwin L. Brewster, secretary; Samuel M. Livengood, treasurer, and Lloyd L. Falk, alumni secretary.

ALPHA ZETA (*above*): *first row*—Gilbert, Adams, Bivins, Brown, Shallcross, Flynn; *second row*—Hartung, Gilbert, F., Benash, Eaton, Weagley, Griffin; *third row*—Cowperthwaite, Blight, Akeson, Griggs, Wells.

PHI LAMBDA UPSILON (*below*): *first row*—Mr. Brewster, Dr. Cottle, Dr. Allison, Mr. Raimond, Dean Read, Dr. van der Meulen, Dr. Van Mater, Mr. Livengood; *second row* -Mr. Nastuk, Nisonoff, Mr. McDevit, Mr. Goodman, Mr. Seeley, Mr. Jankowski, Mr. McComas, Clyman; *third row*—Mr. Hollyday, Wiese, Mr. H. Taylor, Mr. McCoy, Kruger.

Scabbard and Blade

SCABBARD AND BLADE, national honorary military society, was established at Rutgers in 1923 when Company C-5 was commissioned. The society seeks to promote collegiate interest in military affairs and at the same time to develop civic thought among its members and help prepare them to advise their communities in military policies. Membership is open to those seniors and juniors in the advanced R.O.T.C. course who have shown notable achievement and high scholarship. The group sponsors the annual Military Ball and offers two scholarships annually.

Theophilus A. Pierce was captain of the society; Robert R. Freeman, first lieutenant; Arthur R. Dorsch, second lieutenant, and Leonard M. Zubko, first sergeant.

Spiked Shoe

SPIKED SHOE, the national collegiate honorary society for track, has as its purpose the aim to promote campus participation in track and field and to recognize outstanding achievement in the sport. Members are elected to the organization and all track men are eligible.

The group annually sponsors the intramural track meet, the intramural cross-country meet, and the polar bear track meet. Cups are awarded to the winning teams and the individual winners in each contest receive medals of recognition.

The officers of the group for the past year were: Randolph Cramer, president; Richard Bullington, vice-president; Frank Gilbert, secretary, and Robert Wurtz, treasurer.

SCABBARD AND BLADE (*above*): *first row*—Johnson, Hale, Freeman, Pierce, Dorsch, Zubko, Mason; *second row*—Goodier, Shallcross, Kuhn, Patten, Koehler, Haber, Olsen.

SPIKED SHOE (*below*): *first row*—Johnson, Wurtz, Cramer, Bullington, Smith; *second row*—Bennett, Baker, Cloer, Hart, Perrine, Holland.

Scarlet Key

Reorganized during the past year, SCARLET KEY, junior service society, was originally founded in 1926. Traditional task of the organization is to act as official host of the University, welcoming visiting athletic teams and entertaining them during their stay on the campus. The society also sponsors an annual football dance.

This year the group extended the scope of its activity and assisted in the work of the Rutgers Defense Council, sponsored a lecture by Father Hubbard, the glacier priest, aided in Prep School Weekend arrangements, and helped in the Red Cross blood-bank drive.

Under a new plan, members are selected by a board of electors. Officers for the year were William L. Van Nuis, president, and John T. Everett, secretary-treasurer. John D. Zerbe was dance chairman.

Pi Gamma

PI GAMMA is an honorary and professional society for journalists showing exceptional proficiency in newspaper reporting. Of local origin, the society was founded in 1928.

Membership, generally attained in the junior or senior year, is based upon individual ability and attitude displayed during a two year apprenticeship period. The members gather and dispatch news of Rutgers, both general and sports, to papers and agencies throughout New Jersey, New York, and Philadelphia.

Seymour Aronoff served as president this year. Alan Reitman was vice-president; Leonard Goldblatt, secretary; Russell J. Janoff, treasurer, and Alvin Zeller, chronicler. Edward Isaacs, assistant director of public relations of the University, acted as faculty advisor.

¶ SCARLET KEY (*above*): *first row*—Brown, Connor, Van Nuis, Everett, Pape, Strassburger; *second row*—Scharf, Zerbe, Freedman, Pfeil, Walklet, Gilbert, Kreger, Archibald; *third row*—Lamond, Brightenback, VanKirk, Patrick, White, Bewley.

¶ PI GAMMA (*below*): *first row*—Isaacs, Aronoff, Nelson, Janoff; *second row*—Luhmann, Zeller, Goldblatt, Reitman.

Tau Kappa Alpha

Tau Kappa Alpha, national honorary forensic society, organized at Rutgers in 1929 to recognize outstanding achievement in the field of debating and public speaking. Selection is based on individual skill and participation in intercollegiate forensics.

To accomplish its aims, the society sponsors frequent panel discussions, annually awards a best freshman debater trophy, and recognizes speech achievement among faculty and administration members. The chapter sent delegates to T.K.A. conferences in Indiana, Ohio, and Pennsylvania this year.

S. Robert Christensen was president; James C. Evert, vice-president, and Henry D. Austin, secretary. Professor Richard C. Reager, national T.K.A. vice-president, served as faculty advisor.

Delta Phi Alpha

Delta Phi Alpha is the national honorary German society on the Rutgers campus and is limited in membership to those students whose work demonstrates decided proficiency in the use of the German language and in knowledge of the literature of the German people. The purpose of the society is to augment classroom work with added material concerning the German art and culture. This end is accomplished through the media of formal discussion and lectures.

At the conclusion of the year's activities, the society sponsors an annual banquet, and the winners of the perennial essay contest on subjects connected with the German arts receive their awards.

The officers were: Louis Lasagna, president; Charles Zukaukas, vice-president, and Frank Romano, secretary-treasurer.

¶ TAU KAPPA ALPHA (*above*): *first row*—Feldman, Fromkin, Christensen, Janoff, Balasny; *second row*—Mirsky, Klion, Saviet, Melrose.

¶ DELTA PHI ALPHA (*below*): *first row*—Nabholz, Holzmann, Menninghaus, Puhan; *second row*—Haar, Zukaukas, Smith, Schaefer, Mauriello, Veltre; *third row*—Lasagna, Clyman, Mulligan, Wiese, Leuser.

Tau Beta Pi

Recognition of those who have attained distinguished scholarship or achievement in engineering is the foremost purpose of TAU BETA PI, national honorary engineering society. The Rutgers unit of the national organization was established in 1934.

The Society's membership is made up of both graduates and undergraduates in the College of Engineering. Although scholastic achievement is the primary requisite for election, selections are also influenced by integrity, breadth of interest, adaptability, and cooperative activity.

Officers this year were: Robert B. Kennedy, president; Samuel J. Mason, vice-president; George Gordon, recording secretary; William B. Rushmore, corresponding secretary, and H. John Holloway, treasurer.

Beta Iota Lambda

A local honorary biology society, BETA IOTA LAMBDA was organized in 1935 to devote itself to a consideration of the basic principles of the biological sciences. This aim has always guided the society in the determination of program.

The group sponsors faculty-student seminars for the presentation of scientific information, lectures, field trips, and such independent projects of immediate value to the members as will augment the program. Membership is limited to outstanding students in the biological curriculum.

Robert E. Edelberg was the elected president of the society in the past year, while Rudolph G. Matflerd served as secretary-treasurer. Drs. W. H. Cole and E. B. Perkins were advisors.

¶ TAU BETA PI (*above*): *first row*–McDonnell, Rushmore, Mason, Kennedy, Holloway, Wurtz; *second row*–Gordon, Palladino, Rocky, Donahue, Gamarekain.

¶ BETA IOTA LAMBDA (*below*): *first row* Freeman, Anderson, Matflerd, Schaefer, Mason, Roth; *second row*–Katz, Clemente, Lasagna, Zukaukas, Alobodien, Mauriello, Yawitz.

Kappa Tau Alpha

The Rutgers chapter of KAPPA TAU ALPHA, national honorary journalism society, was organized in 1937 to recognize and encourage high scholarship among students in the journalism curriculum. Selection is limited to the highest ten percent of the senior class in that department and is based solely upon scholastic achievement and upon character.

The local unit of the society is purely honorary, having no other activity than the annual election of new members. The first chapter of Kappa Tau Alpha was formed at the University of Missouri in 1937. Members elected this year were Howard Alexander, Melvin Fromkin of Rutgers, and Mildred Silverman and Barbara Waters, N.J.C. Professor Frederic Merwin is the faculty advisor.

Crown and Scroll

One of the newer campus honoraries, CROWN AND SCROLL was organized in the spring of 1939 as a reward for the fifteen outstanding members of the junior class. Members of the junior honorary society are selected on the basis of scholarship and activities.

Aiding in the orientation of freshmen and fostering inter-class rivalry through the medium of Soph Frosh Week are the principal aims of the organization. This year the society also undertook a high school visitation program and sponsored the campus drive in the "March of Dimes" fight against infantile paralysis.

Leonard J. Hansen served as president of the society during the past year. Herbert W. Irwin was secretary-treasurer and Charles L. Zukaukas was chairman of Soph-Frosh Week activities.

¶ KAPPA TAU ALPHA (*above*): H. Alexander, Barbara Waters, Fromkin; not in picture—Mildred Silverman.

¶ CROWN AND SCROLL (*below*): *first row*—Chandler, Patrick, Suter, Hansen, Freedman, Zukaukas, *second row*—Leff, Whitestone, Van Nuis, MacDonald, Schweiker, Everett, Luhmann.

Philosophian Society

The PHILOSOPHIAN SOCIETY, newly reorganized last year, is the oldest Greek organization on campus and dates back to the early nineteenth century. The group is the campus literary society and has an old and time-honored tradition. This tradition has been perpetuated down through the years by means of literary discussions and the critical appraisal of outstanding literary works by noted authors of the past and of the present.

Members are chosen for the interest that they display in literature not only in the classroom but also on campus and in their daily lives. The meetings are closed to non-members of the group.

The officers this year were: Henry Sostman, president; Dean Sheffer, vice-president; Thomas Kindre, secretary-treasurer, and Richard Kleiner, program committee chairman.

Kappa Kappa Psi

The formation of the Rutgers chapter of KAPPA KAPPA PSI, national honorary band fraternity, was begun February 13, 1941. The purposes of Kappa Kappa Psi are to promote the existence and welfare of the Band, to honor outstanding bandsmen by membership, to improve its members musically, and to serve better the University.

The chapter justified itself by undertaking several jobs within the Band, such as the accommodation of visiting bands, helping to secure the new uniforms, and the Band reorganization of the past year.

Mr. Wilbert B. Hitchner, Band Director, served as faculty advisor, while Helmut E. Gerber, '42, was president; Franklyn A. Johnson, '44, vice-president; George M. Mills, '44, secretary, and Thomas G. Conte, '42, treasurer.

¶ PHILOSOPHIAN (*above*): *first row*—Evan Smith, Gerber, Blish, Kindre; *second row*—Gosselink, Jarvis, Cary, Romme.

¶ KAPPA KAPPA PSI (*below*): *first row*—Kays, Conte, Gerber, Johnson, Mills; *second row*—Abrams, Schenone, Berger, Keller, Liebeskind, Sabin.

Alpha Phi Omega

ALPHA PHI OMEGA, national service fraternity, was established at Rutgers in the spring of 1941. The group, composed of former members of the Boy Scouts of America, has the purposes of serving the University, the students, and each of its members.

This year, the unit's first, has seen its members collect discarded Scout uniforms and turn them over to the local Council, collect paper for the defense drive, aid the Blood Bank Committee, and serve the local Scout troops.

Officers were: Harold J. Belcher, '43, president; Franklyn A. Johnson, '44, first vice-president; Robert F. Moss, '42, second vice-president; Ted Flanagan, '43, secretary-treasurer, and Richard S. Kain, '44, historian.

"Who's Who"

Most recent honor to be given recognition on the Rutgers campus has been the listing of the outstanding seniors in "WHO'S WHO." The highly coveted ranking in "Who's Who Among Students in American Universities and Colleges" is attained on a selective basis of all-round collegiate achievement including scholarship, leadership, character, success in extra-curricular activities, and the possibility of future usefulness to business and society.

Seniors listed in the 1941–42 "Who's Who" edition are Lyman C. Avery, Norman D. Cary, S. Robert Christensen, Osborne H. Day, Robert Haber, Stewart A. Hurlburt, Russell J. Janoff, Ronald Jarvis, Jr., Jarvis P. Kellogg, John A. Melrose, Frank P. Patten, Joseph Puleo, Ralph Schmidt, Carl N. Shuster, Jr., W. Evan Smith, and Vincent Utz.

WHO'S WHO (*below*): *first row*—Patten, Hurlburt, Avery, Jarvis, Janoff; *second row*—Day, Schmidt, Kilcheski, Shuster, Christensen, Evan Smith.

CHAPTER FIVE

Spice of Life

WITH service in the armed forces of the country on the horizon of the near future for many undergraduates, the diversion which the social functions of the year impart assumed a new importance this past year. The social calendar was a varied one and the students gave their whole-hearted cooperation in all of the scheduled dances and activities.

The social season commenced with the Scarlet Barb annual dance on the last Saturday in September. The gymnasium was crowded with students and their dates, eager to shake the rafters with their revelrous high-jinks, as Walter Scott and his orchestra provided the tuneful accompaniment. Two weeks afterwards, the Scarlet Key Society again filled the gymnasium to capacity with the social scions of the campus and their satellites. The feature attraction was Judy Brines of N. J. C. who presented some of the songs she was to sing in a nation-wide vocal contest.

Soph Hop, the first large formal dance of the social season, was novel in every way, from the dance programs in the form of small record portfolios, to the scarlet and black bunting which draped the walls and the ceiling of the gymnasium. It was Hallowe'en, the 31st of October, and, in

¶ CANDID photographs taken at the Junior Prom.

keeping with the holiday, scores of capering devils stared down upon the dancers, while directly over Tommy Tucker and his orchestra a colossal hand held a wide strip of ribbon leading to the mouth of Satan. It was an inferno scene comparable to a product of Dante.

The next day sleepy couples, with a spirit for adventure, braved the weather and then returned, drenched, to the fraternity houses to tell the less venturesome, of a hard fought 20–0 victory over the Maryland football team. That night after the game many of the students went to see the undergraduate production of "College Widow." The houseparties of the evening were greatly varied in that they represented everything from strictly formal or semi-formal affairs to the most informal old-clothes parties.

The chairman of the dance was Charles J. Gantner. He was assisted by Thomas J. Ricciardi, publicity; S. Robert Bell, chaperones; Samuel A. Schwarzman, decorations; Franklyn A. Johnson, tickets; Richard J. Geller, refreshments; and John P. Ward, music.

The winter of 1941–42 was destined to be a mild one, especially on the weekend of February 1st when five hundred students, alumni, and guests migrated to the Inn at Buck Hill Falls, Pa., for the annual winter sports weekend sponsored by the University Glee Club. Rain on Saturday afternoon boded ill for outdoor sports, so the guests settled down to bridge, ping pong, billiards, and jig-saw puzzles. With the progress of the courses at the formal dinner that evening the spirits of the guests rose, and as the ensuing Glee Club Concert gained way the gloom of the afternoon vanished. An excellent musical program was provided by the songsters, directed by F. Austin Walter. Renditions by featured quartets and soloists far removed the thoughts of the guests from such petty concerns as the weather. Swinging along in the spirit of things came the formal dance, and, as if to assure the success of the weekend, just as the orchestra was playing the closing strains, the last cloud vanished from the sky. On the following morning, Stephen Dunton, manager of the weekend, announced

℄ CANDID photographs taken during the Junior Prom.

that there would be tobogganing, skating, hiking to the falls, and a scavenger hunt. Hence, it was with weary satisfied smiles that the guests left for college that afternoon, once more to resume study.

Only three short weeks elapsed after this strenuous weekend in the mountains before Junior Prom loomed on the social calendar. Gene Krupa and his orchestra came to Rutgers for the second time in the history of the class of '42. The decorative theme, drums, was well executed with large and small drums on the ceiling supplying the light. Behind the bandstand on a blue background was a large golden eagle which lent itself to the patriotic motif. A new note was struck at this dance by the quarter-hour nation-wide broadcast over the Coca Cola Hour, and also by the button-corsages worn by each girl. The money usually spent for corsages was given to the Red Cross.

Robert A. Mengel was dance chairman, assisted by Frank E. Hutcheon, Jr., chaperones; Daniel Leff, tickets; John C. Pfeil, music; Robert F. Patrick, decorations; William L. Van Nuis, refreshments.

The only vacation after the Christmas holidays was enjoyed by the student body on the Monday following the Prom, in celebration of Washington's birthday. And needless to say, it came at a time most welcomed by the participants of the weekend.

As *The Scarlet Letter* goes to press there are still several major events listed on the social calendar. Among the first of these is the Ag Barn Hop on April 4. This year, because of the war conditions, the students of the Agricultural College have had to forego their usual Ag Field Day, which drew people from all over the state to the campus to view the improved methods of farm management as demonstrated by the students, and so they will only hold the barn dance. The dance sponsored by this group is unique in the schedule of social events. The students and their dates from

¶ SOPH HOP COMMITTEE (*above left*): Johnson, Ward, Schwarzman.

¶ JUNIOR PROM COMMITTEE (*above right*): *first row*—Pfeil, Mengel, Bennett; *second row*—Leff, Van Nuis, Patrick.

¶ MILITARY BALL COMMITTEE (*below*): Koehler, Johnson, Patten, Haber, Mason, Hale, Olsen.

N. J. C. are brought to the gymnasium in trucks filled with hay. There are square dances, Virginia reels, and a grand march.

Ray McKinley and his orchestra have been contracted to play for the annual Interfraternity Ball on April 18th. The committee, headed by W. Evan Smith, '42, is composed of the following Interfraternity Council members: John D. Zerbe, tickets; Walter M. Gall, music; Edwin P. Arnolt, decorations; Clifford Pangburn, chaperons; William Suter, programs; and John T. Everett, refreshments. Each fraternity will decorate its own booth in accordance with a general theme, a prize to be awarded the winner.

The shortened year has rearranged plans for many of the spring events and the Military Ball and Senior Week have been moved forward on the calendar in respect to previous years. As usual, Scabbard and Blade, honorary military society, members sponsor the dance. Robert Haber '42, is chairman, and his committee members are: Robert C. Olsen '42, tickets; William C. Hale '42, decorations; Franklyn A. Johnson '44, publicity; Volckert V. R. Mason '42, music; George R. Koehler, Jr. '43, chaperons; and Frank P. Patten '42, programs. With the possibility that this may be the last Military Ball for the duration, plans for the affair are very elaborate. Charlie Barnet will furnish music.

Senior Week will be held during the week of May 3. Starting with the Baccalaureate Service on May 3, the seniors' last week as undergraduates will be a continued round of activity. Commencement, May 10, formally concludes the week. Russell J. Janoff is chairman of Senior Week and Vice-President Ralph Schmidt will direct the Senior Ball. Formal affairs, such as the Ivy Planting and the Pipe-breaking Ceremony, are under the management of Ronald Jarvis.

CHAPTER SIX

Hale Fellows Well Met

AS EDUCATION has expanded and the great universities of the country have enlarged many times both in size and number, so also has the fraternity system expanded. There has been a reciprocal benefit between educational and college fraternity organizations.

And so it has been on Rutgers campus: the growing university set the pace and the fraternity groups paralleled its development with their own.

This development of fraternities on this campus may be divided into two periods. The first era began in 1845 when the local chapter of Delta Phi was chartered as the first Rutgers fraternity. Gradually, other national fraternities established chapters on the campus, and in 1879 there were eight fraternities represented.

Then there occurred a lull in the expansion for thirty years. In 1909 a new local fraternity was organized and in the next eighteen years twenty new fraternities made their appearance on campus. As a result of mergers and affiliations with national fraternities many of these groups disappeared and now nineteen are in existence.

¶ FRATERNITY badges and pledge pins: Delta Phi, Zeta Psi, Delta Upsilon, Delta Kappa Epsilon, Chi Phi, Beta Theta Pi, Chi Psi, Pi Kappa Alpha, Lambda Chi Alpha, Phi Epsilon Pi, Phi Gamma Delta, Kappa Sigma, Raritan Club, Sigma Alpha Mu, Tau Kappa Epsilon, Alpha Kappa Pi, Theta Chi, Tau Delta Phi, and Alpha Chi Rho.

Interfraternity Council

INTERFRATERNITY COUNCIL, the body which draws the fraternities together for the discussion and solution of mutual problems, put into effect this year several policies which will stand as landmarks in Greek life on the Rutgers campus. The house presidents adopted an aggressive fourteen-point program. The plan included such projects as a reconstructed Prep School Weekend, a major dance weekend for the fraternities, modification of Initiation Week activity, better regulation of fraternal study conditions, and an attitude of closer cooperation with the Administration.

The Interfraternity Council of presidents last year replaced the old structure. The old Council, it was argued, was a hollow honor and no insurance for interest in fraternal problems. The present Council is a closely knit group of nineteen presidents from the nineteen fraternity houses on campus. They are working together for the mutual benefit of all the houses.

Because of the shortened school year the Council found it advisable to drop the annual Interfraternity Banquet. The Council went ahead with its plans for the Interfraternity Ball, at which time the scholastic trophies were awarded to the deserving houses. The Ball was termed a big success by the whole student body and it helped to cement the fraternities closer together.

The Council was very active in promoting the success of the Red Cross Blood Bank that came here to Rutgers. The Council also underwrote Queen's Players production of "Winterset" which proved to be a big success.

Bob Haber, Sigma Alpha Mu, served as president until he was succeeded by Don White, Beta Theta Pi. Edwin Arnolt, Delta Phi, was elected secretary-treasurer.

INTERFRATERNITY COUNCIL, Second Semester: *first row*—Perrapato, Suter, Heckman, Keeler, Haber, Mohr, Gebler, White; *second row*—Mr. Johnston, Slobodien, R. King, H. C. Young, Everett, Pangburn, W. Evan Smith, Arnolt, F. W. Ritchie, W. M. Gall.

Delta Phi

When the present freshmen become seniors, EPSILON, the first fraternity on the Rutgers campus, will celebrate its Centennial anniversary. Founded in 1845, this chapter has had a long and momentous history, and has held in its folds many subsequently famous Rutgers men. In the old days it might be found to be housed in a different place every year, but for the past decade the chapter has been settled in the 17 Union St. house which was formerly owned by both John T. Hill, president of the Ninth National Bank of New York and later James W. Johnson, president of Johnson and Johnson Co.

The strong alumni group of Epsilon was entertained by an alumni banquet held on January 10, 1942, at which Dr. William H. S. Demarest, former president of the University, was the main speaker; and by the initiation banquet in February. The practice of having teas after all of the home football games, which is looked forward to by townspeople and alumni alike, was again continued. A father and son dinner for the freshmen was held last spring followed by an inter-house softball game.

Members of the chapter were active in varsity sports, Philosophian, Crown and Scroll, *The Targum*, Band, debating, *Scarlet Letter*, intramural and managerial extracurricular activities.

Epsilon's pride and joy was its basketball team which played a number of teams outside of school during the winter besides competing in interfraternity competition. A few weeks after its organization, through alumni and undergraduate support, uniforms were bought for the team with the blue and white Delta Phi colors.

IN THE GROUP: *first row*—Williams, Arnolt, Steger, Elder; *second row*—Beck, Moore, Amos, Wiggin, Fralley, Thayer; *third row*—Ferguson, McCutcheon, Johnson, Tichenor, Farfel, Peden, Ford, Plangere, Nichols, Reed, *fourth row*—Cowenhover, Craig, Andres, Lermann, Van Nuis, Giuseffi, Eppler, Miller.

Zeta Psi

The leading social event of the year for Delta of ZETA PSI was a Father and Son Banquet during the first semester. The annual faculty smoker and the Pink Tea for mothers of the undergraduates rounded out the social calendar. All the deans and professors that the members have in classes are invited to the faculty smoker.

Members of the chapter were active in Student Council, Cap and Skull, Crown and Scroll, *Targum*, varsity sports, song leading, Band, Glee Club, debating, and managerial extracurriculars.

Delta is the second oldest fraternity on the Rutgers campus. Because of anti-fraternity feeling on the part of the faculty, it did not come forth until 1848, a year after it had been organized. Prior to this time, a signal to the members told them in which garret or back room the meeting would be held. At this time it was necessary for the members to be initiated at the beginning of the meeting and then, at the end of the meeting, resign in order to escape persecution as a member of the fraternity.

After years of holding meetings in haylofts and back rooms, the chapter bought its first house, on the present site, in 1889. The present structure replaced it in 1925.

The chapter is known in Zeta Psi as "Mother of Chapters" because no less than six others of the fraternity owe their existence directly or indirectly to the zeal of Delta.

The president of the fraternity for the 1941–42 season was Robert C. King.

¶ IN THE GROUP: *first row*—Mortensen, D. Gross, Piffath, Lamb, J. Powell, Kelley, Rumsey, F. A. Johnson, Hassen; *second row*—Neumann, Hewitt, Gibson, W. Hutchinson, R. Williams, Harding, Macfarlan, Conover, R. White, Travisano, Forbes; *third row*—F. Flynn, Gillam, Hurlburt, Lunger, J. A. Fowler, King, Behn, Lloyd, Hadley, Evert, Vaughan, Poston. *Others*—D. Jones, Royer.

Delta Upsilon

The Rutgers chapter of DELTA UPSILON was founded in 1858 as the first anti-secret society on the campus. The motto, "Justice our foundation," has been the guiding spirit of the fraternity since 1834 when Delta Upsilon was established at Williams College. There are sixty-one chapters throughout the United States and Canada, making D. U. one of the two international fraternities on the campus.

Delta Upsilon again finished an extremely active year with many highlights in social activities including Thanksgiving, Christmas, and Alumni banquets, three house parties, and the annual Parents' Day Tea.

If one were to visit any activity on the campus, he would be sure to meet Delta U's taking part in conspicuous roles. He would find one or more brothers on the Student Council, *The Scarlet Letter* staff, the Cap and Skull, or the Crown and Scroll. There are seven juniors and four seniors that are officers in the important Military Science Department. Two are Scabbard and Blade members.

In the athletic life of the campus, there were two D. U's on both the varsity and the lightweight football teams. Also starring on the soccer field, the basketball court, the cross-country course, in the pool, on the lacrosse field, on the golf course, and behind an oar at the Poughkeepsie Regatta, were men of D. U. that the sport fans could not have helped but admire. The officers for the past year were: Frank Patton, president; Walter Gall, vice-president; Richard Hale, secretary, and Malcolm Schweiker, rushing chairman.

¶ IN THE GROUP: *first row*—Archibald, Chandler, Reiss, W. Gall, D. Krauch, Patten, Maguire, Boggs, Scammell, H. Eckel, McCabe, Hale, *second row* Whitestone, S. Shepard, Luz, H. Wilcox, Schweiker, Devan, Oberreit, Gale, Fardelmann, Whitehead, R. Adams, Daley; *third row*—Burger, McGrath, Axtell, R. Jones, Thornton, Folensbee, Omley, Wheeler, Rowe, Hansen, G. Schmidt. *Others*—Harrison, Haag, Kochler, Theile, Nissley, Paulus, Keilt, Hoey, W. Barlow.

Delta Kappa Epsilon

An unusually active Phi Chi of DELTA KAPPA EPSILON became evident this year as both brothers and pledges found a new interest in campus activities and fought for positions in intramural and intercollegiate sports and publications, and worked for places in honor societies and in student government. As a result, the house is now well represented in Interfraternity Council, Student Council, Cap and Skull, Crown and Scroll, Scarlet Key, Glee Club, Band, *Targum*, the Rutgers Christian Association, five intercollegiate sports, and managerships in varsity baseball, varsity crew and intramurals, as well as several underclass managerships.

Cooperation has made the Deke social year a success. In addition to the annual initiation banquet held in February and the tea on Parents' Day, the chapter sent representatives to the annual Delta Kappa Epsilon Convention held this year in New Orleans, and attended *en masse* the Phi Chi Banquet held in New York City in the Yale Club, which is also the Delta Kappa Epsilon Club of New York. The house-parties held on major dance weekends all proved successful and held an important place on the social calendar.

An unusually large number of brothers were headed by Lyman C. Avery, president and treasurer; Volkert Mason, vice-president; John C. Weisgerber, secretary; John T. Everett, initiation chairman; Clifford C. Twaits, social chairman; and Robert G. Meyer, corresponding secretary. Its present quarters, at 78 College Avenue, were built in 1929, after the chapter had grown too large for its former house.

IN THE GROUP: *first row*—Meyer, Feagles, Meierdierck, V. Mason, Avery, B. Gray, Twaits, Waterman, Wright, Everett, Sonn; *second row*—Kent, Lawrence, Leahy, B. Lane, Bernstorf, Glock, Ader, C. Lane, Reihman, Ringen, Saunders, Hearne, Ward, Gillette, Hayward, Hatch, Cassedy; *third row*—Shinn, Weisgerber, Powell, Malinka, Bogert, J. Magel, Vandermade, Kodet, D. Magel, W. Ringen, Frambes, Fisk, Reid.

Chi Phi

The Delta Chapter of Chi Phi was established on the Rutgers campus on March 19, 1867, when seven undergraduates were granted a charter, and has maintained an unbroken existence for seventy-one years.

With thirty-two active brothers at the present time, the roll contains four hundred eight-five members. Seventy-seven members of the chapter were in the World War, nine of whom had seen military service prior to 1917.

"Pinehurst," the present chapter house of the Delta Chapter, was built in 1910, having the distinction of being the first house on the Rutgers campus erected for the sole purpose of fraternity use, and was rebuilt and modernized a few years ago. The ivy which remains on the walls was imported from the chapter at the University of Edinburgh, Scotland, established by the brothers of the southern order of Chi Phi, who were students at that institution.

Of the four original chapters in the Hobart Order of Chi Phi, the Delta Chapter is the only one which has survived. The chapter celebrated its two thousandth meeting in 1934.

Although the fraternity does not lean toward any particular type of student, the members are active in all campus activities; athletic, social, and others.

The office of president of the chapter was filled by Harry Young. The other officers and their positions were as follows: Harland Kinzley, vice-president; Robert Couse, secretary, and Howard Marr, treasurer.

¶ IN THE GROUP: *first row*—J Hart, W. Schmitt, Suhrbier, Carr, H. C. Young, Kinzley, Zurla, Rushmore, Marr, Albisetti, *second row*—R. Davey, Protosow, Couse, Jenkins, Hannan, Sexton, Grahn, Perrine, Wirth, *third row*—S. Foster, H. N. Young, S. Thompson, Beck, Newman, J. Ackermann, Hoffmann, Honywill. *Others*—Shultise, Dunton, Weinberg, Code.

Beta Theta Pi

Beta Theta Pi is one of the oldest, largest, and most highly esteemed of American fraternities. Since, in the early history of fraternities, other fraternities were purely sectional in character, Beta Theta Pi has the distinction of being the first truly national fraternity. Another important first is the national monthly magazine of the fraternity which was a pioneer among magazines published by fraternities. Today, Beta Theta Pi ranks among the first in scholarship, activities, and membership.

The Rutgers chapter, Beta Gamma, has been on campus since 1879. Previously, it was the Alpha of Alpha Sigma Chi which was a strong, small fraternity of seven chapters here on the eastern seaboard. As the Alpha chapter, it was formed on a nucleus of three men and was built up to such strength that it was granted a charter in a growing national fraternity under the name of that fraternity when Alpha Sigma Chi merged with Beta Theta Pi in 1879. Since that day this union has come to be known in fraternity circles as the Alpha Sigma Chi Alliance.

Beta Gamma has always striven to maintain its standing in the national fraternity on the highest level possible and with that end in view and the desire to serve the university, the undergraduate members of the chapter have always been found in the athletics and other activites of the college.

Officers for the year were: Kenneth W. MacDonald, Jr., president; Donald K. White, vice-president; Leonard C. Briggs, secretary, and Peter Cartmell, treasurer.

IN THE GROUP: *first row*—Goodman, E. Young, R. Taylor, D. White, L. Briggs, MacDonald, Cartmell, Goodwin, Zukaukus, Prout, R. Hartung, Bowne; *second row*—Hess, Conners, A. L. Walker, Lippincott, Murray, R. Watson, Nedvins, E. Marks, Meredith; *third row*—DePan, Irving, H. Hartung, Heritage, Sipp, MacNeill, W. Ritchie, Buswell, Gruninger, Armstrong, G. Williams, Evans, Tracy. *Others*—W. Hale, Irwin, McClees, Schroeder, Whinfrey.

Chi Psi

The history of Chi Psi on Rutgers campus dates back to the year 1879. It was in that year that the fourteen members of a local literary society called Alpha Theta became the first members of Alpha Rho, the Rutgers chapter of Chi Psi. It is interesting to note that of these original fourteen, seven were members of Phi Beta Kappa.

The first lodge of the chapter was located at the present address and the chapter has remained there to this day because that location proved ideal for a fraternity house. While Chi Psi was the seventh fraternity to have a chapter on Rutgers campus, it had the unique distinction of owning its own house.

It was during the war that Alpha Rho suffered its first serious setback, when the strength of the chapter was sapped by loss of men to the services. At the conclusion of the war, the chapter was again brought up to its previous excellent state. This was due to the hard work of the undergraduate members and the interest and support accorded by the alumni.

In 1923 the *Rhoboat* first went to press and from that date on has enjoyed an uninterrupted publication and a marked success.

Ground was broken for a new lodge in 1924, and in the two years following the work of collecting funds and building the new house was consummated. In the spring of 1926 the undergraduate body moved into the present lodge.

The officers for the year were: W. Evan Smith, president; Carl N. Shuster, Jr., vice-president; David W. Trimble, secretary, and Raymond A. Finley, Jr., treasurer.

¶ IN THE GROUP: *first row* Reilly, W. Pearce, Bayne, Dorsch, Megargee, W. E. Smith, Shuster, Allison, Day, Meaney, Pfeil, *second row*—Britton, Trimble, Gross, J. L. Thompson, Steinberg, Finley, M. Morris, Whitescarver, Wagner, Hopkins, Carlaw, Board, Drummond, R. D. Bradley; *third row* Godfrey, Bartels, Krafft, Gillman, Gremmel, Sutton, Biehler, Neeme, Bevier, Goodchild, R. Snyder, D. Snyder, Ale. *Others*—W. Klein, Klosky, R. E. Bradley.

Pi Kappa Alpha

Alpha Psi Chapter of Pi Kappa Alpha, which has been at Rutgers for twenty-eight years, began this year with a strong objective social, scholastic, and sports program. The result has been an increased interest in University affairs that has spoken well for the house.

Socially, the year was marked by a Christmas Banquet in December and a Founder's Day Banquet in March.

The house was well represented in football, basketball, and lacrosse. Managerial positions were among the honors taken, and some good teams were turned out for intramural activities.

Scholastically, the year was begun with the house average rated as fourth on the campus. The fellows worked hard to maintain the good marks. But this did not curtail their extracurricular activities. Included among them were Scarlet Key, Interfraternity Council, Class officers and chairman positions, Glee Club, Band, *Anthologist,* Spanish Club, *Scarlet Letter* staff, and Floriculture Club.

The national organization of Pi Kappa Alpha dates back almost to Civil War days. The first chapter was founded at the University of Virginia in 1869. Additions down through the years have increased the chapter strength to eighty units. The greater number of these units are located in the South.

The officers for the Alpha Psi chapter during 1941–42 were: W. S. Lowry, president; Edwin Price, vice-president; William Tremmel, secretary, and Donald Van Nest, treasurer.

IN THE GROUP: *first row*—Byram, G. W. Thomas, Schaffle, Prince, Carson, Walklet, Tremmel; *second row* Wiedman, Leaming, Coon; *third row*—Grant, Caruso, Geller, Van Nest, *fourth row*—Wood, Morrison, McHugh, C. Quade, J. Quade; *fifth row*—Gonzalez, Ward, Ritchie, Davey, Beran, Billington.

Lambda Chi Alpha

The LAMBDA CHI ALPHA fraternity was founded in 1909 at Boston University. Phi Zeta, at Rutgers, the ninth chapter to be installed, was presented with its charter in 1913. The expansion of LAMBDA CHI ALPHA was steady, with the most important single event the union with Theta Kappa Nu, the largest merger in fraternity history, in 1939. This union made Lambda Chi Alpha the third largest fraternity in the world, having 107 chapters in the United States and Canada.

The membership facilities of Phi Zeta have increased steadily as the chapter has grown older. During the first year after its installation it occupied a suite in Winants Hall. In September, 1914, the chapter moved into a house at 41 Mine Street, which had been leased for the year. In 1916, feeling the need for a larger house, Phi Zeta moved to 502 George Street, the building now called the Engineering Annex. Five years later the desire for a finer, more permanent home led Phi Zeta to purchase the house it now occupies. In 1927 increased membership necessitated the enlarging of the house to its present size. Lambda Chi Alpha was the first national fraternity to introduce a progressive pledge system into its initiation ritual. The chapter library was cited by the national fraternity as one of the best in the country last year.

Officers for the past year include: Robert F. Patrick, president; William Heckman, vice-president; Lynd Tillyer, secretary; Charles Martin, treasurer; Vincent Zanetti, steward, and Benjamin Hart, house manager.

¶ IN THE GROUP: *first row*—Martin, Prugh, Storer, Patrick, Schmidt, Tillyer, Williams, *second row*—Franklin, Weidmann, Apgar, Zappo, Wolfram, Bryan, dePercin; *third row*—Willenbrock, Wordelman, McKenzie, Conklin, Maxwell, *fourth row*—Zanetti, Seaman, Gedettis, Gibson, Smock, *fifth row*—Bennett, Schermerhorn, Ratti, Conley, Simcox; *sixth row*—Jackson, Lindsay, Pingitore, Loshe, Symons, Fuller, Hart, Luhmann, Heckman, Gannon, Kirick, Whyte, Simpson.

Phi Epsilon Pi

A rise in its athletic stock was the number one achievement of Lambda Chapter during the scholastic year 1940–41, PHI EP dominance of the tennis team was maintained as Captain Charley Pine, along with Shep Sewitch and Red Slobodien, represented the Scarlet in intercollegiate competition. Sewitch and Pledge Norm Ginsburg also made up two-fifths of the Rutgers basketball team. Morty Weiss and Bob Strauss were members of the powerful swimming squad, and Norm Levy carned his "R" running around the park for Coach Wefers.

No one will ever forget this year's intramural football final as we missed winning the championship by one touchdown and ended up in third place. Harry Mackler and freshman Bob Goldberger made the first all-intramural team for their play in this tournament.

On the campus our four-year stranglehold on the scholarship cup was loosened by the Tau Delts who won out over us by 7/1000ths of a point. Norm Levy joined Ed Levitsky in Phi Beta Kappa; these two also served as secretary and president respectively of Beta Iota Lambda, honorary biological society. Al Reitman, of "Reit Angle" fame, had his finger in many campus pies as sports editor of *The Targum*.

We lost eleven seniors by graduation; three of these were taken by the army, four by graduate schools. The pledging of nine men so far this year has almost made up this deficit in man-power.

Lambda's officers from January '41 to January '42 were: superior, Walter Reichman; vice-superior, Ted Sands; treasurer, Howard Slobodien, and secretary, Robert Tulin.

IN THE GROUP: *first row*—Gutter, Reichman, Roth, Sykes; *second row* Sands, Hausner, Ginsberg, Slobodien, LeBow, Tulin, Strauss, *third row*—Spitz, Reitman, Posner, Holtzberg, Berlin, Sewitch, *fourth row*—Lowenkoff, Pressman, Woodrow, Weitzen, Greenberg, Goldberger, Ringle; *fifth row*—Miller, Grossman, Muller, Mackler, Greenspan, Winter.

Phi Gamma Delta

The Nu Beta Chapter of PHI GAMMA DELTA was organized first as a local fraternity, Rho Sigma Zeta, in Winants Hall on October 11, 1909, under the leadership of two undergraduates, Martin and Glanders. The following year, The Scarlet Club, the father of Nu Beta, was formed, and established its home on the corner of George Street and Seminary Place, where Doctor Demarest now resides. The Club was formally admitted into the national fraternity in the year 1917. Phi Gamma Delta is unique in that it possesses one of the two existing fraternity clubhouses in the nation, and is one of the top three fraternities in the national and international rankings.

The officers of Nu Beta for the past year were John Huntley, president; Robert Bleecker, treasurer; Robert Ainslie, recording secretary; Robert Christensen, corresponding secretary; and John Williams, historian. All the officers were in the class of 1942.

The Fiji chapter was represented on Student Council, Cap and Skull, and Interfraternity Council. Among its members were the presidents of Scabbard and Blade, Queen's Players, Tau Kappa Alpha, and A. S. M. E.; senior basketball manager, secretary-treasurer of the senior class, production manager of Queen's Players, managing editor of *Scarlet Letter*, co-captain of the swimming team, and editor-in-chief of *Anthologist*. Fijis served on the Glee Club, Band, *Targum*, crew, basketball, lacrosse, track and cross-country teams, and the cheer-leading squad.

The entire chapter set a precedent this year by voluntarily cooperating with the New Brunswick Air Raid Wardens' Society in the capacity of spotters on the 12–4 a.m. shift.

¶ IN THE GROUP: *first row*—Bunnell, Rounds, Johnson, Bischoff, Millard, Christensen, Bleecker, Huntley, Williams, Ainslie, Thews, Flitcraft, Pierce, Zubko; *second row*—Sengstack, Colville, Adda, Huber, Kays, Bauer, Ziegler, Pangburn, Jackson, Piatt, Brown, Herzog, Berger, K. Fish, Nash, *third row*—Miller, Aubry, Evans, Zigler, Almond, Kreger, Hanold, Carricker, Decker, Volaro, Denton, Briggs, Shaw. *Others* Griswold, Wells, Feil, Tiger, Taafe, Strang, Baldwin, Gardner, Costello, Hale, and McPherson.

Kappa Sigma

Dean Metzger, Coach Reilly, and Dr. Greenwood were guest speakers at our annual Father and Son Banquet held in November. Several highly successful house parties, card parties, and other activities have taken place in the interim, giving to the chapter its best social season in many years.

The house has been mostly redecorated through the personal interest of the brothers, and by the fostering of that interest in the pledges to a warm degree. We are thus celebrating one of the most valuable periods this chapter has had in its 24 years at Rutgers.

KAPPA SIGMA was founded at the University of Virginia in 1869 by five friends who wished to be members of the same fraternity. In the following year, one of the brothers traveled to Europe, and there met several of the remaining members of a mutual protective society that had been founded at the University of Balogna in 1540. The secrets of this older group were imparted to Kappa Sigma by the few members still living, in order to perpetuate the ancient treasured ritual. By a devious path, then, Kappa Sigma claims a history of 542 years! The chapter at Rutgers is an outgrowth of the Queens Club, and obtained its charter in 1918, initiating fifty brothers in its first induction.

The officers for this scholastic year included: C. Thomas Perrapato who turned in an excellent job as president; Vinnie Utz, vice-president; in the job of master of ceremonies was Louis Lasagna; Will Powers took care of the books in his capacity as treasurer; and Dave Bevan was the secretary.

℄ IN THE GROUP: *first row*—Doerrer, R. W. Brown, O. Hill, Utz, Bogle, Perrapato, Rork, Doyle, Vosburgh, Dempsey; *second row*—R. Bennett, Lasagna, Baser, R. Nelson, Haury, Powers, M. Hill, McCanna, Young, Cereghino; *third row*—Argyris, Frahm, R. Hill, Jacobsen, Barry, Vande Weghe, G. H. Williams, Begerow, Gantner; *fourth row*—Rissler, Adshead.

Raritan Club

The year 1942 marks the celebration of the twentieth birthday anniversary of the RARITAN CLUB. United it stands as the only local fraternity remaining on campus, three others in recent years having merged with national fraternities. The organization was founded in 1922 as a result of a deep bond of friendship of a group living in the dormitories. One night when a group of fraternity men attempted to haze the dorm residents, the dorm boys cooperated in driving them away. Drawing their ties of friendship closer, they rented a house and established living quarters. These undergraduates struggled for a university charter which was eventually granted in 1926. The Raritan Club is now located at 590 George Street.

Scholastically, the Raritan Club has improved its standing one hundred per cent, moving from fourteenth position to number seven among the fraternities in 1941. At present it is making a very determined bid to be included in the select five.

Always active in extracurricular activities, the Raritan Club during the past college year has been well represented on the varsity basketball, lacrosse, baseball, light-weight football, and debating teams. Included among the notable achievements by members of which the Raritan Club can justly be proud are the president of the senior class, representation in Student Council, Crown and Scroll, Cap and Skull, and Scarlet Key.

Serving as president during the year was Ronald Jarvis. Bill Ramel was vice-president; Harold Watson, secretary; Ed Schmierer, treasurer, and Jim Kenny, Steward.

IN THE GROUP. *first row*—Kenny, J. Crane, Jarvis, Cary, Ramel; *second row*—Gerber, Dalrymple, Ambos, Conte, Cyphers; *third row*—Messenger, Schmierer, E. Berger; *fourth row*—Thompson, Dale, Zanzalari; *fifth row*—Weiner, Brightenback, W. Cranstoun, *sixth row*—H. Watson, Brinley; *seventh row*—Brady, Durstewitz, Stoddard, Coda, K. Gilbert, B. Rieger, Kenny, Gerold. *Others*—Bodnew, Hickok, Kincaid, Treuting.

Sigma Alpha Mu

This year Sigma Delta of SIGMA ALPHA MU was again well represented in all phases of campus life. Besides having eight of its members in Honor School, SAM participated in almost all forms of athletics and extracurricular activities.

In addition to some of the outstanding mainstays of the swimming team, the fraternity contributed men to the football, track, boxing and tennis squads. Moreover, the managerial staffs of the track, cross-country, 150-pound football, basketball, soccer, swimming, and baseball teams were well sprinkled with chapter members from lowly freshmen to mighty seniors.

Many Sigma Deltans won recognition in extracurricular activities as well. *Targum* and *Scarlet Letter* staffs included members, and such honor societies as Cap and Skull, Crown and Scroll, Tau Kappa Alpha, Scabbard and Blade, and Delta Phi Alpha, had members of SAM in their number. Furthermore, debating and dance committees had their share of Sammies, and a member won the Alliance-Française Prize for the second consecutive year.

The most outstanding of Sigma Delta's national fraternity projects during the year was its sponsoring of a conclave of the eastern chapters of Sigma Alpha Mu in celebration of the twentieth anniversary of the local chapter's founding when it became the 17th of the fraternity's 36 chapters in the United States and Canada.

The house officers this year were prior, Robert B. Haber '42; exchequer, Stanley R. Klion '42; recorder, Leonard Goldblatt '42, and historian, Elliot Rubin '42.

IN THE GROUP: *first row*—L. Marks, Leff, Jacoby, Pape, Rubin, Schenkel, Goldblatt, Haber, Klion, H. B. Gross, Richmond, E. Feldman, Tzeses, Silverman; *second row* M. A. Schwartz, Bartner, Gast, Harr, E. Simon, Share, Truum, Cohon, Eislin, W. Abrams, J. Levin, Siegel, Schwarzman, *third row*—Shaff, S. Cohn, Meltzer, A. Kramer, Smerling, I. Kramer, M. Schwartz, Gaffin, Seligman, Greenblatt, Rosenstein. *Others*—Davidson, Dince, Grunt, Susswein.

Tau Kappa Epsilon

Tau Kappa Epsilon has, since its coming on campus, ranked in the upper quarter of all fraternities in scholastic average. This past year has been no exception to the established precedent. This follows from the principles of the national fraternity itself, which was founded as the Knights of Classic Lore, primarily a literary fraternity.

The University's chapter began as a local fraternity, Phi Sigma Tau, and was not inducted as the Alpha Eta Chapter of Tau Kappa Epsilon until 1930. The present chapter advisor is one of the charter members at whose instigation Alpha Eta was founded. After a varied existence in a number of houses, the members moved to larger quarters at 192 College Avenue, in 1938.

Alpha Eta is proud, as are its members, to belong to Teke. It is one of the outstanding national fraternities. It is proud, also, to point out that Tau Kappa Epsilon was the first fraternity to establish a Grand Council governmental system which has been copied by many other fraternities since its adoption. The local chapter was the first on the Rutgers campus to abolish all forms of hazing and Hell Week activity.

In sports the Tekes were represented in varsity crew by Bill Keeler and Hugh Muller, who is manager. Norm Miller participated in soccer and Emil Potzer played on the football team.

Officers for the past year were William M. Keeler, president; Paul J. Krenicky, vice-president; Ralph F. Sellers, secretary; Hugh E. Muller, treasurer, and Robert H. Zeliff, pledge master.

¶ In the group: *first row*—Blics, Krenicky, N. Miller, Keeler, Muller, Lamond, Zeliff; *second row*—Czenowski, Blew, Sellers, A. Romano, Gossiaux, Springer, Chewey.

Alpha Kappa Pi

Many improvements have been made this year at Rho chapter of Alpha Kappa Pi. In addition to painting and wall-papering, a new room has been constructed on the third floor. A full house of members and pledges made this project necessary.

The highlight of Rho's social calendar was the second annual Winter Formal, which, together with the customary house-parties, contributed to an eventful year. The Mothers' and Fathers' Clubs have also been active. The chapter was well represented at the National Interfraternity Banquet in New York City, five members attending.

Extracurricular activities represented at Rho of Alpha Kappa Pi include football, cross-country, wrestling, swimming, lacrosse, track, and tennis, as well as *Scarlet Letter*, *Anthologist*, debating, and Scarlet Key. Scholastically, a decided rise in the average grades of the chapter has been due largely to the industry of the newly-added members.

Its officers for the year included Kenneth A. Gebler, president; George Anderson, vice-president; Alexander Miller, Jr., secretary; Kenneth M. Ross, treasurer; William S. Aaroe, chaplain; Robert A. Mengel, marshal; C. Randolph Cramer, sentinel, and Raymond H. Wheaton, historian.

Rho was founded in 1928 as Phi Lambda Sigma, a local fraternity at Rutgers. In the summer of the next year, the Collegiate Brotherhood voted to be affiliated with and absorbed into Phi Lambda Sigma for membership in Alpha Kappa Pi. The members of this unit were inducted into the national fraternity in March of 1931.

¶ In the group: *first row*—Strassburger, Race, A. Miller, A. Gebler, G. Anderson, K. Ross, C. Cramer, Wheaton; *second row*—Wieboldt, Snethen, Robinson, Dingle, Koft, L. Blair, Davenport, Olaskiewicz, Mengel; *third row*—Kamprath, Deschu, Sidar, Tonking, Tormey, Bockoven, Burr, Lenhart, Sherwood.

Theta Chi

A real old-fashioned husking bee was the theme of the highly successful fall house party of Beta Delta of Theta Chi. Corn, hay, pumpkins, and other such rural institutions gave the gala affair a genuine "hick" atmosphere. The square dances were a highlight of the evening's fun.

The Pledge Banquet, held in February, was the happy occasion of the induction of one of the largest freshman classes in years. The Installation Banquet was held, with all pomp and ceremony, in April. A bowling match and softball game between the alumni and undergraduates highlighted the Alumni Party early in the spring. The competition was followed by a dinner and house party in the evening. A record attendance was realized at the annual Parents' Day celebration on campus.

Originally founded in 1917, as Theta Zeta, a local fraternity, the organization was received into the national fraternity in 1932 as the Beta Delta chapter. The Rutgers chapter is the 50th of the 53 active chapters.

Beta Delta is proud of the fact that Captain Ernest E. McMahon, a graduate of this chapter, class of '30, was appointed assistant to President Clothier.

Officers for the year were: Robert C. Olsen, president; William H. Suter, vice-president; William Miller, treasurer; Numa Balliet, steward; Robert S. Wilcox, social chairman; John W. Brown, Jr., historian, and James R. Thompson, librarian.

℄ IN THE GROUP: *first row* Biondi, W. Miller, W. Suter, Olsen, Balliet, R. Ratti, *second row*—Bickle, J. Thompson, J. Brown, Brookfield, Meskers, R. Wilcox, H. Decker; *third row*—Sheard, Rosengren, Lipartito, Kulp, Watson; *fourth row*—Ebe, Osinski, Gould, D. Brown; *fifth row*—W. Watson, Versaggi, Greenwood, Gould, LoGuercio, Boles.

Tau Delta Phi

Tau Gamma of TAU DELTA PHI has made progress in both scholarship and athletics during the past year. The Scholarship Cup, presented by Interfraternity Council to the house with the highest academic standing, was won by Tau Gamma. On the fraternity roster last year were two members of Phi Beta Kappa.

Tau Gamma men also participated in athletic activities, with Gil Greenberg and Hal Rosenberg, both sophomores, winning letters in varsity football, and Irv Goldsmith earning his "R" in 150-pound football. "Rusty" Rudolf was again captain and star performer of the fencing team. Other sports in which Tau Gammans took part were track, cross-country, wrestling, basketball, soccer and lacrosse.

The fraternity was founded on the Rutgers campus in 1921, when a group of students with the same interests and aims formed the Evergreen Club. This small group grew in strength and importance and by 1928 qualified as a chapter of the national fraternity, Omicron Alpha Tau. Known as the Eta chapter, the fraternity matched its growth with that of the national group until, in 1934, the entire fraternity of twenty-one chapters merged with Tau Delta Phi. Since that time the Rutgers chapter has been known as Tau Gamma of Tau Delta Phi.

The largest freshman class in years was initiated in the formal ceremony in February. The new house, purchased in 1939, has been improved and decorated, and with the help of a strong alumni group, Tau Gamma is looking forward to a successful year.

IN THE GROUP: *first row*–Rudolf, J. Weiss, Goldsmith, Deutsch; *second row*–Labiner, Ferster, Striner, Mann, Wasserman, Lowenstein, Turetsky, *third row*–Millet, Scharf, Roth, A. L. Greenberg, G. Rosenberg, Raskin; *fourth row*–Schiff, Hindes, Sachs, Goldfarb, Tober, Mohr, S. Gray, S. Frisch, Halpern.

Alpha Chi Rho

The Beta Phi chapter of ALPHA CHI RHO for the third consecutive year had one of its brothers elected to the Student Council presidency to continue a dynasty founded in 1938. This topped a list of extracurricular activities this year in which Alpha Chi Rho had representatives on both the varsity and light-weight football teams, and regulars on the baseball, soccer, lacrosse, and other sport teams. Activities also included membership in numerous University honor societies.

The birth of Beta Phi chapter occurred in a student dormitory, where the majority of Rutgers fraternities were first conceived. In this case, a group of students of Hertzog Hall decided to formally consolidate their common interests, and founded the local fraternity of Alpha Sigma Rho. The local brotherhood expanded, and in 1934 decided to attach to a national fraternity. Members voted to petition Alpha Chi Rho, founded at Trinity College in 1895. Possessing many ideals closely allied to those of the local group, Alpha Chi Rho accepted the petition in 1937, and the Beta Phi chapter came into being.

In the spring of 1938, Beta Phi's resources were increased. The Ivy Lodge, another local fraternity, was initiated into the national organization, and merged with the Rutgers chapter. This year the chapter moved to its new location at 81 Easton Avenue.

Officers for the year were: J. Domer Zerbe, president; Charles Petrie, vice-president; Werner Kuhn, secretary; Weston L. Dangler, treasurer, and Charles Sloca, historian.

¶ IN THE GROUP: *first row*–Sloca, G. Mills, Zerbe, Beckwith, Dangler, Detrick; *second row*–G. Young, Wagi, Boice, Hyde, Voorhees, Drout; *third row*–Brislawn, Des Jardins, Makoski; *fourth row*–Kasperski, Kuhn, R. Schmidt; *fifth row*–Ricciardi, Kempson. *Others*–Colfax, Coursen, J. Irvin, Maggio.

Alumni Interfraternity Council

Existent three and one-half years, the ALUMNI INTERFRATERNITY COUNCIL acts as the foster father to the nineteen fraternities on campus. The Council is composed of the alumni advisors of the various houses. This includes both the financial and student advisors.

The Council meets at irregular periods, with the discussion of mutual fraternity problems as its main purpose. Such a group fills a need that has long existed, that is, the attainment of better conditions for fraternities and an improvement of their relations with the Administration.

The Alumni Interfraternity Council is not a police officer. It suggests, advises, works for greater efficiency in the Greek Letter houses, but it does not employ forceful methods. This year the efforts of the group have centered around the fraternity tax appeal. Under the leadership of the Council the fraternities have been working together in an effort to clarify their position with respect to taxes. The Council has also discussed fraternity rushing problems and as a result has made some very valuable suggestions to the fraternities as a whole. The group has also considered the possibility of cooperative food buying for the Greek houses.

The Council was organized under the leadership of Morris M. Davidson, Delta Phi, and J. Harold Johnston, Pi Kappa Alpha. Under their able guidance it has taken rapid strides ahead.

This year Dr. R. Greenwood, Beta Theta Pi, served as president and Edward Lipman, Phi Gamma Delta, served as secretary-treasurer.

The excellent cooperation which the Alumni Interfraternity Council has received from the Administration and the fraternities leads to the expectation that its program of service will continue.

CHAPTER SEVEN

Burning the Candle . . .

PARALLELING Rutgers academic development through the years there has been an increasing number of extracurricular activities to satisfy the student's desire to broaden the scope of his college career. Earliest of these activities were: the Philoclean and Peithessophian Societies, of a literary nature; debating and glee club, long voted the organizations most beneficial to the University and the student body as a whole; *The Targum*, now a semi-weekly newspaper reporting student activities and opinions; and *The Scarlet Letter*, which has been published annually for the past seventy-two years.

Infants, born and developed over the last quarter of a century, are the various language clubs; departmental and technical clubs which further the students' interests along their line of study; social groups, established with the intention of furthering comradeship among the student body; and, more recently, Queen's Players, whose interests lie in the direction and production of works of dramatic art. All of which present the students with an unlimited field for extracurricular activity.

¶ REPRESENTATIVE GROUP OF EXTRACURRICULAR KEYS AND BADGES: Band Service Award, Student Council, Gold "R", Rowing Club, Deutscher Verein, Band McKinney Award for merit; American Society of Mechanical Engineers, Society of American Military Engineers, Military Science Rifle Team Award, Military Science Scholarship Award, Queen's Players, Glee Club; Plattsburg Medal for Rifle Marksmanship, Expert Medals for marksmanship with the various weapons, Plattsburg Medal for Pistol Marksmanship.

Student Council

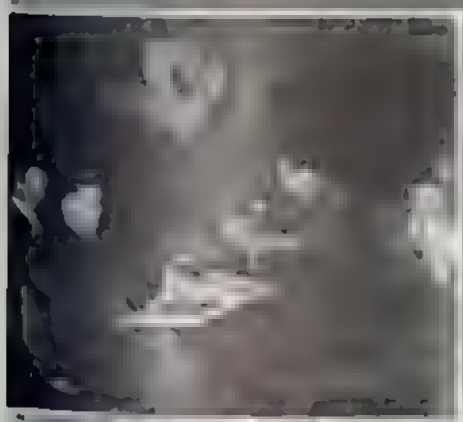
Founded by a resolution of the faculty in 1894, STUDENT COUNCIL is the undergraduate governing body of the University and as such enjoys the highest position of student responsibility on the campus. Members of the Council make up a cross-section of representative student opinion and are at all times aware of student feeling. At the same time, however, the body is cognizant of administrative and faculty desires and plans, and by combining these with student opinion, governs the campus. For Student Council is based on the idea that student action can best be guided by student deliberation.

The Council was particularly active this year as the first war-time group since the United States entered World War II. The day after the attack on Pearl Harbor, Student Council met in special session with President Clothier and Dean Metzger to discuss student morale conditions. The following evening the body convened in a four hour midnight session to draft a resolution to the Board of Trustees recommending policy with regard to student draftees and enlistees.

Later in the year, the Council sponsored the Red Cross Blood Bank drive on the campus and organized a special waste conservation committee to collect old newspapers and other defense-vital materials. Among other defense activities, the body spurred action on air raid precautionary measures for the campus.

Officers were: Ralph Schmidt, '42, president; Ronald Jarvis, Jr., '42, vice-president; W. Evan Smith, '42, secretary, and Lyman Avery, '42, treasurer. Other members were: S. Robert Christensen, '42; Norman Cary, '42; Osborne Day, '42; Russell Janoff, '42; Frank Kilcheski, '42; Frank Patten, '42; Kenneth MacDonald, '43, and Harold Connors, '44.

STUDENT COUNCIL (*above*): *first row*—Janoff, Avery, R. Schmidt, Jarvis, W. Evan Smith; *second row*—Day, Conners, MacDonald, F. Kilcheski, Christensen, Patten.



Glee Club

The Rutgers University GLEE CLUB was permanently organized in 1880, and since that time has taken its place as one of the foremost of the country's glee clubs. Its purpose of cultivating student interest in vocal music is accomplished by numerous concerts, music festivals, and broadcasts. Besides sponsoring Buck Hill Falls weekend, its busy schedule during the past year included singing at the numerous convocations and symposia of the 175th Anniversary Celebration, as well as the annual statewide program of concerts. Professor Howard D. McKinney is director and F. Austin Walter is conductor. Officers for the past year were: George H. Pullan, '42, president; Stephen Dunton, '42, manager; G. Lee Hassert, Jr., '43, and John C. Pfeil, '43, junior managers; R. L. Couse, H. K. Fohrhaltz, D. J. MacNair, R. Weidman, sophomore managers.

Band

The Rutgers University BAND was organized in December, 1921, to serve the college and student body at football games, rallies, R.O.T.C. functions, and Parents' Day. These affairs have been attended this year by a Band attired in new military style uniforms. Other changes have occurred, including the formation of a Rutgers chapter of Kappa Kappa Psi, national honorary band society, the establishment of a constitution and governing body, the Band Council, and the transfer of Band administration from the Military Department to Dr. McKinney's Music Department, with Mr. Wilbert B. Hitchner as Band Director, and Frank Johnson, '44, as his assistant.

A system of chevron awards for the officers and managers commenced in 1942, and three new gold medals for leadership and service were given. The many new instruments being played at these events were purchased by the large gift of money for that purpose given the Band by Mrs. Dora Allen, whose benefaction has at last filled a great need.

Concert Series

Professor Howard D. McKinney's University Concert Series has for twenty-five years been a favorite campus entertainment. This season the Series has not failed to bring again to Rutgers outstanding artists such as Dorothy Maynor, Daniel Saidenberg and his "Little Symphony" Orchestra, the duo-pianists, Fray and Braggiotti, Salvatore Baccalone and company, and the Boston Symphony Orchestra, led by Dr. Koussevitzky.

The first concert featured Dorothy Maynor on October 29. Miss Maynor sang several Schumann and Strauss selections, an aria from Handel's "Julius Caesar," Debussy's "Beau Soir," and the "Cradle Song" of Tschaikovsky. Her beautiful renditions of the negro spirituals were particularly well liked by the large audience, which was, as have been listeners everywhere, "won by her sensitive musicianship, her sympathetic personality, her modesty of demeanor, the glow and delicate sheen of this fresh young voice."

Daniel Saidenberg and his "Little Symphony" next appeared on December 15. Such works for small orchestra as Corelli's "Concerto Grosso Number 8," Mozart's "Ein Klein Nachtmusik," and the "Serenade" of Tschaikovsky were played, while William Primrose featured the program as viola soloist in Handel's "Concerto for Viola" and the "Memorial Music" by Paul Hindemith.

A rather different program attracted many students, faculty members, and townspeople on January 7. Fray and Braggiotti, duo-pianists, presented a program of classical works and original novelty arrangements. Among the former we find Bach's "Organ Toccata in F Major," and the "Moonlight Sonata." Debussy's "Prelude a l'Apres-midi d'un Faun"

¶ Dorothy Maynor, outstanding negro singer, discovered by Dr. Serge Koussevitzky at a recent Berkshire Festival. Salvatore Baccalone, noted basso buffa of the Metropolitan, who appeared with supporting company in several of his famous roles at the fourth concert of the season. Daniel Saidenberg led his "Little Symphony" in a brilliant performance on December 15, while the duo-pianists, Fray and Braggiotti, appeared on January 7. The bottom picture shows the great Boston Symphony Orchestra, perennial concert favorite at Rutgers, with its permanent conductor, Dr. Koussevitzky, inset.

and his "Fetes" represented the Impressionists, while in the lighter vein were the March from "The Love for Three Oranges" of Prokofieff, and novelty arrangements of "The Blue Danube" and Gershwin's "Rhapsody in Blue."

The fourth concert of the Series brought to the campus Salvatore Baccalone, great basso buffa of the Metropolitan Opera Company, and supporting company of five. The noted comedian and singer gave excerpts from four of his most famous operatic roles, from "The Elixir of Love" of Gaetomo Donizetti, Giuseppi Verdi's "Falstaff," "La Fille du Regiment," and Modeste Moussorgsky's "Boris Godounoff." This stirring group of roles reaffirmed to the Rutgers listeners the statement that "In Baccalone, the Metropolitan has made its happiest discovery since Flagstad."

The final program of the twenty-sixth annual Concert Series found the Boston Symphony Orchestra returning to the campus once again by popular demand for another concert. One of the world's outstanding symphonic organizations, probably America's greatest, this unit appeared under the direction of its permanent conductor, Dr. Serge Koussevitzky. The widely varied program consisted of the following: "The Jupiter Symphony," Koechel Number 551, of Mozart, Tschaikovsky's "Romeo and Juliet" Overture, and the new Symphony Number 6 of Dmitri Shostakovitch. As usual, a huge throng gathered to hear the brilliant musical organization.

Extraordinary care has been taken in the selection of the artists for this, our twenty-sixth season. All of the artists have, in addition to their musical qualifications, shown a desire and an ability to "make people happy through music." No better attainment could be demanded of these musicians.

Debating

This year, as in the past, the debating program has proved to be one of the biggest extracurricular attractions on campus. It has been under the direction of Professor Richard C. Reager, professor of public speaking. Approximately seventy-five men, representing all the colleges in the university, took part in the program. The Reager method of debating puts emphasis upon the summarization of points, and insists that debaters depend on speaking ability and knowledge of the subject rather than on "canned" speeches and notes. The use of this method has brought Rutgers many victories in intercollegiate contests. The program for 1941–42 consisted of home and away debates, four senior trips, a radio debate, and off-campus debates before clubs and societies. Most of the debates were non-decision.

Rutgers debaters met those of twenty different colleges in the home and away debates. These were on the topics of government regulation of labor unions and compulsory military service, and were participated in by juniors and sophomores. Some of the debates made use of the Oregon style, which includes an informal cross-examination as well as constructive speeches and a rebuttal. The schools met by Rutgers included Florida, Georgia, Carnegie Tech, Penn State, Cincinnati, Providence, U. S. Naval Academy, Virginia, St. Vincents, Yeshiva, Montclair, Drew, Rochester, Western Reserve, Princeton, St. Johns of Brooklyn, and Ursinus. Women's teams debated were from Georgian Court, Connecticut Women's College, and Ursinus. There were two debates with Rider and Upsala. Rutgers again participated in a radio debate. Two men met Columbia in a debate on the Atlantic Charter question, broadcast over WNYC.

Of the four senior trips, three were to Tau Kappa Alpha conferences in various parts of the country. Groups of four men went to Manchester, Indiana; Columbus, Ohio; and Gettysburg, Pa. Another group went to Rhode Island University at Kingston, Rhode Island, to take part

in a model congress held there. The trips were made by train and car, and each lasted about a week.

A new feature of the program this year was the sending of men out to debate before clubs and societies in various parts of the state. These trips were arranged by Mr. Edward L. Stevens, instructor in public speaking, after several hundred groups had been notified of the availability of Rutgers debaters for club programs. Whenever possible, the debates were made intercollegiate affairs, with schools in the vicinity being invited to participate. Groups visited included the Hillsdale Men's Club, the Bloomfield Junior Women's Club, the Bound Brook Rotary Club, the Temple Israel in Kearny, the Temple Bnai Israel of Nutley, the Middlesex County American Bankers Association, and the College Women's Club of Middletown, New York.

Freshman debating this year was coached by Henry D. Austin at first, but he became ill and turned his duties over to Leiper M. Robinson. The first call found approximately thirty men interested and a full schedule of fifteen home and away debates was arranged and supervised by Robinson. The largest feature of the program was the mass debate with Princeton in which eleven Rutgers freshmen participated.

Assisting Professor Reager with the program were senior debate managers Melvin D. Fromkin, John A. Melrose, and James C. Evert, all '42. Junior managers were David Hendrian, John Bender, Leiper Robinson, William L. Van Nuis, and Albert L. Strassburger, all '43. Franklyn A. Johnson, Robert Ferguson, Samuel Schwarzman, Richard Baisden, Stanley Sherwood, Jr., and Nicholas DeVita, all '44, functioned as sophomore managers.

¶ FRESHMAN DEBATING (*above*): *first row*—Krevsky, Kuperstein, P. Taffae, Smerling, I. Kramer, J. Levin; *second row*—Robin, Crews, Meredith, Erickson, Pesin, Melrose.

The Targum

The Targum, official student newspaper of the University, has appeared regularly since the first monthly edition appeared on January 29, 1869. With its complete coverage of campus news along with a cross-section of reader and editorial opinion, *The Targum* has continued ever since the first issue along the lines of its first editor's description: "a literary and scholarly, and yet at the same time a lively newspaper, which will meet with a hearty welcome from every lover of literature and friend of education."

Its semi-weekly editions appeared throughout the past year under the direction of Russell Janoff, editor-in-chief, and Stanley Klion, business manager. The editors completed the typographical modernization of the paper, begun two years ago. Another highlight of the year was the appearance of a special sixteen-page edition for the 175th Anniversary Celebration. Staff members added still another innovation to the *Targum* history when they conducted the first of a proposed annual series of banquets.

Anthologist

The *Anthologist* is the University literary magazine which appears six times per year, usually immediately preceding functions of the University, such as important dance weekends, the Christmas recess, and during the football season.

From time to time the "*Antho*," as the magazine is known by the student body, has received honor ratings from the National Scholastic Press Association in competition with publications from schools all over the country.

The history of the magazine, while short compared to the life of the University, is noteworthy for the steady improvement that has continued since its establishment. The *Antho* originated in 1927 to succeed the *Chanticleer* as the official University magazine. It now has evolved into a publication written for the benefit and enjoyment of the students, as well as an organ through which those with literary talent or aspiration may express themselves. The *Antho* contains popular short stories, articles, and unique features, including art and humor departments, recent additions.

Scarlet Letter

This 1942 issue of *The Scarlet Letter* is the culmination of seventy-three years of change and evolution, for in 1869 one annual issue of *The Targum* summarized campus activities for the year. But in 1871, *The Scarlet Letter* appeared as a separate publication, being published by the fraternities for a while, then by the juniors, still later by the senior class exclusively, until now a staff of undergraduates of all classes assists in its publication.

C. A. A.

The Civil Aeronautics Act of 1938, "an act to create a Civil Aeronautics Authority, and to promote the development and safety and to provide for regulation of civil aeronautics," created the Civil Aeronautics Authority. The Civilian Pilot Training Program was a direct result of the act.

Students who take the course at the university may take it for college credit or not, but they must have completed one year of college work. The university offers two courses, a primary and secondary. Facilities are provided so that twenty men can be accommodated in the primary course and ten in the secondary. The ground school work is covered in night classes at the Engineering building and the flying is done at Hadley Airport.

The ground school for the primary course includes the subjects of meteorology, civil air regulations, navigation, and aircraft management. The classes are held from seven until ten-thirty, two nights per week. The flying is done in mono-winged Aroncas provided by Ungar Aircraft, Inc. The course requires a total of 18 dual hours and 17 solo hours flying time and includes fundamentals of flying and a short cross-country flight.

The secondary course is quite a bit more intensive, covering the subjects of aerodynamics, power plants, celestial navigation, radio work, aircraft structure, instruments, and parachutes. The ground school classes are held three times a week from seven until ten-thirty P. M. The flight training for this course is done in Waco UPF-7's, and includes all manoeuvers of advanced aerobatics and two three and a half hour cross-country flights.

These courses are presented very comprehensively and in a most serious vein. A student has made a great accomplishment if he passes the examination for the secondary course. The organization of the C. P. T. at Rutgers is in the hands of Professor Ubert C. Holland, Assistant Dean of the School of Engineering.

Military Science

The Rutgers Reserve Officers' Training Corps was established in 1920, soon after the passage of the National Defense Act of 1920. It supplanted the Rutgers Cadet Corps, founded in 1864. Membership in the R.O.T.C. is compulsory for the two years of the Basic Course, while fifty sophomores are chosen for the two-year Advanced Course and six-week summer camp. Upon graduation these men receive commissions as second lieutenants in the Infantry Reserve. The general purposes of the R.O.T.C. are three: to train young men in leadership; to fit them to render intelligent service to their country in times of emergency such as the present; and to instruct them in the civic virtues of loyalty, self-control, and obedience to the proper authority.

Company C-5 of Scabbard and Blade, was chartered in 1923, while the Society of American Military Engineers came into existence in 1931. The Scarlet Rifles, close order drill company of the regiment, originated in 1933 through the efforts of Lt. J. C. Klein.

PLATTSBURG

PLATTSBURG is the scene of the summer encampment of most of those men in the first year advanced course R.O.T.C. Last summer's encampment began on June 13 and was concluded on July 24. This six weeks period was one of intensive application of the information gathered during three years of classroom study.

Active in camp athletics, Rutgers officers also won their share of leadership awards, two earned editorial medals, and two commanded company competitive drill platoons. Rutgers also won the pistol marksmanship cup.

Highlights of the camp, commanded by Colonel Koehler, for the Rutgers men, were the three-day maneuver at Schuyler Falls and the beer party at the close of camp.

EDGEWOOD ARSENAL

Three Rutgers chemistry students, John Ervin, Hermann Menninghaus, and Howard Voorhees, attended the Chemical Warfare Service-R.O.T.C. Camp at EDGEWOOD ARSENAL, Maryland. This camp, occupied by one hundred fifty cadets from fifty universities, opened on June 20 and ended July 31.

The major activity was the study of the tactical employment of chemical agents and specialized weapons, learning to fire the pistol, and chemical company maneuvers. A camp record was established when sixty-two per cent of the cadets qualified in pistol marksmanship. Rutgers placed fifth in the pistol competition.

Recreational activities consisted of a wide variety of sports, trips to Baltimore, and eagerly attended weekly dances.

¶ IN THE GROUP: *first row*—Zubko, Moncrief, Dale, Mason, W. Hale, Howling, Patten, Capt. Johnson, Col. Koehler, Capt. Smith, Feagles, Jarvis, Kindre, Maguire, Poston, Bayne, Henderson; *second row*—Olsen, Bleeker, Klion, Eckhard, Rushmore, Hadley, Shuster, Mulheron, Pierce, Evan Smith, Shallcross, Haber, J. Ferris, A. Eisberg, DeMasi; *third row*—F. Johnson, Donahue, McCloughan, Freeman, T. Adams, Brousseau, Lunger, F. Kilcheski, Dorsch, Kempson, Kuhn, Burgher, Goodier.

SCARLET RIFLES

The SCARLET RIFLES is the close order drill company of the R.O.T.C. Regiment. It was organized in 1933 through the efforts of Lt. J. C. Klein of the Military Department staff, for exhibition work at the Military Field Day and for competitive drills with the close order units of other R.O.T.C. colleges. Members are chosen from those freshmen and sophomores proficient in drill and the manual of arms.

During 1941–42, Captain Richard T. Lunger, '42, was Commanding Officer, aided by First Sergeant Leonard C. Briggs, '43, and Staff Sergeant Malcolm A. Schweiker, '43. Sophomore elected officers of the platoon were Ben E. Ford, president; Harry W. Cyphers, vice-president; F. O. Hund, secretary; and Richard R. Sachsel, treasurer.

S. A. M. E.

Organized in 1931, the Rutgers chapter of the Society of American Military Engineers devotes itself to the application of engineering thought to problems of military tactics and equipment. The chapter is part of a national organization, and was originated here by a group of scientific students taking the advanced R.O.T.C. course.

Technical lectures are presented at the Society's meetings, and from time to time inspection tours are made of near-by manufacturing concerns producing military equipment.

The officers for 1941–42 were William Mulheron, '42, president; A. Robert Dorsch, '42, vice-president; Lewis G. Conover, '43, secretary; and Clarence B. Anderson, '43, treasurer.

Rifle Team

The R.O.T.C. Rifle Team completed a successful season with a score of five matches won and two lost, in shoulder to shoulder matches with the best collegiate rifle teams. Winning from Lafayette, Columbia, University of Pennsylvania, City College of New York, and New York University, the team lost early season matches to Drexel Institute and Lehigh, which ranks second in the nation. The Rifle Team won third place award and individual trophies for team members in placing third and fifth in the Hearst Trophy Matches for 1942 in the Second Corps Area. Captain Robert B. Johnson is supervisor of the team which was coached by Sergeant Kenneth J. Staley.

The freshmen won all of their postal matches by defeating Yale, Columbia, Indiana, Lehigh, Maryland and Florida.

A. S. C. E.

Membership in the AMERICAN SOCIETY OF CIVIL ENGINEERS is restricted to students enrolled in the civil engineering curriculum. The society, founded in 1852, is the oldest national engineering organization in the country.

Its purpose is, primarily, to present to its members some of the problems which arise in their field with the modern solutions, and secondarily, to acquaint the members of the various classes with one another.

Officers for the past year were: George Gordon, '42, president; Werner Sturm, '43, vice-president; Frank Maguire, Jr., '42, secretary-treasurer; George Claflen, '42, and Anthony Palladino, '42, class representatives; and Professor Frank Mirgain, advisor.

A. I. E. E.

The national organization of the AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS was founded in 1884 with the idea of offering to students the opportunity to engage in advanced electrical engineering practice and to maintain a high professional standing.

In line with this the local chapter holds semi-monthly meetings at which visiting speakers discuss problems of interest to the members. Ample opportunities are given to visit plants where practical work may be observed. This group also emphasizes the social side of college by holding occasional dances and parties.

Officers this year were: William Rushmore, chairman; Numma Balliet, vice-president; William Prout, secretary; and Sam Mason, Treasurer.

¶ A.S.C.E. (*above*): *first row*—Karol, Kempson, Maguire, G. Gordon, Aaroe, Sinnamon, Palladino; *second row*—J. Lawrence, Rogin, Duyckinck, Behn, Chambers, Dern.

¶ A.I.E.E. (*below*): *first row*—Kennedy, Balliet, Rushmore, Mason, Prout, Lautenberger; *second row*—Calvin, Thistle, Claflen, Morrow, Messerschmidt, Swarthout, McDonnell, Hennessy.

A. S. M. E.

As a society of twenty years' standing at Rutgers, the local chapter of the AMERICAN SOCIETY OF MECHANICAL ENGINEERS aims to better prepare and acquaint the undergraduate engineer with his future and to keep him informed of the latest developments and practical problems of mechanical engineering.

To carry out this purpose, the Rutgers chapter holds meetings twice monthly at which time it has discussions, and makes plans for inspection trips to companies in this vicinity. Whenever possible well-known persons in this field of engineering are invited to lecture before the group.

Officers were: Leonard Zubko, chairman; A. Robert Dorsch, vice-chairman; Clifton Bischoff, treasurer; and Theophilus Pierce, secretary.

Mathematics Club

The MATHEMATICS CLUB was founded at Rutgers in 1926. It endeavors to further student interest in mathematics in cases where modern scientific and practical problems are concerned.

The club holds monthly meetings and occasionally holds combined meetings with math clubs at other New Jersey colleges. The highlights of this year's activities were the annual banquet and visits to mathematical conventions in New York and Philadelphia.

Under the leadership of Warren Beckwith, '42, as president, the organization enjoyed a most active year. The other officers were: Eugene Schenkman, '42, vice-president; Norman Hickok, '42, secretary-treasurer. Professor Bunyan, Assistant Professor in Mathematics, served as faculty advisor.

¶ A.S.M.E. (*above*): *first row*—J. Rieger, Kuhn, R. Johnson, Mulheron, Holloway, Ambos; *second row*—R. Wurtz, Roets, Dorsch, Pierce, Zubko, Bischoff, Widerman, Goodier; *third row*—Piller, Dunbar, I. Martin, De Sante, C. Anderson, Maggio, Oberreit, Sonn, Pokorny, Rocky, Mounce.

¶ MATH CLUB (*below*). *first row*—Prof. Worth, Prof. Bunyan, Prof. Galbraith, Dr. Morris; *second row*—S. Goff, Beckwith, Hickok, Tchorni, Archibald.

Ceramics Club

The Rutgers Ceramics Club, the student branch of the American Ceramic Society, was organized on the Rutgers campus in 1921. At the present time it has an active membership of seventy-five undergraduates. The purpose of the group is to advance and diffuse knowledge relating to the ceramic industry.

This is done by having regular monthly meetings at which time outside speakers talk, having discussions, and visiting different industrial organizations. Socially the club sponsors an annual Christmas dinner and party.

The officers were: William Bauer, president; Roy Brown, vice-president; Herbert Ueltz, secretary; Richard Winchell, treasurer; and Professor George Brown, and Mr. Laurence Kane, Councillors.

Chemistry Club

The Chemistry Club has as its main purpose the promotion of friendship among the student chemists, and secondarily the diffusion of chemical knowledge, the advancement of science, and the development of interest in chemistry among its members.

The meetings are held monthly, at which time technical moving pictures are shown and speakers from the chemical industry speak. The club also has occasional social parties, and at least once a year sponsors a private dance for its members.

The officers for the school year were: Boris Clyman '42, president; Vincent Murray '44, vice-president; Charles Thomas '45, secretary; Leonard Briggs '43, treasurer. Doctor Delmar Cuttle acted as advisor for the group.

¶ Ceramics club (*above*): *first row*—Dr. Vitaliano, Goodman, McDevit, McCoy, Rice, R. W. Brown, W. Bauer, Ueltz, Gebler, G. Hund, Prof. Emley; *second row*—C. Bachman, Phillips, Hanold, I. Cohen, Psemeneki, Schweiker, H. Smalley, F. Ratti, Omley, Prof. Brown; *third row*—Hoagland, Farfel, E. C. Thompson, Curcio, Porter, Maybaum, W. Koch, Rosengren, Wolfram, Bruno, Comeforo; *fourth row*—Paulus, J. Stout, W. Jackson, Stahl, E. Wells, Fuller, W. E. Brown, R. Fischer, Weaver.

¶ Chemistry club (*below*): *first row*—Spialter, Sullivan, W. J. Smith, Krevsky, Geib, Rugge, Biehler; *second row*—Conners, C. Thomas, Murray, Clyman, L. Briggs, Dreyling, Kruger; *third row*—A. Wilson, R. Holton, L. Steinberg, Norcross, Hoppe, J. Weber, Theile, Keat, Conrad, Brower, Wollentin, Marcali, W. Schilling; *fourth row*—Wisnyi, Cottrell, Bird, Wiese, Masur, Rumbarger, N. Gray, S. Blum, Nisonoff, Lowenstein, Newton, Voutetakis.

Ag Club

The Rutgers Agriculture Club, the largest organization on the Ag Campus, was organized for the purpose of promoting agricultural activities among the many students of agriculture. Membership is open to any student in the College of Agriculture.

The Club is one of the most active on the Campus. At the monthly meetings, topics of interest to agriculturists are discussed. The club sponsors the Senior Farewell, Barn Hop, the annual Agriculture Field Day, and many other prominent activities.

Officers for this year were: president, Chester Benash, '42; vice-president, Frank Eaton, '42; secretary, William Cowperthwaite; and treasurer, Francis Mansue.

Agricultural Economics Club

The Agricultural Economics Club was founded in 1939 for the purpose of providing a source of information and an opportunity for mutual discussion to those students particularly interested in the field of agricultural economics.

During the course of the past three years the organization has sponsored lectures and forums devoted to the advancement and knowledge in this specific field of agriculture. Whenever possible, the members have made interesting trips to leading agriculture produce centers in order to observe conditions first hand.

The officers this year were: Russell Burroughs, president; Daniel Wagner, vice-president; Chester Morris, secretary; and Joseph Lerner, treasurer. Professor Rinear acted as advisor to the group.

¶ AG CLUB (*above*): *first row*–Margolin, W. Griffin, Swenson, Weagley, Dowling, Small, Pino, Patterson, McDougall, Fenyk, *second row*–J. Robinson, Smith, Mansue, Benash, Eaton, Bivins, C. Johnston, Gilbert, Homan, Widmer, H. Flitcraft, Havriluk, E. Stone; *fifth row*–Norusis, Tarjan, Rau, Terhune, Schick, Shaw, Wapner, E. Meyers, Blight, Mintz, McDougall, Burroughs, H. McDougall, Akeson, Krupnick, Bodri.

¶ AG ECONOMICS (*below*): *first row*–Brown, Stone, Wapner, Burroughs, Kane, Cornell, Cowperthwaite; *second row*–Grunes, Tarjan, Havriluk, Moncrief, Homan, Terhune, Blight, Eaton, Wells.

RUTGERS

Poultry Science Club

The POULTRY SCIENCE CLUB was formed in the fall of 1941 at Rutgers with the express purpose of better acquainting its members with one another through the media of educational and social activities. This year the club totalled twenty-four members under the able leadership of Harvey Robinson, president; J. Dowling, vice-president; Francis Mansue, secretary-treasurer; and Doctor Thompson, faculty advisor.

The organization meets once a month, and sponsors movies and speakers at these times. The club takes an active part in the annual Ag Field Day with an appropriate and worthwhile exhibit. The group has won a place of distinction among its fellows on the ag campus by the splendid work it has done since its inception.

Dairy Science Club

The DAIRY SCIENCE CLUB was founded with the purpose of promoting greater interest in dairying, to offer vocational guidance, and to give its members the opportunity to meet men in the dairy industry. This year the club was guided by C. Howard Smith in the capacity of president; Charles Brown, vice-president; Stanton Brown, secretary; and John Fish, treasurer.

The club sponsors many activities including sending a judging team to many dairy judging contests, presenting speakers throughout the year at its various meetings, and setting up an exhibit at the annual Ag Field Day. The thirty-five members of the club meet once monthly in order to participate in educational and recreational activities.

¶ POULTRY SCIENCE CLUB (*above*): *first row*—Sher, Dr. W. C. Thompson, Mansue, J. Robinson, Dowling, W. Griffin, Hoffman; *second row* Margolin, Baker, Krupnick, Akeson, Gilbert, Rau, Benash, Norusis, Bodri, Pino.

¶ DAIRY SCIENCE CLUB (*below*). *first row*—Cornell, Mackinnon, C. Brown, Smith, Patterson, Oleskie, Scarr, *second row*—Bivins, Schenholm, Tarjan, R. Hale, Terhune, H. Flitcraft, Schuck, Krauss, Eaton, Norusis, Grunes, *third row*—Kitchen, R. McDougall, Blight, Harding, Homan, J Johnston, Monerief, Burroughs, Weagley, Cowperthwaite, Baylor.

4-H Club

The 4-H Club was founded at Rutgers in 1939, and has flourished successfully ever since. This year it was under the able direction of C. Benash, president; Jean Hill, vice-president; and Ruth Geary, secretary-treasurer. Kenneth Ingwaldson was the faculty advisor.

The purpose behind this organization is to assist the members of the College of Agriculture in carrying out the scheduled agricultural activities of the year. The club schedules many scientific activities during the semester, such as work in green-houses, in the field, and in the laboratory. The work in which the club members engage not only has extreme practical value in molding character and in developing body and mind, but also proves an invaluable aid when they have left school and entered their chosen profession.

Hortus Club

The Hortus Club is an organization composed of students who are enrolled in the Floriculture and Landscape Gardening curriculums at Rutgers. The purpose of the club is to give a further understanding of the field to the undergraduate by means of lectures and illustrated talks by members of the faculty and by men actively engaged in the field professionally.

Perhaps the greatest addition to the club's activities has been the exhibit which they annually display at the agricultural field-day on the grounds of the agricultural campus.

The officers of the organization for this year were: Julius Small, president; Gene Gonzalez, vice-president; Richard Widmer, treasurer; and Ralph Swenson, secretary.

¶ 4-H CLUB (*above*): *first row*—Doris Raven, Edith Downie, Mary Sargent, Ruth Geary, Benash, Jean Hill, Martha Muller, Mary Roseberry, Margaret Mott; *second row*—Bivins, Wagner, Patterson, Rau, Terhune, Schick, Lilieholm, J. Robinson.

¶ HORTUS CLUB (*below*): *first row*—J. Flynn, Widmer, Small, Gonzalez, Swenson, H. Snyder; *second row*—Snavely, W. Richie, Schmidt, Begerow, Price, Myers, R. Snyder.

Biology Club

The Biology Club, in its second year of activity, was industriously engaged in functions such as: discussion of biological problems, field trips which enabled the members to gain practical experience in securing specimens for the laboratory, and club dinners at which outstanding biologists presented lectures on modern biological developments and theories. The objective of the club is to foster individual interest in biological science and to obtain greater benefit for the individual by means of club organization.

The officers of the club for the past year were: Dominic A. Mauriello '42, president; Robert J. Brousseau '42, vice-president; and Celestino Clemente '42, serving the organization as both secretary and treasurer.

Chapel Ushers

The Chapel Ushers are members of the Rutgers Christian Association, and perform innumerable duties for the University. Their major duties consist of ushering at University convocations, to usher at the regular Sunday chapel services in Kirkpatrick Chapel, and to seat patrons at Queen's Players' productions. The members are chosen in the early portion of the fall semester, and attain a gold "R" after the successful completion of three years of service. The service pins on their robes denote the number of years of service.

The members are: Frank Patten, head usher; Robert Christensen, Robert King, Malcolm Schweiker, John Everett, Forrest Briggs, John Ward, James Gale, Hubert Pierson, Douglas McCabe, and Robert Tormey.

¶ Biology club (*above*): *first row*—Larkin, Mauriello, Clemente, S. Kahn, Halperin; *second row*—Gorman, Richmond, Korbonits, E. Kahn, Jehn; *third row*—Kohout, Mazza, F. Schaefer, Canick, Rosenfeld; *fourth row*—Zagoreen, A. S. Katz, Yawitz.

¶ Chapel ushers (*below*): *first row*—Schweiker, Christensen, Patten, Everett, Vandermade, *second row*—F. Briggs, J. Ward, McCabe, Tormey, Pierson.

Newman Club

The NEWMAN CLUB was fostered to benefit all the students at N.J.C. and Rutgers who are members of the Catholic faith. The meetings are held once a month at St. Peter's auditorium, and Fr. Grieco and Fr. Coyne serve as advisors at these meetings. The regular get-togethers consist of a business program, a speaker, and a social hour for dancing and refreshments.

The aim of this organization is to broaden the religious, intellectual, and social life of the Catholic student in the non-Catholic university. The most important event sponsored by this club during the year is the annual Communion Breakfast. This year, Charles Morris was the acting president, and under his influence the group continued to do its traditionally fine work.

Student Forum

The STUDENT FORUM is composed of students from both the N.J.C. and Rutgers campuses. The membership is non-restricted, and the more active members it can manage to take in during the year the more able is the organization to carry out the active program which is prescribed for its members. This year, as well as all of the past, has proved to be a profitable one, and the group has established itself as a vital force on campus. The group was ably guided by Henry Kreutzer, and Reverend Deems, Doctor Miller, Professor Pumphrey, and C. Snedeker acted as advisors.

Once a week the members hold their meetings with the purpose of stimulating religious thought and activity on the two campuses. Besides the regular business meetings, several parties were given.

NEWMAN CLUB (*above*): *first row*—McIntosh, Vincz, Smith, Morris, Conte, F. McIntosh; *second row*—Pino, McCartney, Larkin, Mulligan, Lawrence, Trelease, Sullivan.

STUDENT FORUM (*below*): *first row*—Kreutzer, Grace Donnald, Marie Lou Lindemann, Josephine Carver, Weagley; *second row*—Schilling, Sites, Welch, Giberson.

Hillel Student League

The HILLEL STUDENT LEAGUE, celebrating its second year on the campus, offered one of the most active extracurricular programs of any organization. A unit of the national Hillel Foundation program, the local chapter serves for the Jewish students of Rutgers and N. J. C. in an effort to foster friendship among them and to present for them cultural, social, and religious activity.

A successful series of discussion groups on marriage problems was carried out during the second semester while an equally successful series on the problems of the Jewish youth was presented earlier.

Officers were: Russell Janoff, president; Adele Clieff, vice-president; Annice Blumberg, secretary; and Seymour Silberberg, treasurer.

Christian Science

The CHRISTIAN SCIENCE organization was founded here at this campus over two years ago, and was established with the main purpose of enabling those connected with Rutgers to participate in the cause of Christian Science by organized activity. The meetings take in readings from the Bible and testimonials presented by various members of the group.

The organization was directed this past year by Richard Bayne, president; Dorothy Fleischmann, secretary; George Boggs, treasurer; and Kathleen Rea, reader. Miss Barbara Spaulding again served as faculty advisor for this mixed group of students interested in the principles of Christian Science. The entire group convenes twice a month for its intellectual discussions.

¶ HILLEL STUDENT LEAGUE (*above*): *first row*—Widerman, Janoff, Silberberg; *second row*—Holtzberg, Kahn.

¶ CHRISTIAN SCIENCE (*below*): *first row*—Eleanor Moreland, Bayne, Betty Harman, Kathleen Rea, Dorothy Fleischmann, Boggs, Gladys Palmer; *second row*—Hurlburt, Snyder, Keilt, Wells, Royer, Parker, Geary.

French Club

The FRENCH CLUB is restricted to those students having at least a speaking knowledge of the French language, for at the meetings only French is spoken. The group meets once monthly for the purpose of furthering their interest in the language and in order to augment their knowledge of the culture of the people. Throughout the year, the club was addressed by outside speakers on various phases of the French culture and the history and traditions of the French people.

The organization was led this year by Richard Morfit who acted in the capacity of president; Hans Heymann, Jr., vice-president; and Gerald Williams, secretary-treasurer. Professor Clarence Turner was the advisor.

Deutscher Verein

The DEUTSCHER VEREIN was particularly active this year and presented a varied and unusual program to its members. Movies were presented in order to visually portray some of the German customs and arts. The club had numerous speakers, both from Rutgers and other colleges, who pursued the same subject. A Christmas party, which was a tremendous social success was scheduled. However, the major feat accomplished by the group was the performance of a German play, which won honorable mention at the "Cultural Olympics" at the University of Pennsylvania last spring.

Officers were: Kurt M. Leuser, president; Earl Thompson, vice-president; Stephen Kovacs, treasurer; and Richard Baisden, secretary and historian of the group.

¶ FRENCH CLUB (*above*): *first row*—Polinsky, Prof. Billetdoux, Morfit, Monahan; *second row*—Kraner, Johnson, Vanderweghe.

¶ DEUTSCHER VEREIN (*below*): *first row*—Dr. Holzmann, Baisden, E. R. Thompson, Leuser, Kovacs, Mr. Puhan, Mr. Haar, *second row*—Lowenstein, Dryhynich, Groves, Shuster, Kohout, Mr. Veltre, Trelease, Tunis; *third row*—Duffield, Spialter, Romme, Mulligan, Cox, McGrath, Kangos, Drout.

Spanish Club

This club was organized for the benefit of those students who required or desired a larger and more picturesque view of Spanish civilization than was offered in the lecture room. Its main purpose is to promote the study of the Spanish language, of the Hispanic countries, and their culture and ideals. This purpose is realized by means of meetings, lectures, reports, entertainments, contests and publications. Each meeting is different from the preceding one, and a regular schedule of bi-monthly meetings is adhered to, the business meetings alternating with the entertainments.

Officers were: Richard Raskin, '44, president; James F. McLean, '43, vice-president; Franklyn A. Johnson, '44, treasurer; and Alan R. Eastwick, '44, secretary. Mr. R. U. Pane was faculty advisor.

Italian Club

Revived into activity five years ago, the ITALIAN CLUB at the present time has semi-monthly meetings at which social and lecture programs are given. Its chief aim and function is to provide the members with an opportunity for appreciation of the Italian language and culture. Secondly, it seeks to arouse interest, along these lines, within the student body.

Professor Clarence E. Turner and Mr. Remigio U. Pane, of the Romance Language Department were the faculty advisors for the past year. The officers of the club were: Alex A. Restaino, '44, president; James G. Mazza, '42, vice-president; Dominic A. Mauriello, '42, treasurer, and Emmanuel L. Ferrito, '43, acting in the capacity of secretary.

¶ SPANISH CLUB (*above*): *first row*—Eastwick, Raskin, Mr. Pane, Kain, F. Johnson; *second row*—Curry, Shaff, Nichols, Holtzberg.

¶ ITALIAN CLUB (*below*): *first row*—LaBanca, Ferrito, Restaino, Mauriello, Molinari; *second row*—Denardo, DeMaio, Marinello, Gagliardi, Conte.

Economics Society

The ECONOMICS SOCIETY is a fairly young group in the matter of years, being initially organized in the fall of 1941, but nevertheless the group has a very active and interesting program of events. Its purpose is to promote an interest on the part of its members in economic problems and theory.

The organization meets regularly twice a month in order to listen to lectures on the subject of economics, and to participate in a round-table discussion following the lecture.

The body was headed this year by Jerome Jacobson as chairman; Adele Rick, secretary; and Louis Bloom, treasurer. Professor Wilner Sundelson, Instructor in Economics, was the faculty advisor of the society.

History and International Relations Club

An organization among the most notable for its activity is the HISTORY AND INTERNATIONAL RELATIONS CLUB. The stated purpose of the club is to stimulate the student's interest in, and further knowledge of, history and international affairs. Open forums and debates are held at the meetings during the school year. Delegates go to the regional International Relations Clubs' conference and to the model League of Nations Assembly.

The Speakers' Institute, meetings of which are well attended by students, faculty, and townspeople, brings well-known personalities such as Ludwig Lore and Raoul Aglion to speak on campus.

Officers were Warren Freedman, '43, president; Elmer V. Reilly, '43, vice-president; and LeRoy Ackerman, '43, secretary-treasurer.

ECONOMICS SOCIETY (*above*): *first row* Bloom, Jacobson, Dembling; *second row*—Katz, Balasny.

HISTORY CLUB (*below*): *first row*—Van Nuis, Robinson, Ackerman, Freedman, Prof. Ronhovde, Boyland, Johnson; *second row*—Hazelwood, Johnson, Cardwell, DeMaio, Sattler, Brown, Hansen, Heckman, Nichols, Geller; *third row*—Bennett, Patrick, Goldstein, Giberson, Ward, Reilly, Pfeil, Leff.

Music Club

The main objective of the Music Club has been to promote and foster interest in serious music on the Rutgers Campus. The club was organized two years ago under the guidance of Professor McKinney.

The club has been quite active at its monthly meetings. The meetings are conducted by different members of the club, and consist of discussions on some phase of music. The alumni are very active in this organization. New members are chosen on a selected basis by present members.

Members this year were: W. Evan Smith, president; Victor Campi, secretary-treasurer; Dean Sheffer, '42, Robert Hunt, '42, Frank Shafer, '42, Elwyn Saviet, '42, James Michelson, '42, and Theodore Gross, '44.

Journalism Club

The Journalism Club seeks to stimulate interest in journalistic endeavors outside the classroom as well as to provide social activities for its members. Sponsored by the Journalism Department, the club contacts noted journalists for lectures and arranges field trips in order to make it possible for its members to see the actual operation of a large-scale newspaper plant.

The group held periodic dances throughout the year, sponsored a party, and celebrated Christmas time by assembling in order to exchange gifts and presents.

The officers were: Frank Kilcheski, president; Ray Sexton, vice-president; Lee Zappulla, secretary; and Melvin Grossman, treasurer; Walter Schultise served as social chairman.

¶ Music club (*above*): Schaefer, Prof. McKinney, Smith, Gross.

¶ Journalism club (*below*): *first row* Zeller, Aronoff, Kilcheski, Kindre, Mr. Boyenton; *second row*—Gilbert, Buckwold, Groves, Dickerson, Kranz, Bleecker, Rimo, Sattler.

Rowing Club

The ROWING CLUB has now enjoyed its sixth year of existence here "On the Banks." Crew Coach Charles P. Logg acted in the capacity of faculty, and he was ably aided by Volckert Mason, who served as Commodore of the organization during the past school year. The group meets once a month at specified times in order to carry on its business and social functions.

The club aims to promote and foster interest in the sport of rowing among the undergraduates and alumni of the University. The main efforts of the club are directed toward obtaining money by various means to secure needed equipment for the several crews. The social climax of each year is the annual banquet at which the newly elected members and officers are initiated and installed.

Chess Club

In order to foster student interest, the CHESS CLUB held a sustained drive all year for membership. Their efforts were rewarded and the members are now some fifty in number. The purpose of the club is to provide facilities for chess to the devotees of the game and also to insure competition on a campus and intercollegiate basis. The club has participated in numerous matches with other colleges and universities and plans for establishing a permanent league of the schools here in the East are in the formative stages.

Robert Mirsky, who was the top man in the inter-club competitions this year, served as president. Leiper Robinson acted in the capacity of vice-president; Alfred Messer, secretary; Arthur VanDyks, manager; and Louis Haar, faculty advisor.

ROWING CLUB (*above*). *first row*—Vandermade, Boggs, Luz, Lederman, Bernstorf; *second row*—Hill, Lippincott, Finley, Mason, Coach Logg, Everett, Muller, Raskin, Wirth; *third row*—Akeson, Maggio, Keeler, Fardelmann, Cartmell, Hearne, Coda, Steinberg.

CHESS CLUB (*below*): *first row*—Smock, Gray, Robinson, Mr. Haar, Mirsky, Messer, Levin; *second row*—Sullivan, Smith, McGrath, Keat, Murray, Spialter, Krevsky.

Scarlet Barb Council

The SCARLET BARB COUNCIL, formed in 1935 to replace the old Neutral Council, coordinates the work of the different neutral groups and plans a campus-wide program for independent undergraduates. The Council is composed of representatives from the Quad Club, Ford Club, Winants Club, Commuters Club, and the Off-Campus Club.

Activities of the Barb Council include an annual banquet for all campus neutrals, the annual Football Dance, student-faculty smokers, and house parties on major dance weekends.

Officers for the past year were: Frank Kilcheski, '42, president; Robert Mirsky, '42, vice-president; John Gutman, '42, secretary; and James Mazza, '42, treasurer. Dr. Carroll C. Pratt and Mr. Earl S. Miers are faculty advisors to the Council.

Winants Club

One of the most active of the Scarlet Barb units, the WINANTS CLUB, is composed of neutral students living in Winants Hall. The organization promotes friendship and provides social and educational activity for its members.

The group was founded several years ago and still continues to observe some of its early traditions. Participation in intramural activity, house parties, dances, canoe parties, hay rides, talks by various faculty members, and similar affairs make up the program.

John Melrose served as president of the club. James Nist was vice-president; Philip Bewley secretary-treasurer; and Russell J. Janoff, David Hendrian, and Nicholas DeVita were representatives to the Scarlet Barb Council.

¶ SCARLET BARB COUNCIL (*above*): *first row*—Moss, Mirsky, F. Kilcheski, Melrose, Bewley; *second row*—Feldman, Rimo, Baisden, C. McDougall, Janoff.

¶ WINANTS CLUB (*below*): *first row*—Hund, McCloskey, Royer, Zitani, Weber, Wilson, Silverman, Smith; *second row*—Freeman, Gutmann, Jiannine, DeVita, Nist, Melrose, Bewley, Getty, Pullan, Fromkin, Clyman; *third row*—Baker, Messer, Quinn, Bowman, Manion, Gray, Hendrian, Aronoff, Murray, Sher, DeMasi, McIntosh.

Quad Club

The members of the QUAD CLUB, a living group organization, are neutral residents of the Quadrangle dormitories. The group is affiliated with the Scarlet Barb Council.

The purpose of the club is to promote social activity among the students living in the Quad, as well as to promote student-faculty relationships. In agreement with this policy, the group entertained many faculty speakers and held several interesting meetings during the course of the year.

Officers of the group of men of Pell, Leupp, Wessells, and Hegeman Halls were: Raymond Gorman, '42, president; Norman Brandt, '42, vice-president; Sheldon Koch, '43, secretary-treasurer, and Maurice Weill, '43, member-at-large.

Towers and Phelps House

The Ag living groups are composed of the TOWERS and PHELPS HOUSE. They are both a part of the cooperative movement initiated by Professor Frank G. Helyar several years ago. Membership is limited to agricultural students, and new members are chosen on the basis of need, scholarship, and personal character. The cooperative aspect is a distinctive feature of the group, which through the course of the year holds house-parties and socials, entertains members of the faculty, and participates in the intramural sports program. The Towers is located on the second floor of the Recketts Building on Georges Road, and Phelps occupies a spacious site behind the ag campus near the U. S. Highway #1. Chester Benash, '42, headed the Towers group this year, and Russell Burroughs, '42, was president of Phelps House.

¶ QUAD CLUB (*above*): *first row*—Alexander, Koch, Gorman, Brandt, Balasny, Hyde, *second row*—Goldbeck, Buckwold, Carman, Prentice, Dalrymple, Every, Mauriello, Goff; *third row*—Shaff, J. Fish, Dickerson, Russell, Cleskie, Swarthout.

¶ TOWERS AND PHELPS (*below*): *first row*—Wells, Blight, Bernash, C. Brown, Howan, Cowperthwaite; *second row*—Margolai, Tarjan, Terhune, Cartluke, Faton, Stone, Burroughs, Bailor; *third row*—Weatherall, Kitchen, Schick, Flitcraft, Montcrief, Holiday, Cornell, Grunes.

Club Ford

The purpose of the CLUB FORD is to provide entertainment to its members, to aid in improving and orientating them, and to help in the educational development of the neutral students living in Ford dormitory. The group is affiliated with the Scarlet Barb Council and is one of its most active and interested units.

The club sponsors talks by faculty members and discussion periods in which mutual problems are talked over and possible solutions suggested. The dormitory is divided into five houses and each house elects a man to represent it in the council composed of the three preceptors and the five representatives.

John VanKirk served as president; John Cox, vice-president; Harry Hazelwood, secretary-treasurer; and Victor DeLuca, commissary.

Hertzog Club

The HERTZOG CLUB has been founded upon the mutual desire of the undergraduates residing in Hertzog Hall and who are members of the Scarlet Barbs to provide social activities and to foster friendship among themselves.

The club enters a strong team every year in the intramurals and always has a particularly strong aggregation in the cross-country division of this activity. In addition, the group sponsors frequent social activities for its members such as canoe parties to Weston Mills and occasional smokers.

Leslie Holland took over the presidential reins this year and did much to develop the bonds of congeniality within the Hall. He was assisted by Albert Stubee, secretary-treasurer.

¶ CLUB FORD (*above*): *first row*—Claflen, Miller, Rieger, Smalley; *second row*—Romme, McCloughan, Korbonitz, Cox, VanKirk, Nova, Montgomery, Brislawn, Crane, Baisden; *third row*—Schilling, Freer, Rocky, Isaacson, Merewarth, VonDamm, Nichols, Piller, Bigelow.

¶ HERTZOG CLUB (*below*): *first row*—Marucci, Stubee, Holland, Conrad, Gosselink; *second row*—Winchell, Holler, Wettstein, Folensbee, Angivoli, Atwood.

Commuters Club

With a membership of over one hundred men, the COMMUTERS CLUB has a decided amount of influence on campus. This year marked their fifth year of existence, and each semester seems to add to the activities of the group. It was organized initially to give the commuting neutral an opportunity to enjoy the social, scholastic, and educational opportunities offered on campus to the resident undergraduates. This it has done admirably and with the addition of a definite activities program announced well in advance of the actual events much has been accomplished to alleviate the disadvantages of the non-resident students.

The officers were: Robert Moss, president; James Coleman, vice-president; John Rimo, secretary; and James Coleman, representative.

Off-Campus

The undergraduates who live in and around New Brunswick compose the membership of the OFF-CAMPUS CLUB. It was organized in 1938 as a unit of the Scarlet Barbs and seeks to provide for its members some of the social and educational opportunities enjoyed by the fraternity and dormitory residents.

In working toward this end, the club enters a team in the intramural competitions, schedules parties, smokers, picnics, hayrides, and ice-skating parties.

Under the able leadership of Robert Mirsky, president, the organization had a very active year and has gone a long way toward developing friendship and harmony among its members. Marvin Gross, as vice-president; and Fred Feldman, secretary-treasurer.

¶ COMMUTERS (*above*): *first row*—Coleman, Moss. Rimo; *second row*—B. Reilly, Rogers, Shedko, Dechowitz, Bell, Tchorni, Kindre, Hutchinson, Fitzgerald, Offenkrantz, Vogler, Colacella, Goldman, Goldstein, Scarpellino, Kain; *third row*—R. W. Gies, Lederman, Skalnik, Tunis, Kuperstein; *fourth row*—Whalen, Lyon, Lehman, R. C. Gies, Kilcheski, Kornblatt, Corio, Di Antonio, West, Kuhlman, Finkelstein, Burack, Bodri, Goff, Butcher, White, Jansky, Mintz, Beke, Sugerman, Temkin.

¶ OFF-CAMPUS (*below*): *first row*—Sullivan, J. Eckel, Boyland, Feldman, Mirsky, Keat, Krevsky, J. Levin, Fischer; *second row*—Polinsky, Snellman, Kranz, Filippone, Cottrell, Norcross, Coleman.

Queen's Players

Under the leadership of Director William Corrigan, QUEEN'S PLAYERS successfully completed its second year of rejuvenated dramatic activity on campus. Hampered by lack of facilities and a University theater, the society, nevertheless, presented productions of George Ade's "College Widow" and Maxwell Anderson's "Winterset."

The Players' version of "College Widow"—their first attempt at musical comedy since the Varsity Show of 1939—was rewritten by Mr. Corrigan, John B. Williams, '42, and Theodore Sands, '42. The turn-of-the-century comedy of college life became more localized and was done in the costume of the period. Popular songs of the Gay 90's were added to the Ade play.

This production marked the inauguration of a new campus policy with the combining of the play with the Sophomore Hop week-end. The same idea was used when four performances of "Winterset" became a feature of the Junior Prom week-end.

Corrigan's interpretation of the Maxwell Anderson play was an achievement in production, lighting, and staging effects. The auditorium of the Engineering Building was converted into a theater with the building of a curtainless stage open to the audience from three directions.

More than 100 students participated in the various branches of the two plays, handling such activities as production, lighting, sound, scenery, costuming, and business. Girls from New Jersey College for Women participated in the female roles.

Officers were: John B. Williams, '42, president; Theodore Sands, '42, vice-president; and Arthur L. Roth, '42, secretary-treasurer.

¶ QUEEN'S PLAYERS: *first row*—Strang, Frank, Roth, Mr. Corrigan, Sands, Cary, Bell; *second row*—Spialter, Baisden, Lichtman, Kranz, Shuster, Conte, Rothblith, Gerold, Buckwold.

Workshop Group

An innovation in campus dramatics was successfully effected when the newly formed WORKSHOP GROUP, sponsored by Queen's Players, presented "John Doe," a one-act drama by Bernard Dryer, as their first production.

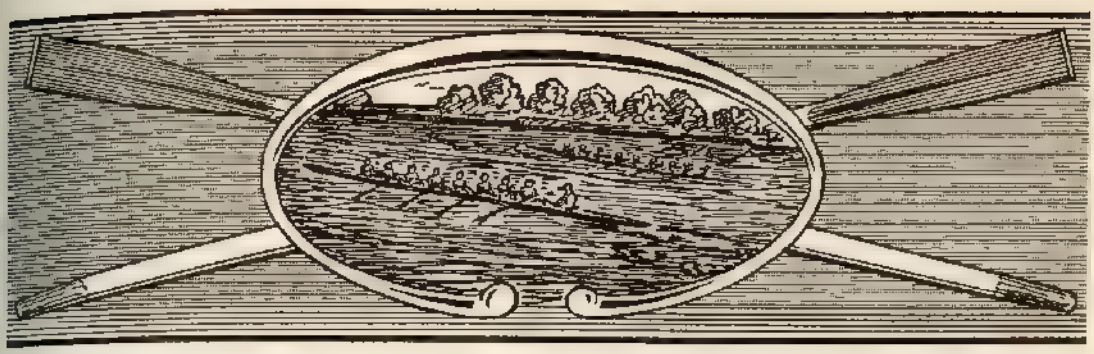
The Workshop Group grew as a result of increased interest in dramatics and a desire to uncover any new acting talent on campus. Participation in "John Doe" was open only to men who had not participated in any previous Queen's Players effort. It also provided a source of new acting material for "Winterset," the Queen's Players production which followed.

Following closely on the heels of such comedies as "College Widow" and last year's productions of "Brother Rat" and "Room Service," "John Doe" was the first serious drama presented on the campus in several years.

As presented by Mr. Corrigan and his staff headed by production manager Bernard Gersten, '44, "John Doe" was a blend of acting, novel lighting and sound effects with the religious intensity of the theme. The platform of Kirkpatrick Chapel became a realistic stage setting for Limbo, mysterious other-worldly land. This transition was achieved by the tones of an organ, building up to a crescendo that set the mood of the play. No curtain or scenery was used.

The cast of "John Doe" included Mildred Brauer, N.J.C., '45, Arthur Meredith, '45, Joseph Hewitt, '43, Arthur Gerold, '45, Herbert Striner, '44, Robert Wiedman, '44, and Benjamin Rothblith, '42. The first performance of "John Doe" received such acclaim that it was repeated the following week at the request of University officials.

WORKSHOP GROUP: *first row*–Striner, Mildred Brauer, Rothblith, Gerold; *second row*–Spialter, Weidman, Buckwold, Abrams; *third row*–Romme, Meredith, Gersten, Hewitt, Kranz.



CHAPTER EIGHT

Upstream Red Team

THIS past year, more than ever before, the cheer "Upstream Red Team" has gained real significance, for, symbolic of the development of intercollegiate athletics and of the typical spirit of Rutgers athletes is the Rutgers crew. A varsity activity beginning in 1865, rowing advanced over the intervening decades with an erratic yet increasing importance. Last season it reached the zenith in intercollegiate competition, the Poughkeepsie Regatta, where only the best oarsmen of the nation participated.

Similar although less brilliant progress has been made by football, basketball, swimming, lacrosse, track, and minor sports. The athletic facilities of the University have recently been further increased by the construction of the new gymnasium and stadium.

In the last decade intramural and intercollege athletics were milestones on the road to athletic activity for all. The second semester of 1941–1942 marked the greatest advancement yet, as physical education was made compulsory for all undergraduates, thus further approaching the ideal of a well rounded college life for the average Rutgers man.

¶ The gymnasium, built in 1931, has seen many Scarlet victories and defeats, its beams have vibrated alike to the roars of spectators and the trill of a soprano or the strains of a symphony orchestra. The stadium was dedicated in 1938 by the first victory over Princeton since 1869 and has seen the Scarlet vanquished only once within its walls.

Football

With a combination of veterans and untried sophomores, Coach Harvey Harman faced the 1941 season with the job of developing a formidable eleven from this squad of inexperienced men. However, he produced a team that played good football to win seven of nine games.

The season came to a glorious end on Thanksgiving Day when the "Big Red" team upset a highly favored Brown University team, 13 to 7. This well-deserved win was the major upset of the day.

The Scarlet team was outclassed by strong Syracuse and Lafayette teams to suffer their only two defeats of the season.

In the opening game, the Scarlet eleven completely outplayed a lighter and smaller Alfred aggregation. The game was featured by the good play of Jones, Ratti, and Utz, who led the squad to a 34 to 0 win.

The Springfield contest was mainly an aerial one. Three touchdowns were scored on passes. On the receiving end were Jones, Gilbert, and Potzer. The whole team worked well together to triumph by a score of 26 to 0.

Lehigh was the next to taste defeat at the hands of the unbeaten Rutgers club, by a score of 16 to 6. Before a homecoming crowd, Don Jones put on a scintillating running exhibition. John Schmidt and Vinnie Utz were brilliant defensively.

In a very spirited game, the Harman machine topped Fort Monmouth's cohorts, 26 to 0. Steve Capestro, making his debut as a regular for the first time in three years, scored two touchdowns. Also, McManus and Potzer tallied. This game marked the resumption of collegiate-service gridiron relations.

Playing on a misty day with soggy turf underfoot, the Scarlet attempted to preserve its prestige against almost insurmountable odds, but lost to a great Syracuse team, 49 to 7.

The next engagement, staged in a pouring rain before a Sophomore

CANDIDS taken during the Lehigh game.

L
R
L
G
E
R
40

Hop gathering, resulted in a 20 to 0 victory over Maryland. The aerial combination of Capestro-to-Utz scored twice and Steve ran the ball around end to tally the other score.

Lafayette proved too much for the Scarlet and retained the Middle Three championship and the traditional cannon which personifies the supremacy of the winning team. Rutgers made continuous threats in the first half, but bogged down in the third and last quarters to come out on the short end of the scoring column, 16 to 0. Utz and Capestro led the running attack for the Big Red, with Utz carrying the ball phenomenally in four consecutive attempts.

With eight Seniors playing their final home game, Connecticut was whipped 32 to 7. The Scarlet ran roughshod over them with Utz, Weiner, Horvath, and Schaffle scoring touchdowns. Ralph Schmidt, a veritable workhorse who had carried the majority of the blocking back assignments all year, came into his own and picked up tremendous amounts of yardage.

For the final game of the season, the team travelled to Providence, Rhode Island, to engage the Bruins in combat. The team surprised a usually sceptical football world with a well-earned 13 to 7 triumph over Brown. This was the climax to a very successful season. The squad played with undeniable spirit. Vincent "The Baron" Utz ended his three grand years of football on the Rutgers varsity by scoring both of the touchdowns. Don Jones also aided greatly in sparking the two touchdown drives. Six members of the team played the full sixty minutes: Utz, Ralph Schmidt, John Schmidt, Bill Schmitt, Len Hansen and Gill Greenberg.

Thus, another chapter has been written into the annals of Rutgers which dates back to the year 1869 when Rutgers defeated Princeton on College Field in the first intercollegiate football game ever to be played.

The need for expert instructors in physical education to train naval cadets summoned Harvey J. Harman into the Navy. Our Head Football Coach departed in March to enter schooling from which he will emerge after three months a lieutenant commander. The status of Frank Long,

Eddie Masavage, Dave Bender, and Tom Kenneally is still uncertain, all having made application along with Harman. And still doubtful is who will succeed Coach Harman as football mentor. Whoever he may be, the fine record of Harvey Harman will remain as the goal of Rutgers football coaches for decades to come. Since 1937, his teams have won twenty-six times, tied once, and lost seven games. Most remembered victory is, of course, the 1938 triumph over Princeton at the Stadium dedication.

150-Pound Football

The Princeton 150-pound Football team permanently retired the Sanford Trophy when they captured their third undisputed championship of the Eastern Intercollegiate Lightweight Football League. The Rutgers midgets finished the season in fourth place.

An inexperienced Scarlet unit opened with a one-sided loss to Yale, but the following Saturday dropped a close decision to an outplayed Pennsylvania eleven, runner-up for the title, 7 to 6. The Scarlet, after three losses, climbed out of the cellar by defeating a highly favored Cornell team, and taming the Wildcats of Villanova. The final game nearly resulted in an upset as the Rutgers lightweights held an undefeated Princeton team to a 6 to 6 tie for three quarters. However, the veteran Tiger aggregation finally overpowered the Kenneallymen in the last ten minutes of play to push over two scores and retain their unblemished record.

Lyman Avery, Hal Conners, and Don Shallcross bore the brunt of the Rutgers attack, while Frank Patten and Charlie Sloca were the bulwarks of the line. The Conners-to-Avery pass combination resulted in four touchdowns, and Avery, who scored all the team's points, finished second in the league's individual scoring totals.

Cross-Country

The 1941 CROSS-COUNTRY season at Rutgers, the seventeenth for Bernie Wefers, was regrettably unspectacular. In their dual meet competition, the Scarlet hill and dalers won one meet and lost three. John Wheeler, the Scarlet captain, was the mainstay of the team throughout the season, winning four meets.

Basketball

Coach Frank Hill led the Rutgers BASKETBALL team through a rather unimpressive season with a record to date of seven wins as opposed to eleven losses. The games with Brown and Tufts still remain to be decided, but whatever the outcome the Scarlet can come off with nothing better than a .500 average.

The club defeated University College at the outset, 40–23, and then lost a hard-fought contest to the soldiers from Fort Monmouth. They came back with a bare one point win over Trenton, and, hitting a slump, proceeded to lose to Muhlenberg, Princeton and Fordham respectively, by rather one-sided scores. However, the Williams and Lehigh contests proved successful attempts, and the basketeers went on to outshoot Lafayette, Boston U., and Wesleyan, while losing again to Princeton, and to Manhattan, Lafayette, N.Y.U., Syracuse, Colgate, and Lehigh.

Sidney Sewitch was the Scarlet's leading scorer and was greatly assisted by Captain Freeman, Bunnell, Zurla, Brightenback, Ginsberg, and Mengel. The fast break and the use of the zone defense proved to be immeasurable aids in opening up the defense of the opponents and in tightening the defense of the Scarlet.

Swimming

Continuing in his traditional winning manner, Coach James Reilly has again produced a winning swimming combination. The team has garnered six wins in seven dual meets, and, though the season is as yet not completed, the natators should have little trouble in outstroking the contingents from Lehigh, Villanova, and Penn State.

The season opened with an impressive win against Columbia University in the pool of the light Blue. In rapid succession, the mermen showed their wake to Colgate, 53–22, and Penn, 43–32. The meet with Brown provided an opportunity to atone for the defeat of last year, and the squad came through with flying colors to the tune of 44–31. However, the joy of the Scarlet was short-lived for, in an attempt to make up for a deficiency in sprint men, Coach Reilly shifted the usual line-up around. It was all to no avail, however, for the Orange and Black overpowered the Scarlet by a score of 23–52, in spite of scintillating victories by Gantner and Siegel. The Leopards of Lafayette met their Waterloo when the Scarlet invaded Easton and swamped them, 47–28. As *Scarlet Letter* goes to press, the tankmen have drubbed Franklin and Marshall by a score of 46–29, and there remain three dual meets and the Eastern and National Intercollegiates.

Intramural Boxing

With the appointment of George Dochat as coach, Boxing at Rutgers took a new lease on life this year. A program of intramural boxing replaced the intercollegiate schedule and as a result a squad of more than forty men turned out. Match winners were awarded watch charms while all regular participants received their class numerals.

Fencing

Marking his second year as coach of the Rutgers FENCING team, Don Cetrulo coached the team to impressive wins over Lafayette and Swarthmore, while losing close decisions to Yale, the U. S. Naval Academy, and Princeton. The bright spot of the season was the consistent work of Captain Rusty Rudolf, who, despite an injury to his side which cut his efficiency down greatly, lost only two contests and amassed a phenomenal record of twenty-three wins in twenty-five matches.

Cheer and Song Leaders

The CHEERLEADING SQUAD was an unusually large and versatile one this year. Headed by Norman Cary, the squad was composed of Bunnell, Zubko, Clyman, Millard, Treuting, Dalrymple, and Sher. A number of new cheers were introduced, the acrobatics by members of the squad were continued, and the card displays attained unprecedented heights both in color and with regard to design. The squad completely covered all the stands and bleachers at the stadium, did herculean work at the basketball games, and was conspicuous at the swimming and wrestling meets, and pep rallies.

Al Hadley bore the brunt of the song leading duties at the football games and pep rallies. He introduced a printed song sheet which aided the student body greatly in their singing.

VARSITY FENCING (*above*): *first row*—Le Bow, Alexander, Rudolf, Yawitz, Brandt; *second row*—Assistant Coach Garone, Coach Cetrulo, Holtzberg, Cyphers, Gilbert, Kornblatt, Brill, Gray, Howard, manager, Stern.

CHEERLEADERS (*lower left*): *kneeling*—Dalrymple, *standing* Sher, Cary, Treuting.

SONG LEADER (*lower right*): Hadley.

Varsity Crew

The 1940–41 season definitely established VARSITY CREW as a major sport on campus, when the oarsmen garnered such honors as few Scarlet teams have ever enjoyed.

Coach Chuck Logg's Crew opened its season April 12, barely losing by 1/3 of a boat-length to a powerful Princeton eight, and on April 19, in the Harlem river, Columbia nosed them out by 1/4 of a length. The next week saw the Scarlet come into their own when, on the Schuylkill, they swept home six lengths ahead of Pennsylvania University.

On the home waters of the Raritan, on May 10, the Crew outstroked Dartmouth and Boston Universities by six lengths to take the Bill Cup Regatta. The "Dad" Vail Regatta, never won by other than Rutgers Crews since its founding, was won again by the Scarlet this year. Coach Logg's boys then traveled to Marietta, Ohio, and swept a field of six crews to keep their chain of victories intact.

Climaxing an already successful season, the Crew made Rutgers athletic history when they received an invitation to compete in the famed Poughkeepsie Regatta. In a field of nine stellar crews, the Scarlet boatsmen finished seventh.

The 1941–42 season got off to a fine start when, on December 27, the sweepswingers set a new course record at the invitation Sugar Bowl Regatta in New Orleans, a part of the annual Sugar Bowl Festivities.

Baseball

The Rutgers BASEBALL team, confronted by a major schedule, definitely established itself as a leading eastern college nine with a record of eleven victories and seven defeats. Good pitching and timely hitting resulted in one-run decisions over Brown, Lafayette, and Colgate. The Scarlet batsmen also increased their prestige by triumphing over Temple 6 to 3, accounting for one of three defeats suffered by the Owls last season, and trouncing Syracuse 9 to 1, which was one of but four setbacks for the Orangemen. Princeton, N. Y. U., Maryland, and Manhattan were other "name" teams to fall before the Scarlet; while Yale and Seton Hall were victorious only by slender margins.

Jim Perkins, with seven wins and three losses, was the leading pitcher, but he received able assistance from hurlers Ozzie Day and Ollie Compton. Batterymate Lee Dwulet and an all-Junior outfield composed of Werner Kuhn, Joe Horvath, and Angie Triandafilou contributed immeasurably to the team's success. Frank Brock, Rutgers top batter and fielder, distinguished himself the entire season with his sparkling play.

Varsity Track

The 1941 track season, Coach Bernie Wefers' 19th year "on the banks," was unfortunately not a very successful one from the point of view of meets won, but it did serve to bring forth excellent performances on the part of some of the cindermen. The opening meet, against Lafayette in the Stadium, resulted in a victory for the visitors, but for the next few weeks at least the Scarlet's fortunes were better. The mile relay team placed third in the M.A.S.C.A.A. race at the Penn Relays, and Lehigh was drubbed for the only dual meet victory of the season. The final bright spot for the team was the Middle Atlantic State College Amateur Athletic championships, which were held at Allentown, when the Scarlet placed fourth in a field of eighteen schools. The season ended disastrously when the squad was outclassed by New York U. and the Army.

Outstanding performances were registered by Captain Randy Cramer, who broke the school 880 yard record in April, and again against Army in May, in addition to winning his event at the M.A.S.C.A.A. championships; Bob Wurtz, who was a consistent winner of the 440 yard dash; and Leo Cohn, whose exploits with the javelin paced the field men. Moreover, several promising freshmen revealed enough talent to guarantee the Scarlet's returning to form in 1942.

Lacrosse

The 1941 LACROSSE team was a well balanced group that recorded four wins in a difficult eight game slate. The Queensmen scored freely against Lehigh and Lafayette to win the Middle Three championship. In the opening game, a last-half scoring drive gave the varsity a win over the alumni. In the next contest, Rutgers was defeated by a powerful Yale team.

Traveling to Maryland, Coach Fred Fitch's stickmen were beaten by the high scoring Terrapins. Rutgers then played host to a weak Lehigh ten, and won, 13 to 1. The following week the team continued as a high scoring combination when it swamped Lafayette, 16 to 1. Burt Hasbrouck led the scoring with a total of five goals. Weakened by the losses of Fred Baser and Harry Rockafeller, who were injured, the team suffered its third setback at Syracuse. Building up toward the Princeton game, the stickmen easily subdued City College of New York, but lost to the Tigers in the final contest.

Although several of the 1941 seniors were key men, the 1942 squad will be a well balanced veteran team, with the exception of the position of goal tender. Defenseman Fred Baser, a sophomore, played in the North-South All-Star game, and goalie Harry Rockafeller merited All-American honorable mention.

Golf

Coach Richard Mumford, serving his second year as golf coach, greatly increased the size of the schedule over that of the previous year. However, this increase in the number of teams met had rather disastrous results in that of seven contests the Scarlet was able to come out victorious in only two and one resulted in a tie.

Tennis

The Rutgers TENNIS team compiled a commendable record this year and came to the end of its season with six wins and five losses. The highlights of the season were the decisive victories over Lafayette, Bucknell, Fordham, and N.Y.U. The southern colleges, because of their opportunity to practice outdoors earlier in the year, continued to hold sway over the Scarlet, but it was the Princeton debacle which marked the major setback.

Intramural Sports

The Keller Trophy, emblematic of supremacy in the INTRAMURAL sports program, is given each year to the living group which scores the highest number of points according to a fixed rating chart. Up to the present the Kappa Sigma Fraternity is leading the parade with a total of thirty-four points and the Chi Phi Fraternity is in the runner-up position with thirty-one.

The program is a varied one and includes such sports as: touch-football, cross-country, basketball, swimming, softball, track, tennis, and horse-shoe pitching. Also included is the inter-class crew race which was won this year by the class of 1943. In addition to the above team sports the program includes the following individual sports: cross-country, tennis, fencing, squash, boxing, track, and golf. Individual medals are awarded to the winners in each sport. Some twenty-four living groups participated in the program this year and a total of over three hundred individuals represented these groups. Lyman C. Avery acted as intramural manager.

The standings up to the present time are:

	CROSS-COUNTRY	TOUCH-FOOTBALL	BASKETBALL	TOTAL
KAPPA SIGMA	3	13	18	34

Physical Education Program

Shortly after America's entry into the present war, the Rutgers administration formulated plans to aid the government in preparing men physically for the armed forces. A required course in physical education was adopted at the beginning of the second semester. This proved to be very beneficial, as each student was guided by an instructor in the class for at least two periods a week. Men who had rarely used the facilities of the gymnasium were formally introduced to those activities that would reap physical benefits. Protests turned to commendations as the rumor that the course was worthwhile spread among the students. By the end of three weeks, physical education had settled into its rightful place as a required undergraduate course.

The program shaped up rapidly, and within two weeks Professor George Dochat and Assistant Professor Joseph Makin of the Department of Physical Education had set up a complete schedule of body building calisthenics. The students were instructed in boxing, wrestling, judo, swimming, and apparatus work. Coaches of the various sports and physical education students were pressed into service as teachers, thus giving the course a variety of instructors.

All of the athletic equipment of the University was used to insure success in the program. The upper gymnasium was used for classes in apparatus, and at least one thousand students swam in the pool each week. The board track and College Field were used by large groups of students who participated in mass activities. Despite this intensive training program, Rutgers facilities proved to be adequate to meet these new demands. Varsity sports were still able to function properly and efficiently along with this new physical education program.

It is hoped that this course will stimulate the average student to become a regular participant in some form of physical exercise as well as condition him for possible service in the armed forces.

Photography Credit

The following were especially helpful in securing photographs used in this volume: Miss Iverna Gruhn, Secretary in the Music Department, Mr. Arthur Matsu and Mr. Edward Issacs of the Public Relations Department, and Mr. Kenneth S. Cree.

Irving Chidnoff—all administration and senior portraits unless otherwise indicated.

George H. Pound—frontispiece, 30 (presidents except Clothier), pins and keys, campus views, groups, and fraternity houses.

John W. Ervin—all candids unless otherwise indicated.

Paul T. Hull—17 (aerial view, College of Agriculture Campus).

Edward R. Issacs—33 (Miers).

The 1942 *Scarlet Letter* was designed and illustrated by Carl N. Shuster, Jr., and production management controlled by Edward A. Reisman.

The coated stock is Oxford Polar Superfine, ivory, glossy; the text is printed on Oxford Antique. The type employed is twelve point Janson with Caslon ※ 337 display lines. It is bound in Bancroft Buckram with genuine pigskin leather back and side strips and is stamped in gold.

The frontispiece illustrating the interior of the Chapel was reproduced by duotone engraving.

Portrait photography by Irving Chidnoff of New York City, and group and view photography by George H. Pound of Highland Park, New Jersey.

All engravings were supplied by Empire Photo-Engraving Company of New Brunswick, New Jersey. The book was completely printed and bound at the Country Life Press Corporation of Garden City, New York.
